APPOINTMENTS, &c., BY THE GOVERNOR.

IS EXCELLENCY THE GOVERNOR has been pleased to make the following appoint-

Mr. T. R. E. LOFTUS to act as Extra Office Assistant at Galle to the Government Agent, Southern Province, with effect from May 6, 1897.

Mr. P. E. PIERIS to act as Extra Office Assistant at Jaffna to the Government Agent, Northern Province, with effect from May 7, 1897, during the employment of Mr. B. HILL on other duty, or until further orders.

Mr. J. B. Misso to act as Commissioner of Requests and Police Magistrate, Matale, and Commissioner of Requests and Police Magistrate, Panwila, with effect from May 15, 1897, during the employment of Mr. W. CARBERY on other duty, or until further orders.

Mr. C. A. MURRAY to be Additional Police Magistrate, Batticaloa.

Mr. J. W. VINER to be a Visitor of the Ratnapura Jail, in place of Mr. F. W. B. CAMPBELL, who has left the district.

Mr. A. MURRAY to act as Director of Public Works, in addition to his duties as Acting Provincial Engineer, Western Province, from the 9th instant, until the arrival of Mr. F. A. COOPER in the Island.

Mr. H. P. BAUMGARTNER to be a Director of the Widows' and Orphans' Pension Fund during the absence of Mr. F. R. SAUNDERS from the Island.

Mr. A. AUWARDT, District Engineer, Amban-pitiya, to be an Official Member of the Local Board of Health, Kegalla, in the place of Mr. W. W. POLE-FLETCHER, who has left the district.

Messrs. N. M. WALKER and H. A. GRANT to be Inspectors of Coaches plying between Jaffina and Anuradhapura.

Mr. J. P. Dove, of Bon Accord, Bogawantalawa, to be an Inquirer into Sudden Deaths for the Judicial District of Hatton, vice Mr. J. MANLEY POWER.

By His Excellency's command,

E. NOEL WALKER, Colonial Secretary.

Colonial Secretary's Office, Colombo, May 6, 1897.

IIS EXCELLENCY THE GOVERNOR has been pleased to make the following appointments:—

Mr. CYRUS DE SILVA ABAYARATNA, of Mampitiya, to be a Notary Public at Galle and throughout the Four Gravets of the Galle town, in the District of Galle, Southern Province, and to practise as such in the English and Sinhaleselanguages.

Mr. CHINNATAMPI CHAPAPATIPILLAI, of Jaffna, to be a Notary Public at Varani Idaikkurichchi and throughout Tenmarachchi Division, in the District of Jaffna, Northern Province, and to practise in the Tamil language.

By His Excellency's command,

E. NOEL WALKER, Colonial Secretary.

Colonial Secretary's Office, Colombo, April 30, 1897.

IS EXCELLENCY THE GOVERNOR has been pleased to make the following appointments:

KAPURALE APPUHAMIGE UKKU BANDA to act Registrar of Marriages (Kandyan), Births, and Deaths of Mahapotana korale, in the Anuradhapura District, for four weeks and two days from

May 12, 1897, during the absence of the Registrar, K. M. KIRI BANDA, on leave. His office will be at Konwewa, where the permanent Registrar holds his office.

DON DIONIS SENERAT RATNAYAKA to be, provisionally, Registrar of Marriages, Births, and Deaths of Migahajandura, in the Hambantota District, with effect from May 1, 1897, vice D. A. RATNAYAKA, resigned. His office will be at Madawwewatta in Pahalakumbukwewa.

By His Excellency's command,

E. NOEL WALKER, Colonial Secretary.

Colonial Secretary's Office, Colombo, May 6, 1897.

WITH reference to the Gazette notice dated 14th instant, it is hereby notified that Mr. P. G. DE SILVA's appointment as Acting Registrar of Lands, Chilaw, will take effect from the 1st proximo instead of the 10th proximo.

By His Excellency the Governor's command,

E. NOEL WALKER, Colonial Secretary.

Colonial Secretary's Office, Colombo, May 4, 1897.

WITH reference to the Gazette notice dated January 22, 1897, it is hereby notified that the acting appointment of HALKOONGE DON ABILINU, Police Vidane, as Registrar of Marriages, Births and Deaths of Otarapalata East, in the Alutkuru Korale North of the District of Negombo, has been extended to July 29, 1897.

By His Excellency the Governor's command,

E. NOEL WALKER, ... Colonial Secretary.

Colonial Secretary's Office, Colombo, May 6, 1897.

GOVERNMENT NOTIFICATIONS.

THE following circular despatch received from the Secretary of State for the Colonies, with regard to the celebration of the sixtieth year of Her Majesty's accession to the Throne, is published for general information.

By His Excellency the Governor's command,

Colonial Secretary's Office, Colombo, May 4, 1897. E. NOEL WALKER, Colonial Secretary.

The Right Hon. the SECRETARY OF STATE to Governor the Right Hon. Sir J. WEST RIDGEWAY, K.C.S., K.C.S.I.

Circular.

Downing street, February 25, 1897.

SIR,—THE question has recently been submitted to me whether any joint or uniform action should be taken in Her Majesty's Colonial Possessions for the celebration of the sixtieth year of Her accession to the Throne, or whether such celebration should be left to the separate action of the several Colonies.

2. If it were possible to inaugurate any such joint or uniform celebration throughout the Colonies, it would doubtless greatly add to the interest that must in any circumstances attach to the commemoration of this unique and auspicious event. But, apart from other considerations, it appears to me that the great variations of climate and season that are to be found throughout Her Majesty's Colonial Empire at any given period of the year would alone render any such action impracticable; and I prefer therefore to leave it to local initiative in each case to make whatever arrangments may be suggested by lead circumstances, feeling assured that I may rely upon the judgment and good feeling, not only of those in authority, but of the general body of Her Majesty's subjects, to celebrate the event in a manner befitting the occasion.

I have, &c.,

J. CHAMBERLAIN.

In accordance with articles (c) and (d) of the Amended Government Minute dated December 7, 1894, it is hereby notified that the rate of exchange which ruled on April 30, 1897, was—

1s. 3d.

Audit Office, Colombo, May 6, 1897. W. T. TAYLOR, Auditor-General.

IN terms of the 57th section of the Ordinance No. 17 of 1869 notice is hereby given that the Collector of the Port of Colombo has, subject to the approval of His Excellency the Governor, approved and appointed the warehouse known as the Gamma Warehouse at Leyden Bastion as a warehouse in which goods may be warehoused, kept, and secured without payment of duty upon the first entry thereof.

LIONEL F. LEE, Principal Collector of Customs.

Customs, Colombo, April 30, 1897.

Whereas by the 57th section of the Ordinance No. 17 of 1869, intituled "An Ordinance for the general regulation of Customs in the Island of Ceylon," it is enacted that the Governor may, by Proclamation, from time to time appoint the ports of the Island which shall be warehousing ports for the purpose of this Ordinance, and the Collectors of such Ports may from time to time, by notice in writing under their hands, approve and appoint warehouses or places of security in such ports, and direct in what different parts or divisions of such warehouses or places, and in what manner and under what regulations and what sort of goods may be warehoused, kept, and secured without payment of duty upon the first entry thereof; and may also direct in what cases and with what sureties and to what amount security by bond shall be required in respect of any warehouse so approved or appointed as aforesaid, or in respect of any goods deposited therein or for the security of the duties due thereon; and such Collectors may, by a like notice, revoke or alter any such appointments or declarations, but every such notice of the appointment of warehouses, or of the revoking thereof, shall be subject to the Governor's approval, and shall be published in such manner as he may direct:

And whereas Colombo has been proclaimed a warehousing port; and whereas the Collector of Customs of the Port of Colombo has, by notice in writing under his hand, approved and appointed the warehouse known as Gamma Warehouse at Leyden Bastion, Colombo, as a special warehouse in which goods may be warehoused, kept, and secured without payment of duty upon the first entry

thereof:

It is hereby notified that His Excellency the Governor has approved of the notice of the Collector of Customs, Colombo, notifying that the warehouse known as the Gamma Warehouse at Leyden Bastion has been approved and appointed as a warehouse in which goods may be warehoused, kept, and secured without payment of duty upon the first entry thereof: and His Excellency the Governor doth hereby direct that the said notice be published in the Government Gazette.

By His Excellency's command, E. NOEL WALKER,

Colonial Secretary's Office, Colombo, April 30, 1897. Colonial Secretary.

THE following rules framed by the Village Committee of Weligam korale under the provisions of "The Village Communities' Ordinance, 1889," and approved by the Governor, with the advice of the Executive Council, are published for general information.

Colombo, April 14, 1897.

By His Excellency's command, E. NOEL WALKER, Colonial Secretary.

Rules.

- 1. No person shall commit a nuisance on the beach or in an open garden between Kapperatota and You Ode, on the south of the road leading from Galle to Matara.
- 2. No person shall throw dirt, cocoanut husks, or any sort of rubbish, or open out water-closets, into any of the canals running through the town of Weligama.

NOTICE is hereby given that an examination for candidates wishing to enter the Second Class of the Clerical Branch of the Public Service will take place on Wednesday, August 4, 1897, and following days.

2. Applications for admission to the examination by persons not now in the Public Service must be addressed to the Director of Public Instruction, must bear a stamp of Rs. 2.50, and must be in the form (Schedule A) attached to this notice. Forms are to be obtained at any Post Office, on application, or within four days' notice. A certificate of the registration of the candidate's birth showing him to be on the 1st July, 1897, between the ages of 18 and 21, and a certificate of good character, signed by a responsible person,* to the satisfaction of the Director of Public Instruction, must be attached to the form of application. Affidavits will in no circumstances be accepted.

3. Clerks belonging to the First Class of the Clerical Branch of the Public Service, who have completed three years' satisfactory service, and those employed by Provincial and District Road Committees, whose appointments date prior to July 1, 1875, are eligible for examination irrespective of age, and without fee. Their applications (in the same form, Schedule A) for admission to the examination should be forwarded to the Director of Public Instruction through the Heads of their Departments.

4. Applications are to reach the Director of Public Instruction not later than noon of Tuesday, June 15; any application received after that hour, by whatever cause delayed, will be absolutely rejected.

5. The Director of Public Instruction will return to the candidate his application, approved or disapproved, as the case may be, after taking, if necessary, the orders of Government thereon. The approved application shall constitute the candidate's ticket of admission to the examination. Candidates presenting themselves for examination must produce to the officer appointed to supervise the examination at the station at which they present themselves their forms of application, approved by the Director of Public Instruction. A candidate not producing such form, whatever may be the reason for his not so doing, will be refused admittance to the examination.

6. Examinations will be held at the stations and places and under the supervision of the officers specified in Schedule B. Heads of Departments are required to grant to officers of their Departments, whose applications to present themselves for examination have been returned to them approved by the Director of Public Instruction, leave to present themselves at the most conveniently situated station at which the examination is to be held.

7. The examination will be competitive for all candidates. The number of places assigned for competition shall be 30.

8. The subjects for examination are those set out in Schedule C to this notice. The examination shall be held in two parts: the first part, a qualifying examination in Handwriting, Spelling, and Arithmetic. Any candidate failing to obtain two-thirds of the marks allotted for Handwriting and half those allowed for Spelling and Arithmetic shall be excluded from the remainder of the examination. The second part of the examination shall be in the remaining subjects in Schedule C. Should a candidate obtain less than one-fourth marks in any of the subjects other than Handwriting, Spelling, and Arithmetic, or, if he be a Sinhalese or Tamil, less than two-thirds marks in his native language, such marks shall not be counted in his favour.

9. Officers who have served continuously in the First Class of the Clerical Service since December 24, 1874, will be allowed to pass if they obtain one-third marks in two out of the three subjects combined, viz., English, Arithmetic, and Native Language.

Colonial Secretary's Office, Colombo, May 4, 1897. E. NOEL WALKER, Colonial Secretary.

^{*}The Candidate's Teacher or Schoolmaster by preference, or a Member of the Public Service, Justice of the Peace, Minister of Religion, Advocate, Proctor, or Notary, or, generally speaking, some person whose name is known and to whom reference can readily be made.

SCHEDULE A.

GOVERNMENT OF CEYLON.

Clerical Examination.

N.B.—This Form to be filled up and sent so as to reach the Director of Public Instruction not later than noon of Tuesday, June 15, 1897. It must be correctly and legibly filled up. Candidates who are already in the Public Service should forward the Form through the Head of the Department in which they serve.

N.B.—The Examination will be held on August 4, 1897, and following days, at 11 A.M. The Station at which the Examination of the Candidate shall take place is that specified in his sanctioned application.

Name of Candidate, and whether Sinhalese, Tamil, or Eurasian

Day, Month, and Year of Birth

Postal Address to which this Application should be returned

At what Station does the Candidate desire to be examined?

Is the Candidate already permanently employed in the Service of Government, and if so date of first appointment?

HE following regulations regarding the entry of Engineer Students in Her Majesty's Navy and for the entry of Students in Naval Construction are published for general information.

By His Excellency the Governor's command,

Colonial Secretary's Office. Colombo, April 27, 1897.

E. NOEL WALKER. . Colonial Secretary.

Regulations for the Entry of Engineer Students in Her Majesty's Navy and for the entry of Students in Naval Construction, with a view to their being trained in Her Majesty's Dockyard at Devonport.

[The engineer students to be trained for service affoat as engineer officers. The students in naval construction to be trained with a view to their joining the Royal Corps of Naval Constructors.]

Vacancies open to public competition principally; a few to be filled by nominated candidates.

Vacancies for appointments as engineer students in Her Majesty's Navy will be filled principally by means of competitive examinations open to candidates as understated, being of the prescribed age and of good moral character, but their Lordships will reserve to themselves the right to nominate a few at each entry, who will be appointed on passing the examination specified in paragraph 11.

A candidate must be the son either (1) of natural-born British subjects, or (2) of parents naturalized in the United Kingdom; and he must be of pure European descent. If any doubt arises on the latter point, the burden of clear proof that he is qualified will rest upon the candidate himself.

The candidates to be nominated will be selected by the Board of Admiralty from sons of officers of the Navy, Army, or Royal Marines, who have been killed in action, or who have been lost at sea on active service, or killed on duty, or who have died of wounds received in action, or injuries received on duty within six months from the date of such action or injury, or sons of officers of the Navy or Royal Marines who have performed long and meritorious service. The number to be so nominated will not exceed one-fifth of the total number of engineer students to be entered. Except as provided in paragraph 11, the candidates will be subject to the same regulations as the candidates for appointment by open competition.*

Three engineer studentships will be given annually to sons of gentlemen in the Colonies on the recommendation of the Secretary of State for the Colonies, provided they pass the required examination. These candidates will be subject to precisely the same regulations as herein laid down for nominated service

candidates.

Appointments.

applications.

Time for sending in

2. The number of appointments to be made in each year will be fixed by their Lordships.

3. The list of candidates for the appointments by open competition will be kept at the office of the Civil Service Commissioners. All applications for the forms to be filled up by persons who wish to compete must be sent to the Secretary, Civil Service Commission, London, S.W., on or after the 1st of January in each year, and care must be taken that the forms when filled up reach the Civil Service Commissioners on or before the 15th March following, as no notice will be taken of forms received after that date. The list of nominated candidates will be kept at the Admiralty.

Candidates must not be less than fourteen nor more than seventeen years of age on the 1st day of May in the year in which they are examined.

5. Evidence of age and character will not be required before the examination, but candidates successful in it will not be eligible for appointment unless they satisfy the Civil Service Commissioners on these points.

The medical examination of the successful candidates will be held under the authority of their Lordships as soon as possible after the result of the educational examination is made known. No candidate will be entered as an engineer student unless he is pronounced to be physically fit. Candidates in or near London will be medically examined by the Medical Director-General of the Navy at the Admiralty. Those residing near one of Her Majesty's Dockyards, or one of the First Reserve Ships, or Drill Ships of the Royal Naval Reserve, or the Flagship at Queenstown, will be examined by the medical officers attached thereto. The medical examinations will be conducted in all respects in strict accordance with the instructions for the examination of persons for admission into the Naval

Age.

Age and character, evidence of.

Medical examination, time and place.

Re-vaccination.

Office on or before the 1st of February in each year.

^{*} Applications for nominations must be made so as to arrive at the Admiralty before the 1st of February in each year, and should be addressed to the Secretary of the Admiralty if the candidate is the son of an officer of the Navy or Marines; to the Military Secretary, Horse Guards, if the candidate is a son of an officer of the Army; and to the Military Secretary, India Office, if the candidate is the son of an officer of the Indian Army.

† The names of the colonial candidates are to be received at the Admiralty from the Colonial Office on or before the left of February in each year.

The colonial candidates who reside abroad will be medically examined at the naval station nearest to where they reside. All candidates at the time of their medical examination must produce certificates to the satisfaction of the examining officers that they have been re-vaccinated, or they must be re-vaccinated before they can be considered eligible for entry as engineer students in H. M. Navy.

Educational examination, time and place.

Competitive

examination.

The educational examination will be held by the Civil Service Commissioners in London, Liverpool, Portsmouth, Devonport, Birmingham, Manchester. Newcastle-on-Tyne, Edinburgh, Dublin, and as can be most suitably arranged for the colonial candidates who reside abroad; and will take place in the month of April of each year. The exact date may be ascertained by application to the Secretary, Civil Service Commission, on or after the 1st of January in each year. The examination of the colonial candidates who reside abroad will be conducted by the Civil Service Commissioners and under the superintendence of the Commander-in-Chief of the nearest naval station. Suitable arrangements will be made for the candidates to receive the examination papers; and the worked papers of the candidates will be sent to London as soon as possible to enable the marks to be assigned by the Civil Service Commissioners.

The following will be the subjects of the competitive examination, and the maximum number of marks for each subject*:-

Arithmetic 300 English :-Handwriting Accuracy and intelligence in writing from dictation 200 Composition Grammar 150 350 French or German or Italian: Translation into English 150 Latin :--Translation into English 150 Very Elementary Physics and Chemistry † 100 Geography (including Physical Geography) 200 Algebra (up to and including quadratic equations)
Euclid's Elements (Books I. to IV., and Book VI., and the defini-300 tions of Book V.) 300 ... Freehand Drawing 100 ... Total 1,950

All candidates will be tested as to their ability to read aloud with clearness distinctness, and accuracy, and without hesitation. Stammering, or any imperfection of utterance, will be regarded as a disqualification.

Examination fee.

Result of examination.

- 9. A fee of one pound will be required from every candidate attending an examination.
- Candidates in the competitive examination who fail to pass either in arithmetic, or in handwriting, dictation, and composition combined; also those who fail to pass in reading aloud, will be disqualified. Successful candidates will be entered as engineer students in H.M. Navy, according to the number of appointments which it may be decided to make each year; they will be taken according to their position on the examination list. Candidates who obtain less than 880 marks in the aggregate will not be placed upon the list.

11. The candidates who are nominated by their Lordships, and by the Secretary of State for the Colonies, will be required to pass the same test examination in the first four subjects and in reading aloud as the candidates whe enter for the competitive examination. They will also be examined in the other subjects to ascertain the extent of their knowledge and to determine their order of merit, and no nominated candidate will be appointed as an engineer student who obtains less than 880 marks in the aggregate.

candidates.

Candidates will be informed by letter from the Civil Service Commission of the result of their examination as soon as it has been ascertained: except in the case of the colonial candidates residing abroad, who will be informed by telegram from the Admiralty to enable them to join the Training School as soon as possible after they have been found medically fit.

* Reprints of some of the papers which have been set at previous examinations, together with tables of the marks assigned, may be purchased, either directly or through any bookseller, from the following agents:—Messrs. Eyre and Spottiswoode, East Harding street, Fetter lane, London, E.C.; Messrs. John Menzies & Co., 12, Hanover street, Edinburgh, and 90, West Nile street, Glasgow; and Messrs. Hodges, Figgis & Co., 104, Grafton street, Dublin. Price 6d.

† The examination in Physics and Chemistry will be easy questions. In Chemistry: Oxygen, The examination in Physics and Chemistry will be easy questions.

Hydrogen, Nitrogen, Carbon, the nature of combustion. Physics: Mechanics, Hydrostatics, Pneumatics, Electricity and Magnetism.

Examination for nominated

Informing result of examination.

Entry as engineer students.

Appointment as students in naval construction.

Bonds.

Payments to be made by parents or guardians.

Payments to be made half-yearly in advance.

Clothing, washing, necessaries, board, lodging, medical attendance,

Pay.

Leave.

Health certificate to be furnished.

13. The successful candidates will be entered as engineer students in H. M. Navy on the 1st of July in each year, and will be borne on the books of the Depôt Ship at Devonport for disciplinary purposes. The period of training at H. M. Dockyard at Devonport will be for five years, but it will be reduced to four years in the case of engineer students who pass the examination described in paragraph 31, clause 1; pass very creditably in practical workmanship, professional subjects, and knowledge of engine room duties referred to in paragraph 34; and whose conduct and character are satisfactory. (See paragraph 25.)

14. Students in naval construction, not exceeding two in number annually, may be appointed from among engineer students who have shown special ability at the end of their second year of service. The students in naval construction, on appointment, must join with their parents or guardians in a bond for £500 to enter, if required, into Her Majesty's Service as Assistant Constructors, if at the expiration of their training they should obtain certificates of good conduct and efficiency for entry in that capacity. They will continue to be under naval discipline until their entry as Assistant Constructors. (See paragraphs 45 and 47.) A form of the required bond is set out in the schedule thereto.

An Assistant Constructor will not be permitted to leave the service until seven years have expired after the completion of his term at the Royal Naval College at Greenwich, unless he shall pay the sum of £500. This payment is for the purpose of defraying the charges incurred by the public for his education.

- 15. Students in naval construction will complete five years' service at Devonport in the Training School for engineer students, and will be subject to the same conditions as to fees, pay, uniform, and other details as may be prescribed from time to time for engineer students. Their course of instruction will be laid down from time to time. (See also paragraphs 42 to 51.)
- 16. The parent or guardian of each engineer student entered will be required to pay the sum of £40 per annum for each year the student may be under training—four, five, or six* years as the case may be. It will, however, be at the discretion of the Lords Commissioners of the Admiralty to select from among the students entered at each yearly examination a number not to exceed five, being sons of officers of the Navy, Army, or Royal Marines, or of Civil Officers under the Board of Admiralty, with respect to whom the annual payment will be £25 only. Their Lordships also reserve the power to further reduce this latter sum in the case of sons of officers killed or drowned, or who have otherwise lost their lives on Service. In making their selection, my Lords will have regard solely to the pecuniary circumstances of the parents or guardians of the students.
- 17. The payments are to be made half-yearly, in advance, to the Cashier of H. M. Dockyard at Devonport; the first payment is to be made on or before the 1st of July, the date of entry of the student, and the subsequent payments on or before the 1st January and 1st July during the remainder of the student's training. Should a student leave from any cause or be dismissed from the Service, not any portion of the payments that have been made in his behalf will be refunded.
- 18. The parents or guardians of the students will also be required to provide the uniform (see paragraph 52) or other clothing, washing, and necessaries of each student. Board and lodging and medical attendance will be provided by the Admiralty. The students will be required to reside in the Training School at Keyham.
- 19. The weekly pay of students during their training will be as follows, provided they are well reported on by the officers:—

```
First year ... One shilling Second year ... Two shillings Third year ... Three shillings Fourth year ... Five shillings Fifth year ... Eight shillings
```

- 20. Six weeks' leave (36 working days) on full pay will be granted each year to all students whose conduct and progress have been satisfactory. Those who cannot be so reported will be granted leave for smaller periods, which will be at the discretion of the Admiral Superintendent. This leave is to be taken during the school vacations, viz., four weeks at midsummer and two weeks at Christmas.
- 21. Every engineer student on first joining, or on returning to the "Training School" after the vacations, will be required to produce a health certificate—signed by his parent or guardian, not earlier than the day before his return to the "Training School"—to the effect that, so far as is known to his parent or guardian, he has not for at least three weeks immediately preceding his return been exposed to any infectious disease, or entered any house where such disease has existed. A certificate, drawn up in the necessary form, will be sent to each parent, and failure on the part of the engineer student to produce this certificate, duly filled up and signed, on his return to the "Training School," will entail his being isolated until the certificate is received.

Checking of pay.

Discharge if unfit

Supervision.

Employment and instruction of students.

Discharge or suspension of appointment for unsatisfactory conduct.

Examination of students.

22. The students are not be checked pay while on leave, nor when hurt on duty. When sick or sent to hospital from causes beyond their own control, they are not to be checked of their pay until they have been absent for six months in the aggregate during any period of twelve months; at the expiration of this time a special report is to be made to their Lordships. When sick or sent to hospital from causes within their own control they are to be checked of their pay. Students pronounced at the end of twelve months' absence on account of sickness or hurt to be permanently unfit or unlikely to be capable of entering HerMajesty's Service as Assistant Engineers or as Assistant Constructors will be discharged. Should any student in the course of his training develop physical unfitness for the Service he will be discharged.

23. The students will be under the supervision of the Superintendent of the Dockyard and a staff of officers, and subject to such rules and regulations as their Lordships may deem necessary.

24. Students will receive practical training in the engineering workshops, will spend a portion of their time in the drawing office, and will receive instruction in iron shipbuilding at H. M. Dockyard at Devonport. While the engineer students are being instructed in iron shipbuilding they are to be under the direction of the Chief Constructor. They will attend the Engineer Students' School in the Dockyard for such periods and for the study of such theoretical subjects as may from time to time be determined on. Means will be afforded them of acquiring the ground work of the knowledge required by a naval engineer respecting the working of marine engines and boilers, including those repairs which can be carried out afloat, the practical use of the various instruments used in the engine room, also of the construction and working of electric light, torpedo and gun machinery, and of becoming generally acquainted with the duties of a naval engineer.

25. The cases of those students who fail to make satisfactory progress and give no hope of becoming efficient officers, or are guilty of persistent misconduct, will be considered annually with reference to the discharge of such students from the Service.

In the event of serious misconduct on the part of senior engineer students, which may not be of such a nature as to necessitate their dismissal, their appointments will be withheld as may be considered necessary by their Lordships from three to nine months after their passing for the rank of Probationary Assistant Engineer on the completion of their five years' period of training. In such cases they will be employed in workshops only, and whilst thus under observation their conduct will be reported to the Admiralty quarterly.

Appointments as Probationary Assistant Engineer will not be granted to any students of four years' service whose character and conduct are considered by their Lordships to have been unsatisfactory during the preceding twelve months.

- 26. Students will be examined once a year under the direction of the President of the Royal Naval College, Greenwich.
- 27. The preliminary examination at the end of the second year of service will be as follows, subject to modification at any time if considered desirable:—

28. Students who fail to pass the examination will be discharged, unless for satisfactory reasons their Lordships' sanction their remaining on the lower division for another year.

29. Students will also be examined in practical engineering at the end of their second year of service, and be required to reach a standard of 30 per cent. Those failing to attain this standard will be liable to dismissal. They will also be examined as to their practical acquirements and knowledge of steam machinery and shippoulding respectively at the end of the third, fourth, and fifth years of their service by officers of the Admiralty. Prizes will be given annually at the Dockyard to the students most highly reported on as regards their skill as workmen, and prizes for distinction at the examinations in professional and educational subjects. A certain degree of proficiency in the educational subjects, and in practical engineering and shipbuilding respectively, will be considered essential at all examinations.

Engineer students.
Regulations for
passing for
Probationary
Assistant
Engineers.

- 31. The following are the regulations for passing at the final examination, subject to modification at any time if considered desirable:—
 - (1) The standard for admission to the Royal Naval College will be 60 per cent. or above on the combined total of the obligatory and optional subjects.
 - (2) The standard for passing with a second class certificate will be at least 50 per cent. on the total of obligatory subjects, but less than 60 per cent. on the combined total of obligatory and optional subjects.
 - (3) The standard for passing with a third class certificate will be 30 per cent. or above, but less than 50 per cent., on the total of obligatory subjects.
 - (4) Students who obtain less than 30 per cent. of the total number of marks for obligatory subjects will be ineligible for appointments as Probationary Assistant Engineers.

32. Engineer students who fail to pass the examinations at the end of their fifth year referred to in paragraph 31, clause 4, will be discharged, unless their Lordships see fit to allow them to continue serving another year at Devonport. A second failure at the end of the sixth year will involve dismissal from the Service. In no case will the limit of six years be exceeded.

33. The pay of a student in the sixth year will be the same as during the fifth year, and the payment to be made by the parent or guardian of the student in the sixth year will also be the same as for the fifth year of service.

34. (1) The examination of candidates for appointment as Probationary Assistant Engineers in professional subjects and knowledge of engine room duties will be held by the officers of the Steam Reserve in time for the necessary certificate D 455 to be forwarded to the Admiralty by the 23rd of June in each year. Certificates of proficiency in practical workmanship, signed by the Chief Engineer of the Dockyard, should also be forwarded by the same date.

(2) These practical certificates from Steam Reserve and Dockyard should be marked very creditable, creditable, or ordinary in accordance with the proficiency of the candidates.

- (3) Students failing to pass these examinations are liable to dismissal, or may be allowed to serve such further period, not exceeding one year, as may be determined on by their Lordships, and again submit themselves for examination.
- 35. Students will not be entered as Probationary Assistant Engineers or Probationery Assistant Constructors until they have learned to swim.
- 36. Engineer students who pass the examinations described in paragraph 31, clauses 1, 2, and 3, and paragraphs 34 and 35, will be arranged in three classes, in the order of merit according to the marks which they obtain in the subjects abovementioned. They will be entered as Probationary Assistant Engineers on the 1st of July of the year of examination, and will be appointed as such to the Depôt ship at Devonport, on that date, except those referred to in paragraph 34, clause 3. Students referred to in paragraph 31, clause 1, will join the Royal Naval College

Engineer students who fail.

Pay of a student during sixth year and payment to be made. Examination in professional subjects, knowledge of engine room duties, and practical workmanship.

Students who fail.

To be able to swim.

Appointments as Probationary Assistant Engineers, and as to their proceeding to the Royal Naval College for a course of study. on the 1st of October of the year of examination for further study, and the others referred to in paragraph 31, clauses 2 and 3, will not proceed to the Royal Naval College, but will remain in the Steam Reserve at Devonport, to be appointed to H. M. ships as their services are required.

their twelve months' probationary time if their conduct and qualifications are reported satisfactory, and those at the Royal Naval College who pass in the first

class at the examination at the end of the first session will receive first class certifi-

cates, and those who fail to secure first class certificates at the examination at the

College will be granted second class certificates. Probationary Assistant Engineers referred to in paragraph 31, clause 2, will also be granted second class certificates, and those mentioned in paragraph 31, clause 3, will be granted third class

37. All the Probationary Assistant Engineers will be confirmed at the end of

Confirmation of Probationary Assistant Engineers.

Certificates obtained at the Royal Naval College.

certificates.

38. Those who obtain first and second class certificates will be allowed to count twelve months and six months of their probationary time, respectively, towards increase of pay from 6s. to 7s. 6d.a day, and towards promotion to engineer; and those who obtain third class certificates and pass very creditably in practical workmanship, professional subjects, and knowledge of engine room duties, will be allowed to count three months of their probationary time in a similar manner. (See paragraph 34.)

39. In the event of the conduct or qualifications of any Probationary Assistant Engineer not being reported satisfactory during his twelve months'

Commission to be withheld for misconduct or failing to pass examination at Royal Naval College. Probationary Assistant Engineers' pay, &c.

Assistant Engineers selected for further period of study at Greenwich.

- probation, or of his failing to pass satisfactorily at the final examination at the Royal Naval College, his commission will be withheld for six months, or for such other period as may be determined on by their Lordships.

 40. The pay of Probationary Assistant Engineers will be 6s. a day, and they
- 40. The pay of Probationary Assistant Engineers will be 6s. a day, and they will receive 1s. 6d. a day in lieu of provisions, &c. While at the Royal Naval College at Greenwich they will be provided with quarters.
 - 41. Two Assistant Engineers will be selected annually from those who take the highest place at the examination on the completion of their first course at Greenwich to pass through a further course of scientific instruction if they desire it. These two will be allowed to study at the college for a second and third session. They will receive 7s. 6d. a day, and 1s. 6d. a day towards the mess. On the completion of the third session at the college they will be sent to sea as Assistant Engineers, and after one year's service (or such other period as may hereafter be fixed) at sea they will be considered eligible to fill vacancies occurring in the civil appointments at the Dockyards and at the Admiralty.

42. The final examination of students in naval construction at the end of their fifth year will be as follows, subject to modification at any time if considered desirable:—

43. Students in naval construction who obtain 50 per cent, or above on each group of subjects (A and B) will be eligible for entry as Probationary Assistant Constructors on the 1st of July of the year of examination, and to proceed to the Royal Naval Contege on the 1st of October following for study. Those who fail to pass the above-mentioned examination will be liable to be discharged, or dealt with as may be determined by their Lordships.

Etudents in naval construction who pass the examination. Students in naval construction who fail. Accommodation and messing of students in naval construction after completion of training.

training.

- 44. On the completion of their training, students in naval construction will live and mess on board ship in the same way as Probationary Assistant Engineers for a time:—
 - (a) In the case of those who qualify for admission to the Royal Naval College as Probationary Assistant Constructors: until they join the college.
 - (b) In the case of those who fail: until a decision as to their disposal has been arrived at.

Probationary .
Assistant
Constructors' pay,

- 45. Probationary Assistant Constructors who at any time fail to obtain a satisfactory report of their qualifications will be required to withdraw from the Service and forfeit the amount of the bond, or such less amount as their Lordships shall decide to recover, unless the failure be due to sickness. The pay of the Probationary Assistant Constructors until the completion of their training at the Royal Naval College will be the same as that of the Probationary Assistant Engineers and Assistant Engineers of the same service.
- 46. Such Probationary Assistant Constructors only as obtain first or second class professional certificates on their final examination at the Royal Naval College will be admitted to the Corps of Naval Constructors, their first appointments being as Assistant Constructors Third Class.
- 47. When appointed Assistant Constructors Third Class on leaving the college they will cease to be under naval discipline, except that they will have to proceed to sea for a term if so required.
- 48. Those who obtain third class certificates will not be admitted to the Corps, but will be eligible to receive appointments as draughtsmen in the Dockyards.
- 49. Every student entering the Royal Corps of Naval Constructors will be liable to serve at any foreign naval establishment the Admiralty may direct.
- 50. The period of service in the third class for all Assistant Constructors to be four years. If favourably reported on at the end of this period as to character, ability, and industry, each officer will be eligible for promotion to the second class. Promotions from the second class to the first class of Assistant Constructors will be by selection. Those officers who have taken first class certificates on their final examination at the Royal Naval College will be eligible for promotion to first class if favourably reported on after five years' service, reckoned from the date of leaving the college, and those who have obtained second class certificates to be similarly eligible after seven years' service.

Employment during the vacations at Greenwich. 51. The Assistant Engineers who pass the second and third sessions at Greenwich will be attached during the vacations between the 30th June and 1st October to the Dockyards or Steam Reserves, where they will be employed sketching machinery, attending trials of new and repaired engines, and gaining such professional information as will be most useful to them for the purposes of engine design. The Assistant Constructors will also be attached to the Dockyards during the vacations, and will be employed on duties appertaining to their position.

Uniform, Books, &c.

52. Students on entry are to be provided with the following articles of uniform, according to the patterns laid down in the Uniform Regulations, 1891:—

1 Uniform undress coat

1 Uniform jacket

2 Uniform trousers

2 Uniform waistcoats 1 Uniform great coat Blue cloth

- 2 Uniform caps
- 2 Working suits of blue serge, each consisting of 1 undress coat, 1 waistcoat, and 1 trousers
 - 1 Waterproof coat and cape

At the commencement of the fourth year Students are to be further provided with—

1 Uniform frock coat.

1 Mess waistcoat.

Frock Coat, Undress Coat, and Jacket.—The same as for clerks, but with one row of $\frac{1}{4}$ in. purple cloth round each cuff instead of white cloth.

Students in naval construction to wear silver gray cloth round each cuff instead of purple cloth.

Estimated cost of the above uniform, to last three years with care, not more than £20.

A senior engineer student in his fourth or fifth year of Service, on requiring a new uniform jacket, may procure a double-breasted one, similar in shape to that worn by a commissioned officer.

Patterns of the working suit and of the sleeves of the undress coat and jacket are kept, and can be seen at the Admiralty, Whitehall, and at the Training School for engineer students at Keyham, Devonport.

List of Articles required as an outfit for an Engineer Student on joining the Training School at Keyham. Estimated Cost, about £15.

2 White flannel shirts

2 White flannel trousers

6 White shirts

6 Coloured shirts

12 Collars

3 Night shirts 6 Pairs merino socks

4 Pairs cotton or merino drawers

4 Merino vests 2 Neck ties

2 Pairs braces 6 White handkerchiefs 6 Coloured handkerchiefs

6 Towels

1 Clothes brush 1 Sponge

1 Leather bag 1 Clothes bag

1 Brush and comb 1 Tooth and 1 nail brush

3 Pairs boots
1 Pair slippers

1 Pair siippers 2 Pairs gloves

2 Pairs gymnastic shoes

The probable annual expense attending renewals of uniforms and other clothes, washing, subscription to Recreative Fund, &c., is estimated to be about £25.

- 53. Students will be required to find their own books, and a list will be furnished to each on appointment. They will also be required to find their own stationery and drawing materials.
- 54. The foregoing regulations will be generally followed, but my Lords will modify them from time to time as may be considered desirable.

Text books, stationery, and drawing materials.

Medical

examinatious.

MEDICAL EXAMINATIONS.

55. With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates for entry as engineer students in Her Majesty's Navy who may be physically unfit for the Service, it is suggested that the candidates be submitted to examination by the medical adviser of the family, or any other registered medical practitioner, to whom the following points may be submitted as those upon which they will be physically examined by naval medical officers. It is to be understood that this private examination is merely suggested as a guide to parents and guardians, and to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the regular official physical examination.

A weak constitution, arising from imperfect development or weakness of the physical powers of the body, either hereditary or from chronic disease, wounds, or injuries.

Chronic eruptions on the skin or scalp.

Malformation of the head, with a dry, harsh, divergent state of the hair of the scalp, fracture, or depression of the bones of the skull, disordered intellect, imbecility, epilepsy, paralysis, or impediment of speech.

Blindness or defective vision, as tested by Snellen's test types, in one or both

eyes, fistula lachrymalis, and ptosis.

Impaired hearing, or discharge from one or both ears, disease or thickening of the lining membrane of the external ear.

Disease of the bones of the nose or of its cartilages and polypus.

Disease of the throat, palate, or tonsils; unsound teeth, offensive breath from constitutional causes, unhealthy gums, scrofulous diseases of the glands of the throat or neck, external cicatrices from scrofulous sores.

Functional or organic disease of the heart or blood vessels, deformity or contraction of the chest, flattening of the sub-clavicular regions, phthisis, hæmoptysis, bronchitis, dyspnæa, aphonia, chronic cough, or other symptoms of tubercular exudation into the pulmonary tissues.

Swelling or distention of the abdomen, undue obesity, disease or enlargement of the liver, spleen, or kidneys. Rupture, weakness, or distention of the abdomi-

nal rings; vesical weakness, or incontinence.

The existence of any congenital defect, or of varicocele. Any disease of or pertaining to the alimentary canal.

Paralysis, weakness, impaired motion, or contraction of the upper or lower extremities, from whatever cause; aneurism, a varicose state of the veins, especially of the leg. Bunions, distortion, malformation of the feet, or malposition of the fingers or toes.

Distortion of the spine, of the bones of the chest, or pelvis, from injury or constitutional defect.

By command of their Lordships,

EVAN MACGREGOR.

Note.—Appended to these regulations is a schedule of the form of bond for students in naval construction referred to in paragraph 14; and a memorandum of the several grades of Engineer Officers of the Royal Navy, together with the scales of full and half pay, &c., also information as to the pay, &c., of the officers of the Royal Corps of Naval Constructors.

SCHEDULE.

Form of Bond for Students in Naval Construction entered from Engineer Students.

Know all Men by these Presents that We ——, a Student in Naval Construction at Her Majesty's Dockyard at ——, in the County of ——, and ——, of ——, in the County of ——, are held and firmly bound to Our Sovereign Lady the Queen, her heirs and successors, in the sum of £500, for which payment to be duly made we the said —— and —— do hereby bind ourselves, and each of us, and our and each of

the -

- shall at the expiration of

Signed, sealed, and delivered by all the parties (being first duly stamped) in the presence of -

Memorandum as to the Pay, &c., of Engineer Officers of the Royal Navy.

Junior service allowed to reckon on the following scale:-

Above 12 years' service in junior rank one-third of the period in excess of 12 years.

⁻Under 12 years' service in junior rank nil.

Junior service's all confirmed time served as assistant engineer and engineer from the age of 20.

Officers passed over for unsatisfactory conduct or failure to qualify for promotion to the senior grade, but who may subsequently be promoted, are not allowed to count their junior service between the dates of their being passed over and the dates of their promotion.

CHARGE PAY.

Engineer Officers when in charge of machinery of ships in commission are allowed charge pay varying from 1s. to 9s. a day, the rate for each ship being determined by the Admiralty.

Senior Engineers of ships in commission, having engines of 3,000 indicated horse power and upwards, are allowed an additional 1s. a day.

Engineer Officers when in charge of the machinery of torpedo boats in commission are allowed charge pay at rates determined by the Admiralty.

Engineers or Assistant Engineers when in charge of the machinery of torpedo boats in reserve are allowed charge pay at 1s. a day.

. HALF CHARGE PAY.

In ships in the fleet and dockyard reserves, half of the rates of charge pay, and Senior Engineers' allowances, payable whilst in commission, are to be paid to their Engineer Officers, but in the case of ships with engines of 2,000 indicated horse power and under, charge pay at 1s. a.day is to be paid.

EXTRA PAY.

The Chief Inspectors and Inspectors of Machinery in the reserves, in consideration of their responsible duties, are allowed an additional 3s. a day.

Fleet, Staff, and Chief Engineers of flag ships are allowed an additional 2s. 6d. to 5s. per day.

PROMOTION.

Assistant Engineers, qualified for advancement, are eligible for promotion to the rank of Engineer after five years' service. Assistant Engineers count their probationary time towards increase of pay and promotion, as stated in paragraph 38 of these regulations.

The promotion of Engineers, Fleet Engineers, and Inspectors of Machinery depends on the number of vacancies that occur in the several superior ranks.

RETIRED PAY.

The following table shows the age for retirement from active service of Engineer Officers, and the maximum retired pay of each rank :-

••		A	ge.	•
Rank at time of Retiren	ent.	Optional Retirement may be allowed at	Compulsory Retirement.	Maximum Retired Pay.
Assistant Engineers		_	40	£50 a year
Engineers	***		(may be retained to the age of 50)	£150 a year (qualified for promotion) £130 a year (not qualified for promotion) £187. 10s. (qualified for promotion) £162. 10s. (not qualified for promotion)
Chief, Staff, and Fleet Engineers		50*	55	£450 a year
Inspectors of Machinery	***	55	60	£500 a year
Chief do		. 55	· 6Ó	£500 a year

^{*} Optional retirement suspended for the present.

On attaining the rank of Chief Engineer and afterwards, and if 40 years of age or over, the amount of retired pay depends both on age and length of service, the maximum for each rank being as above, and the minimum rate the amount of half-pay of the officer as per scale previously given. Retirement would take place between the ages given in the above table, except in the following cases:—

(1) Five years' half pay time in either of the ranks of Assistant Engineer, Engineer, Chief, Staff, or Fleet engineer, or seven years' half-pay time in the ranks of Inspector or Chief Inspector of Machinery.

(2) Physical unfitness for service.

(3) Misconduct.

Pensions or gratuities for wounds or injuries can be granted by the Admiralty in addition to the ordinary retiring allowances.

Retired pay and half pay are subject to deductions in case of misconduct.

NAVAL AND GREENWICH HOSPITAL PENSIONS.

These pensions are established for affording some relief to retired officers, and are awarded to such retired officers as may be, in the opinion of the Admiralty, most deserving, under the conditions published in the Queen's Regulations and Admiralty Instructions.

PENSIONS TO WIDOWS.

The widows and children of Engineer Officers who had completed 10 years' commissioned service are eligible under stipulated conditions, to pensions and compassionate allowances.

The rates payable and the regulations governing their award are published in the Queen's Regulations and the Quarterly Naval List.

RELATIVE RANK.

Engineer Students rank with Naval Cadets according to date of entry.

Assistant Engineers rank with Sub-Lieutenants according to date of commission.
Engineers of less than 6 years' seniority 1ank with but after Lieutenants under 8 years' seniority. Engineers of 6 years' seniority rank with Lieutenants of less than 8 years' seniority according to date of commission.

Chief Engineers rank with but after Lieutenants of 8 years' seniority.

Staff Engineers rank with Lieutenants above 8 years' seniority.
Fleet Engineers rank with Commanders according to date of commission.

Inspectors of Machinery, under 8 years' service on Full Pay as such, rank with Captains under 3 years.

Inspectors of Machinery, of 8 years' service on Full Pay as such, rank with Captains of 3 years.

The Captain to reckon his seniority from the date of completing 3 years in that rank. The Inspector of Machinery to reckon his seniority from the date of completing 8 years' service as such.

Chief Inspectors of Machinery rank with Captains of 3 years' seniority according to date of commission.

Memorandum as to the Pay, &c., of the Royal Corps of Naval Constructors.

1. The number, the designation, and the salaries of the members of the corps are as follow:—

ADMIRALTY.

Director of Naval Construction, 1,500l. a year, rising to 1,800l. after five years' service. One Senior Chief Constructor, 850l. a year, rising to 1,000l. by 50l. a year, and a London allowance of 150l. vear.

One Chief Constructor, 850l. a year, rising to 1,000l. by 50l. a year, and a London allowance of 150l. a year. Two Chief Constructors, 700l. a year, rising to 850l. by 25l. a year, and a London allowance of 150l. a year. NOTICES CALLING FOR TENDERS.

SEALED Tenders, marked on the envelopes "Tender for provisioning Hospitals," will be received up to 12 o'clock noon on Monday, May 10, 1897, from persons willing to contract for supplies for the use of the undermentioned Government Hospital commencing from date of acceptance of tender to December 31, 1897:-

Security in Cash. Rs.

District Hospital, Nawalapitiya

200

2. Tenders should be submitted in duplicate, the original being forwarded to the Principal Civil Medical Officer and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

3. The tenders are to be made upon forms which will be supplied upon application to the Principal Civil Medical Officer and Inspector-General of Hospitals or to the Medical Officer in charge of the hospital, and no tender will be considered unless it is furnished on the recognized form. Each tender should be for provisioning

one hospital only.

- 4. Every tenderer will be required to make a deposit (on applying for forms) of half the amount of security; (on applying for forms) or hair the amount or security; and should any person decline to enter into the contract and bond after he has tendered, or fail to furnish approved security, such deposit will be forfeited to the Crown. All other deposits will be returned after the contract has been signed. The deposit must be made at the Treasury or Kachcheri, and the deposit receipt must be produced to the officer issuing the form as his authority for making the issue. In stations where there are no kachcheries the deposit must be made to the Medical Officer in charge of the hospital.
- 5. Provisions should be of the best quality, approvable by the Medical Officer of the hospital.

6. When required, samples must be deposited.
7. The successful tenderers will be required to give cash security as given opposite the name of the station, and to sign the bond given in the tender for the due fulfilment of the contract within a fortnight from date deposited for tender forms will form part of the cash security. It is left to the option of the successful tenderer to substitute at any time thereafter for cash deposited by him aproved title deeds and to enter into a fresh security bond at his expense. a fresh security bond at his expense.

8. In case any person makes any alterations in his tender before forwarding it, such alteration should invariably bear his initials, otherwise the tender will be

treated as informal and rejected.

9. Any further information can be obtained on application to the Principal Civil Medical Officer and

Inspector-General of Hospitals.

10. The Government reserves to itself the right, without question, of rejecting any or all tenders, and the right of accepting any portion of a tender.

W. R. KYNSEY. Principal Civil Medical Officer and Inspector-General of Hospitals.

Principal Civil Medical Office, Colombo, April 24, 1897.

SEALED Tenders, marked on the envelopes "Tender for the supply of Rice Direct Direct Property of Prope for the supply of Rice Dimbula District, 1897 to 1898," will be received up to noon on Saturday, June 5, 1897, from persons willing to contract for the undermentioned service :-

For supplying best quality unmixed kallunda rice for the use of the Public Works Department, Central Province, commencing from July 1, 1887, to June 30, 1898.

2. Tenders should be submitted in duplicate, the original being forwarded to the Director of Public Works and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

3. Rice to be delivered at Dimbula district, in the Central Province, as may be required by the District Engineer in Charge.

Each tender to give a single rate per bushel for rice delivered at any place situated within the above-named

district.

4. The tenders are to be made on forms which will be supplied upon application at the Office of the Government Agent, Kandy, or his Assistant at Nuwara Eliya, and no tender will be considered unless it is furnished on the recognized form.

5. A deposit of Rs. 50 will be required before any form of tender is issued; and should any person decline to enter into the contract and bond after he has tendered, or fail to furnish approved security, such deposit will be forfeited to the Crown. All other deposits will be returned upon signature of a contract.
6. A cash security for the due fulfilment of the

contract in each case of Rs. 500 shall be made by the contractor, which security will be paid to the Hon. the Treasurer of Ceylon, and same shall bear the usual

Government interest.

7. The Government reserves to itself the right, without question, of rejecting any or all tenders, and the

right of accepting any portion of a tender.

8. Persons whose tenders are accepted by Government will be required to bear the expense of having security bonds prepared for the due performance of their ontract, which bonds will be subject to the approval of the Attorney-General, but may be drawn by the tenderer's own lawyer, the name or stamp of whom should be affixed to the document.

9. Every alteration should bear the initials of the tenderer, and all tenders containing alterations not bearing the tenderers' initials will be treated as informal and

rejected.

H. WARD for Director of Public Works.

Public Works Department, Colombo, May 4, 1897.

SEALED Tenders, marked on the envelopes "Tender for sunnly of Bigs in the Break and th of supply of Rice in the Province of Uva," will be received at the Office of the Director of Public Works up to noon on Monday, June 14, 1897, from persons willing to contract for the under-mentioned service.

2. The tenders are to be made in duplicate, the originals being forwarded by the tenderers direct to the Director of Public Works and the duplicates direct to the Auditor-General, both to be forwarded at the same time.

3. For supplying best kallunda rice for the use of the Public Works Department, Province of Uva, for one year from July 1, 1897, to June 30, 1898, viz.:—

To be delivered within the town of Badulla. District of Badulla. Public Works Depart-Do. Do. ment Store, Passara. Do. District of Passara. Public Works Depart-(4) (5)Do. ment Store, Koslanda. District of Koslanda. Do.

4. Rice to be delivered at any place where an overseer or a detachment of pioneers is stationed within the above three stations and districts in such quantity as may be required by the Provincial Engineer or District Engineer.

The tenders are to be made upon forms which will be supplied upon application at the Office of the Government Agent, Badulla, or the Director of Public Works, Colombo, and no tender will be considered unless it is furnished on the recognized form.

A deposit of Rs. 30 will be required before any forms are issued; and should any person decline to enter into the contract and bond, his deposit shall be forfeited to the Crown. All other deposits will be returned upon the signature of the contract.

7. Every alteration should bear the initials of the tenderers, and all tenders containing alterations not bearing the tenderers' initials will be treated as informal

and rejected.

8. Sufficient securities will be required to join in a bond for the due fulfilment of the contract for the supply of rice, and the persons whose contract shall be accepted for rice shall be bound by a cash deposit of Rs. 500 for each district, which must be hypothecated to Government for the due fulfilment of such rice contract.

9. Quarter bushel of rice in sealed bags, labelled with the name of the tenderer, should be sent in to the Provincial Engineer before the tenders are opened as samples. Any less quantity will invalidate the tender.

The Government reserves to itself the right; without question, of rejecting any or all tenders, and

the right of accepting any portion of a tender.

11. Persons whose tenders are accepted by Government will be required to bear the expense of having the security bonds prepared for the due performance of their contracts, which bonds will be subject to the approval of the Attorney-General, but may be drawn by the tenderers' own lawyers, whose names or stamps should be affixed to the document.

PROCLAMATIONS GOVERNOR. BY

In the Name of Her Majesty VICTORIA, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith.

PROCLAMATION.

By His Excellency the Right Honourable Sir J. WEST RIDGEWAY, Knight Commander of the Most Honourable Order of the Bath, Knight Commander of the Most Exalted Order of the Star of India, Governor and Commander-in-Chief in and over the Island of Ceylon, with the Dependencies thereof.

WEST RIDGEWAY.

HEREAS by section 3 of Ordinance No. 20 of 1891, intituled "An Ordinance to render more accurate and complete the Registration of Deaths," it is amongst other things enacted that it shall be lawful for the Governor, in Executive Council, to divide any town or place brought within the operation of the said Ordinance into as many localities as he may deem necessary for the registration of deaths, and such localities at any time to alter or abolish:

And whereas by a Proclamation bearing date the 5th day of November, 1892, the said Ordinance was brought into operation as from and after the 1st day of January, 1893, within the limits of the town of Colombo, as defined by the said Proclamation:

And whereas by a Proclemation dated the 5th day of January, 1893, the town of Colombo was divided into nine localities as set forth in Schedule A thereto for the purposes of the said Ordinance:

And whereas by a Proclamation dated the 28th day of December, 1894, the said division of the town of Colombo into nine localities was revoked and cancelled, and the said town was divided into four localities as set forth in the schedule thereto for the purpose of the said Ordinance:

And whereas it is now expedient to alter the said localities:

Now know Ye that We, the said Governor, in Executive Council, do by this Our Proclamation alter, with effect from the 15th May, 1897, the said division of the town of Colombo into four localities, and do, with effect from the said date, divide the said town into the five localities set forth in the schedule hereto for the registration of deaths.

Given at Colombo, in the said Island of Ceylon, this Seventh day of May, in the year of our Lord One thousand Eight hundred and Ninety-seven.

By His Excellency's command,

E. NOEL WALKER, Colonial Secretary.

GOD SAVE THE QUEEN!

SCHEDULE. Locality. Limits. 1. Fort and Galle Face Ward ... On the west and north by the sea; on the east by the sea and lake; on the south by the road leading from the Slave Island bridge to the sea , crossing the high road to Kollupitiya. On the west, north, and east by the lake; on the south by the lake and the road leading from the Kotte road to Kollupitiya (this locality includes Slave Island Ward within it the lake). On the west by the sea; on the north by Fort and Kollupitiya Ward Galle Face, Maradana, and Slave Island Wards; on the east by the lake and by the eastern limit of the gravets; on the south by the Kirillapane canal and the southern limit of the gravets. Maradana Ward On the west by the lake; on the north by New Bazaar Ward and part of St. Sebastian Ward and a portion of Urugodawatta road; on the east by the North and South Base Line road to its junction with the Quarry road and by Yakbedda paddy fields and Yakbedda road; on the south by the road leading from Slave Island to Kotte. On the north by the sea; on the east by St. John's road; on the south by the lake; on the west by the Pettah Ward Fort and Galle Face walk. On the west by part of Pettah Ward; on the north by the road from Kayman's Gate to the Kachcheri and by New Moor street; on the east by Hulftsdorp St. Sebastian Ward street; on the south by the lake and canal. On the west by St. Sabastian Ward and part of St. Paul's Ward; on the north and east by Kotahena Ward and part of St. Paul's Ward; on the south by New Bazaar Ward the canal from the road leading to St. Joseph's street as far as to the bridge over the canal at St. Sebastian. Kotahena Ward the Kelani river, on the east and south-east by the Kelani river; by the canal leading from the river to the lake as far as the road leading from the said canal at Vandermeyden's Polder to St. Joseph's street, and by the said road; on the south by St. Paul's Ward, part of Barber street, and Anderson

road.

[Notices received after the closing of Parts II. to V.]

F. C. FISHER, Government Agent, Northern Province, do hereby proclaim, in terms of Ordinance No. 9 of 1891, that the village of Mandativu in The Islands division of the Jaffna District is an infected area. No person shall from this date remove any carcase, dung, fodder, &c., of the cattle from the infected area, or shall drive or cause to be driven any cattle into, out of, or through any part of the infected area without permit from the Government Agent, Northern Province.

Jaffna Kachcheri, May 1, 1897,

G. W. WOODHOUSE, for F. C. FISHER, Acting Government Agent.

TAKE notice that, unless within three months from the 7th day of May, 1897, being the date of this notice, the persons, if any, who claim any interest in a portion of the land commonly called or known as Moragahahena, situate in the village of Walpitagama in the Katugampola hatpattu, in the North-Western Province, containing in extent about half an acre—and bounded as follows: east by Mukalana (Crown land), south by the village limit of Udawela, west and north by Ukku Banda's chena land—appear before me at the Kurunegala. Kachcheri and make claim to the said land or to some interest therein:

I, Ælian Armstrong King, Government Agent of the North-Western Province, in pursuance of the powers in me vested by Ordinance No. 1 of 1897, will on the 8th day of August, 1897, being the date on which this notice expires, declare by writing under my hand that the said land is the property of the Crown.

ÆLIAN A. KING, Government Agent.

SUPPLEMENT

TO

The Ceylon Government Gazette.

PART I.

No. 5,473-FRIDAY, MAY 7, 1897.

VITAL STATISTICS OF CEYLON.

REPORT OF THE REGISTRAR-GENERAL FOR THE FOURTH QUARTER OF 1896.

I.—Population.

THE estimated population of the Island on the last day of the quarter was 3,292,387, an increase of 15,904 on the previous quarter, due to an excess of 7,698 births over deaths, and an excess of 8,206 arrivals over departures of Indian coolies.

· Table I. in the appendix gives the area and estimated population of each Province and district of the Island in the quarter.

Arrivals and Departures of Indian Coolies.—The total number of Indian coolies who arrived in the Island this quarter (23,371) was 2,139 in excess of the average number for the fourth quarter of the last four years (21,232), whilst the departures (15,165) were 543 above the average (14,622). The arrivals of the year up to the end of the fourth quarter were 128,350 and the departures 93,281, as against 123,611 and 80,673 respectively in the corresponding period of 1895. 99,761 out of 128,350 arrivals and 78,541 out of 93,281 departures passed through Colombo, or 178,302 out of 221,631, the total arrivals and departures, i.e., 78 per cent. of the arrivals in the Island and 84 per cent. of the departures and 80 per cent. of the arrivals and departures passed through Colombo.

II.-Marriages.

. Marriages.—The number of general marriages—i.e., marriages other than Kandyan or Mohammedan—registered in this quarter was 4,014, and of Kandyan marriages 1,672.

Table VI. in the appendix shows the marriages solemnized among the general community in every Province

Table VI. in the appendix shows the marriages solemnized among the general community in every Province and district of the Island, the civil condition, nationality, the highest, lowest, and mean ages of the parties, the mode of solemnization, the number of bridegrooms and brides who were unable to sign their names in the register, &c.

Table VII. in the appendix gives similar information in respect of the Kandyans.

First Marriages; Re-marriages.—Of the 4,014 general marriages 3,540 (equal to 88 per cent.) were between bachelors and spinsters, 95 between bachelors and widows, 317 between widowers and spinsters, 50 between widowers and widows, 4 between divorced men and spinsters. Of the 1,672 Kandyan marriages, 1,338 (equal to 80 per cent.) were between bachelors and spinsters, 56 between bachelors and widows, 163 between widowers and spinsters, 58 between widowers and widows, 22 between divorced men and spinsters, 2 between divorced men and widows, 23 between bachelors and divorced women, 7 between widowers and divorced women, and 3 between divorced men and divorced women.

Age at Marriage.—The mean age at marriage for the general community was $26\cdot1$ for males and $19\cdot6$ for females, and for Kandyans $27\cdot7$ for males and $20\cdot9$ for females.

Minors.—In the general community 7 per cent. of the bridegrooms and 76 per cent. of the brides, and amongst the Kandyans 12 per cent. of the bridegrooms and 64 per cent. of the brides, were under 21 years of age.

. Mixed Marriages.—There were 34 mixed marriages in the quarter: 3 between Europeans and Burghers, 10 between Burghers and Sinhalese, 2 between Burghers and Tamils, 15 between Sinhalese and Tamils, 2 between Europeans and Sinhalese, and 2 others.

Signature in Marriage Register.—Of the 8,028 persons married among the general community this quarter, 997 men and 3,076 women signed the register with marks; that is to say, 75 per cent. of the men and 23 per cent. of the women were able to write their names. Of the 3,344 persons married among the Kandyans, 657 men and 1,636 women signed the register with marks, i.e., 60 per cent. of the men and 2 per cent. of the women were able to write their names.

III.—Births and Deaths.

Births.—The births registered in the quarter amounted to 27,733, and were in the proportion of 35.8 to 1,000 persons living, as against 33.8, the average of the corresponding period for the ten years 1886-95.

Deaths.—The deaths registered in the quarter numbered 20,035 (28 Europeans, 104 Burghers, 12,844 Sinhalese, 5,433 Tamils, 1,523 Moors, 57 Malays, and 46 others), and corresponded to an annual rate of 25.9 per 1,000, as against 25.6 the average rate for the corresponding period during the last ten years.

The Births and Deaths and their Rates in this quarter are compared in the following statement with the results obtained in the previous quarters of this year, the fourth quarter of the past year, and the average of the corresponding quarters in the ten years 1886-95:—

		ď	TABLE A.						
Average of the ten previ	ous fourth a	nartero in	Births.		Deaths.		Per M Birth-rat		r Annum. Death-rate.
1886-95	ous rouren q	uar oci și îi	25,513		19.273		33.8		25.6
Fourth quarter of 1895	* ***	•••	27,575	•••	22,300	•••	35.8	444	29.0
First quarter of 1896	~ ···	•••	26,069	•••	23,539	•••	34.5	•••	31.2
Second quarter of 1896	•••	•••	25,775	•••	20,084	•••	33.8	•••	26.3
Third quarter of 1896 Fourth quarter of 1896	•••	•••	$24,267 \\ 27,733$	•••	· 18,220 20,035	•••	31.4	•••	23·6 25·9
Tour or damper of 1989	***	***	21,100	•••	20,050	•••	35.8	• • •	40 0

It will be seen that the mortality of this quarter was as usual higher than in the immediately preceding third quarter, and though lower than in the fourth quarter of last year, was slightly higher than the average for the quarter in the period 1886-95. The birth-rate was the same as in the corresponding quarter of last year, and better than the average.

Table II. in the appendix gives information similar to that given in Table A in respect of each Province and district in the Island. Table I. gives the births and deaths according to sex, and births according to legitimacy; Table VIII. the births according to nationality and sex; Table IX. illegitimate births according to nationality and sex; Table X. the deaths for each month of the quarter according to nationality for every Province and district. The causes of death for every Province and district are shown in Table XI.; and for the estates in the Central, Uva, Sabaragamuwa, and the Kalutara and Colombo Districts of the Western Province in Table XII. Table XIII. shows the period of life at which the deaths of the various process occurred in every district. period of life at which the deaths of the various races occurred in every district.

Age at Death.—The deaths of infants under one year of age numbered 4,407, and were in the proportion of 158 deaths to 1,000 births. The rate of infant mortality varied in different districts from 321 (for Siphalese) in Puttalam, 245 (for Siphalese) in Mátalé, 218 (for Siphalese) in Ratnapura, 200 (for Siphalese) in Badulla, 191 (for Siphalese) in Kurunégala, 175 (for Tamils) in Mullattivu, 170 (for Tamils) in Jaffna, 167 (for Siphalese) in Hambantota, and 153 (for Tamils) in Trincomalee, to 111 (for Siphalese) in Colombo and 95 (for Siphalese) in Kalutara. 41 deaths (18 males and 23 females) were reported to be of centenarians, but the age cannot be accepted as correct.

Sex.—Of the total number of births (27,733), 14,430 were males and 13,303 were females. Of the total number of deaths (20,035), 10,305 were males and 9,730 were females. Out of equal numbers living of each sex there died 935 malesto 1,000 females.

IV.—State of Public Health.

The general health of the population in the fourth quarter was as usual not so good as in the last, but was satisfactory, the death-rate in the Island being 25.9, or about the average (25.6) for the quarter in 1886-95, and less than in the corresponding quarter of 1895 (29.0). The majority of the Provinces show improved death-rates, the exceptions being the Western, Northern, and Eastern, in which the rates are respectively 21.2, 25.0, and 32.8, against 18.6, 24.0, and 25.3 (the average of the ten-fourth quarters of 1896-95).

Tables III., IV., and V. in the appendix show the births and deaths and the death-rates of all ages and for infants in the several districts of the Island and in the subdivisions of those districts for this quarter, for the preceding quarter, the fourth quarter of 1895, and the average of five fourth quarters of 1891-95. The rates shown are for the Sighalese only in Sighalese districts and for Tamils only in Tamil districts, and for Mohammedans in the Districts of Batticaloa and Puttalam. These separate rates furnish more trustworthy data for comparing the relative sanitary condition of these districts and subdivisions of the Island than if the rates included other nationalities temporarily resident in them. temporarily resident in them.

The healthiest Province this quarter was as usual the Western (182 per 1,000 of the Sighalese residents), the healthiest district was Negombo (13-6), and the healthiest division (excluding the Batticuloa Local Board and Tamblegam pattu of Trincomalee District, which have small populations) was Siyané kóralé of the Colombo District (12-2).

Western Province.—The Western Province, which has about one-third of the Sinhalese population of the Island, has a death-rate of 18·2 for the Sinhalese, 1 per 1,000 above the mean-rate for the corresponding quarter of the preceding five years 1891–95, and as usual takes the lead as the healthiest among the Provinces of the Island, followed by the Northern Province with 23·9 (Tamil), the Southern Province with 25·2 (Sinhalese), and the Central Province with 25.7 (Sinhalese).

25.7 (Sinhalese).

The death-rate of the Colombo District was 18.5 this quarter as against an average of 16.4 in the corresponding quarter of 1891-95, the increase being mainly in the Colombo Municipality, and due to an outbreak of cholera, which increased the death-rate of the Municipality from an average of 29.4 to 39.9. The Siyané kóralé, which has the largest population (117,499) of any division in the Colombo District, is also the healthiest in the district, and in fact in the Island, with a death-rate (12.2), which is about its mean-rate (12.0). It is followed by Alutkúru kóralé, which shows a death-rate of 14.4, 2 per 1,000 in excess of its average; Salpiti kóralé with a rate of 16.8, also 2 per 1,000 in excess of its mean; and Hewágam kóralé 18.3, which is slightly lower than its average 18.7.

The Kalutara District, like the Colombo District, shows an increased mortality, the death-rate recorded being 20.4, while the mean-rate for the same period in 1891-95 was 18.2. To this rise all the divisions contributed except Pasdun kóralé (18.1), which is 1 per 1,000 below the average, but is the healthiest division in the district this quarter.

Unlike the Colombo and Kalutara Districts, the Negombo District has a lower death-rate than usual (19.0), and is the healthiest district in the Island this quarter. To this improvement all the divisions contributed, notably the Negombo Local Board, which fell from 45.5 (the average for the quarter in 1891-95) and 63.7 (the rate for that quarter in 1895) to 20.1, while Alutkúru kóralé north has a rate of 12.7, 3 per 1,000 less than the average, and is the next healthiest division in the Island to Siyané kóralé; and Hápitigam kóralé has a rate of 13.4, which is 4.6 per 1,000 less than its average.

Central Province.—The health of this Province this quarter was not so satisfactory as in the last quarter, but was better than the average for the fourth quarter, the mortality being 25.7, or about 6 per 1,000 below the average (31.5), and the improvement was shared by all its districts.

The death-rate of Kandy District fell this quarter to 23·1 from 28·5, the average for the corresponding quarter of 1891-95, in Mátalé from 41·7 to 30·9, and in Nuwara Eliya from 30·3 to 27·5. As usual Mátalé east was the unhealthiest division in the Province, with a death-rate of 43·6, while the Kandy Municipality was the healthiest, with the unusually low death-rate of 12·8, about 9 per 1,000 less than its average, and about the third lowest rate in the Island.

The Northern Province (which contains over 300,000 Tamils) is this quarter, as usual, the second healthiest Province in the Island, with a mortality of 23.9, which is about its average for the quarter in 1891-95. As usual its healthiest district is the Jaffna District, which contains nine-tenths of the population of the Province, and shows a death-rate of 22.8, almost the same as the death-rate of the corresponding quarter of 1891-95. Of the divisions in the district, Vadamaradchi East stands first in health, with a death-rate of 13.4, about half of its usual rate. If that division be excluded from consideration as a thinly populated one, the first place must be given to Tenmaradchi, with a death-rate of 16.6, 8 per 1,000 lower than its average, followed by Valikamam West (19.3) and Vadamaradchi West (20.2). Valikamam East, which usually holds the first place, comes next with 21.1 (5 per 1,000 higher than its mean), followed by Valikamam North with 21.9 and Jaffna division with 24.9.

The Mannar District, with a death-rate of 23.4, enjoyed almost its normal health for the quarter, while the Mullaittivu District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District, with a death-rate of 39.9 was healther than usual (42.4) as also Vayuniya District.

The Mannar District, with a death-rate of 234, enjoyed almost its normal health for the quarter, while the Mullaittivu District, with a death-rate of 399, was healthier than usual (424), as also Vavuniya District, with a death-rate of 512, an improvement of 2 per 1,000 on the average. The last two districts contain the most unhealthy divisions in the Island, and a miserable disease-stricken population, ever dwindling owing to bad air, food, and water.

Southern Province.—The Southern Province was healthier this quarter than usual, with a death-rate of 25.2; as against 27.7 in the corresponding period of 1891-95, and all the districts shared in the improvement. In Galle District the rate of mortality fell from 28.1 to 24.8, in Matara District from 26.1 to 24.3, and in Hambantota District from 29.9 to 26.8.

The healthiest division in the Province was as usual the division of Galle called "the Four Gravets beyond Municipal limits and Akmimana," which shows a mortality of 13.3, 6 per 1,000 less than the average; while the unhealthiest was "Magam pattu, exclusive of Hambantota town," which shows a death-rate of 50.8, and is followed by Morawak koralé and Hinidum pattu with death-rates of over 31 per 1,000. Hinidum pattu is the only division in Galle District that shows a higher death-rate than the average. In the Matara District, Wellabada pattu and Weligam koralé alone show higher rates than the average, but very little higher, and in Hambantota District all the divisions show lower rates than the average.

Eastern Province.—This Province, which contained at the last Census 86,701 Tamils and 51,206 Moors (the largest Moorish population in any Province in the Island), was not so healthy as usual, the mortality having risen from an average of 25.3 to 32.8.

In Batticaloa District the Tamil mortality rose from 27.6 to 39.0, a rise chiefly due to the increase in its two principal divisions, viz., in the Manmunai pattu from 31.6 to 53.0, and in Eruvil, Porativu, and Karaváku from 31.3 to 37.8. The Batticaloa Local Board itself was remarkably healthy, in fact almost the healthiest division in the Island, with a death-rate of 10.5, a fall, however, of 6 per 1,000 on the average. The Moorish death-rate of the district was not so high as for the Tamils and Siphalese, due probably here, as in Puttalam District, to the Moors being wealthier, and to the country life counterbalancing the evil effects of their peculiar customs which are found to be so insanitary and dangerous in a town like Colombo. The Moorish rate was 30.0 for Batticaloa District, rising from an average of 25.0, and the highest death-rate recorded in the quarter is 38.3 for Manmunai pattu.

The Trincomalee District, unlike Batticaloa, shows considerable improvement in health, the death-rate falling

The Trincomalee District, unlike Batticaloa, shows considerable improvement in health, the death-rate falling to 21 6 from an average of 36 5, an improvement shared by all its divisions except Koddiár pattu, where the mortality was slightly in excess of the average, but still remained at the low figure (15 9). Tamblegam pattu of this district reached a still lower rate (7 2), which, however, owing to the smallness of the population, is not suitable for purposes of comparison.

North-Western Province.—This Province was healthier than usual in the quarter under review, with a death-rate of 25.8, as against 31.0, the average rate of the fourth quarters of 1891-95. The Kurunégala District chiefly contributed to this result, also in a measure the Puttalam District so far as regards its Tamil and Mohammedan population. In the former district the Sinhalese death-rate in the quarter was 26.8, about 7 per 1,000 less than the average, an improvement shared by all its divisions. Among them the healthiest was as usual the rich cocoanut district of Katugampola hatpattu, with a death rate of 17.4, and the unhealthiest as usual the Kurunégala Local Board, with a death-rate of 101.2 per 1,000, which makes this division appear far the unhealthiest in the Island. But the mortality is probably exaggerated by the deaths in the local hospital, which attracts large numbers of the destitute and disease-stricken from all parts of the Province.

The health of the Chilaw District was much the same as usual, with a death-rate of 17.0. Its most populous division, Pitigal kóralé south, which contains more than four-fifths of the population of the district, and is the most prosperous and healthy division of the Province, shows as usual the lowest death-rate of 16.4, which is, however, 1 per 1,000 in excess of the average.

In the Puttalam District, for which statistics are given in Tables III., IV., and V. for its Sinhalese, Tamil, and Mohammedan inhabitants separately, the Mohammedans, who are richer and better off than the other communities (which in this district chiefly consist of the labouring classes), enjoy better health, their death-rate in the district being 28.9, as against 49.1 for the Sinhalese and 33.3 for the Tamils.

North-Central Province.—This Province has been healthier than usual, with a death-rate of 30.2, against 32.4 in the corresponding period of 1891-95 (32.4), an improvement shared by all its divisions except Tamankaduwa. Its healthiest division was as usual Kelégampaláta, with a death-rate of 23.8, followed by Hurulupaláta (29.8), and Nuwaragampaláta (32.4), and the unhealthiest division was Tamankaduwa with a rate of 49.7.

Province of Uva.—This Province was healthier than usual, with a death-rate of 3 per 1,000 lower than the mean annual average for the corresponding period of 1891–95, an improvement shared by most of the divisions, and especially by Wellawaya division, in which the death-rate fell by 18 per 1,000, from 66.8, the mean annual rate of 1891–95, to 48.9. The healthiest division was as usual Udukinda, with a death-rate of 27.7, and the unhealthiest divisions were Buttala and Bintenna, with a death-rate of 61 per 1,000.

Province of Sabaragamuwa.—The health of this Province also has been better this quarter than usual, the death-rate being 26.6, or 2 per 1,000 less than the mean annual rate for the corresponding period of 1891-95, an improvement due to the improved condition of the Kégalla District, the death-rate of which was 18.9, 6 per 1,000 less than the average. Its most important division, Beligal kóralé, was exceptionally healthy, with a death-rate of 13.1, or 10 per 1,000 less than the average, and its unhealthiest division, Atulugam kóralé, did not exceed 30 per 1,000. In the Ratnapura District the rate this quarter is the same as the mean-rate for the corresponding period of 1891-95, and the mortality of its divisions ranges from 29.0 in Kuruwiti kóralé to 49.5 in Meda kóralé.

V.—Causes of Death.

The causes of death registered in the Island during the quarter are given in Table XI. in the appendix. They may be summarized as follows :-

TABLE B.

Fever and Diarrheal Diseases.—Of the 20,035 deaths registered in the quarter, 3,935 were reported as due to various forms of fever and 5,286 to diarrheal diseases i.e., fever and diarrheal diseases contributed 46 per cent. of the total deaths from all causes. Under the head "Diarrheal Diseases" is included cholera, which accounted for 76 deaths, and to which cause probably many deaths really due to acute diarrhea have been attributed. I have issued instructions which will I thank soone that deaths are not attributed to shalow unless so certified by a competent instructions, which will, I trust, secure that deaths are not attributed to cholers unless so certified by a competent

medical officer.

There were 14 deaths from smallpox this quarter. 137 deaths were due to measles (of which 79 were in Batticaloa, 15 in Kandy, 12 in Nuwara Eliya, 7 in Chilaw, 6 in Negombo, 3 each in Colombo and Kurunegala, 2 each in Kalutara, Jaffna, and Galle, and 1 each in Trincomalee and Kegalla). 13 deaths were attributed to chickenpox, of which 5 each in Kandy and Nuwara Eliya, 2 in Batticaloa, and 1 in Galle; and 17 deaths to whooping cough.

The other chief natural causes of death were infantile convulsions 1,743, general dropsy 587, ansmia 512, debility 778, phthisis 729, pneumonia 315, bronchitis 150, asthma 63, pleurisy 99, worms 448, thrush 140, dochmius duodenalis 42 (13 in Kandy, 8 in Colombo, 8 in Nuwara Eliya, 6 in Kegalla, 2 each in Kalutara and Kurunegala, 1 each in Chilaw, Badulla, and Ratnapura), puerperal convulsions 347, childbirth 132, old age 412, premature birth 140 (of which 90 were in Badulla), parangi 40 (of which 7 were in Mátara and 6 in Kurunegala), want of breast milk 81, (of which 22 were in Kandy and 18 were in Badulla), malarial cachexia 119 (of which 50 were in Colombo, 13 in Galle, 13 in Kandy, and 13 in Kégalla), hydrophobia 6 (3 in Colombo, 2 in Galle, and 1 in Negombo).

Deaths by Violence.—Of the 449 deaths attributed to these causes, 67 are assigned to fall from trees, 86 to drowning, 68 to snake-bites, 19 to burns and scalds, 13 to poison, 17 to gun-shot wounds, 5 to fall from height other than trees, 33 to fall of heavy substances, 11 to injury at birth, 2 to injuries caused by bulls, 2 to being run over by train, 3 to being run over by carts, 2 to sunstroke, 3 to hornet sting, 1 to machinery, 7 to lightning, and 3 to crocodiles.

Twenty-three deaths were attributed to suicide, of which 13 were by hanging, 3 by poison, and 4 by drowning.

Homicide.—Twenty-eight deaths were attributed to murder and other forms of homicide (22 Sinhalese and 6 Tamils), and of these 4 occurred in Colombo, 3 each in Kalutara, Mátalé, and Galle, 2 each in Negombo, Nuwara Eliya, Hambantota, Kurunégala, Badulla, and Kégalla, 1 each in Jaffna, Batticaloa, and Trincomalee.

Judicial Execution.—The deaths of 12 men were registered as caused by judicial execution in the quarter (4 in Colombo, 5 in Kandy, 2 in Chilaw, and 1 in Galle), making a total of 25 registered deaths from this cause for the whole year. VI:-Health of the Estate Population.

The total number of births reported for registration from the estates in the Central, Uva, and Sabaragamuwa Provinces, and in the Colombo and Kalutara Districts of the Western Province, was 1,917 (of which 7 were Europeans, 3 Burghers, 42 Sinhalese, 1,849 Tamils, 14 Moors, and 2 Malays), and the total number of deaths was 1,893 (3 Europeans, 2 Burghers, 19 Sinhalese, 1,861 Tamils, 7 Moors, and 1 Malay), corresponding respectively to an annual rate of 32.6 and 32.2 per 1,000. The causes of death are given in detail in Table XII., and may be supported as follows: summarized as follows :-

Kandy District.—The total number of births reported for registration from the estates in the Kandy District was 761, of which 727 were Tamils, 16 Sinhalese, 13 Moors, 2 Europeans, 1 Burgher, and 2 Malays; and the deaths numbered 724, of which 712 were Tamils, 4 Sinhalese, 5 Moors, 1 European, 1 Burgher, and 1 Malay. The Tamil birth-rate in the quarter was equal to 31°2, as against a mean-rate of 25°0 in the corresponding period of 1891–95, and the Tamil death-rate was equal to 29°7, as against a mean-rate of 26°4 in the fourth quarter of 1891–95. As usual the most fatal causes were discussed as a second 26°8 deaths (110 from discussion and the fourth quarter) most fatal causes were diarrhead diseases, which caused 268 deaths (119 from diarrhea and 149 from dysentery), or nearly 37 per cent. of the total number of deaths. The other chief causes of death were debility 120 (including mostly deaths of infants from inability to suck), fever 32, malarial cachexia 11, pneumonia 33, bronchitis 18, infantile convulsions 42, general dropsy 20, analylostomiasis 11, starvation and want of breast milk 12, childbirth 13, old age 23 premature birth 7 argamia 3, phithies 10 23, premature birth 7, anæmia 3, phithisis 10.

Matale District.—The total number of births reported for registration from estates in the Matale District was 119 (118 Tamils and 1 Sinhalese, and the deaths numbered 91, all Tamils), and corresponded to an annual birth rate of 36.9 (against a mean-rate of 24.2 for the corresponding period of 1891–95), and a death-rate of 28.2 (against a mean-rate of 28.6 in the fourth quarters of 1891–95) respectively. Dysentery and diarrhoea caused 30 deaths, i.e., 33 per cent. of the total number of deaths (91), fever 6, debility 7, pneumonia 9, general dropsy 1, childbirth 7, old age 4, starvation and want of breast milk 1, infantile convulsions 8, and bronchitis 1.

Nuwara Eliya District.—The total number of births reported for registration from the estates in the Nuwara Number a Etiya District.—Ine total number of births reported for registration from the estates in the Nuwara Eliya District was 511 (3 Europeans, 8 Sinhalese, 498 Tamils, and 2 Burghers), and the deaths numbered 463 (2 Europeans, 458 Tamils, 2 Sinhalese, and 1 Moor), and corresponded to an annual birth-rate of 30.3 (against a mean-rate of 28.7 in the fourth quarters of 1891–95), and a death-rate of 27.4 (against a mean death-rate of 25.7 in the fourth quarters of 1891–95) respectively. Dysentery and diarrhoea were fatal in 146 cases, or nearly 31 per cent. of the total deaths (463). 98 deaths are attributed to debility (mostly of infants from inability to suck), 13 to fever, 50 to pneumonia, 5 to bronchitis, 27 to general dropsy, 11 to infantile convulsions, 14 to old age, 9 to childbirth, and 8 to anchylostomiasis anchylostomiasis.

Badulla District.—The total number of births reported for registration from the estates in the Badulla District was 241 (1 European, 1 Sinhalese, 1 Moor, and 238 Tamils), and the deaths numbered 199 (196 Tamils and 3 Sinhalese), and corresponded to an annual birth-rate of 62-3 (against a mean rate of 31-9 in the corresponding period of 1891-95); and a death-rate of 51-4 (against a mean rate of 33-5 in the fourth quarters of 1891-95) respectively. Dysentery and diarrhea were fatal in 69 cases, or nearly 34 per cent. of the total deaths (199), debility in 30 cases (mostly of infants from inability to suck), fever in 9, general dropsy in 5, pneumonia in 19, starvation and want of breast milk in 2, infantile convulsions in 10, old age in 7, and bronchitis in 3.

Ratnapura District.—The total number of births reported for registration from the estates in the Ratnapura District was 52 (50 Tamils and 2 Sinhalese), and the deaths numbered 52 (all Tamils), and corresponded respectively to an annual birth-rate among the Tamils of 36.4 (against a mean rate of 30.7 in the corresponding period of 1891–95), and a death-rate of 36.4 (against a mean rate of 25.7) in the corresponding quarter of 1891–95. As usual, the most fatal causes were diarrhocal diseases, which caused 25 deaths (17 from diarrhoca and 8 from dysentery), or 48 per cent. of the total number of deaths (52). The other chief causes of deaths were debility 5, old age 1, infantile convulsions 5, general dropsy 3, childbirth 3, and anchylostomiasis 1.

Kegalla District.—The total number of births reported for registration from the estates in this district was 196 (181 Tamils, 14 Sinhalese, and 1 European), and the deaths numbered 226 (219 Tamils, 6 Sinhalese, and 1 Burgher), and corresponded respectively to an annual birth-rate among the Tamils of 28.8, against a mean rate of 13.5 in the corresponding period of 1891-95), and a death-rate of 33.1 (against a mean rate of 23.6 in the corresponding quarter of 1891-95)

Diarrheal diseases were the most fatal causes, and accounted for 96 deaths (52 from diarrhea and 44 from dysentery), or 42 per cent. of the total number of deaths (226). The other causes of deaths were fever 9, anchylostomiasis 6, debility 19 (mostly of infants from inability to suck), general dropsy 2, malarial cachexia 12, phthisis 2, presuments 13 infantile conventions 16, old are 10 abilitiath 2 to 10 abilitiath 2 abilitiath 2 abilitiath 2 abilitiath 2 abilitia pneumonia 13, infantile convulsions 16, old age 10, childbirth 3, bronchitis 5, and starvation 11.

Kalutara District.—The total number of births reported for registration from the estates in this district was 24 (all Tamils), and the deaths numbered 82 (79 Tamils, 2 Sinhalese, and 1 Moor), and corresponded to an annual birth-rate among the Tamils of 13-3 and a death-rate of 45-3 per 1,000, the mean rate being 6-0 and 35-2 respectively.

The most fatal cause was diarrheal diseases, which caused 27 deaths (18 from dysentery and 9 from diarrheas), or 33 per cent. of the total number of deaths (82). The other principal causes of deaths were pneumonia 5, debility

7, general dropsy 8, infantile convulsions 2, and old age 4.

Colombo District.—The total number of births reported for registration from the estates in the Colombo District, by which is meant the Avisáwélla division of the district, was 13 (all Tamils), and the number of deaths was 56 (54 Tamils and 2 Sighalese), and corresponded to an annual birth-rate of 11.8 and a death-rate of 50.8. Diarrhoeal diseases were fatal in 22 cases (12 dysentery and 10 diarrhoea), i.e., 39 per cent. of the total number of deaths (56). The other principal causes of deaths were malarial cachexia 6, dochmius duodenalis 4, debility 4, fever 1, pneumonia 3.

VII.—Health of the Town of Colombo.

This has been already reported on in my report published in the Ceylon Government Gazette of February 5, 1897, and in which is included an account of the cholera epidemie in the town, which was the most important event of

VIII.—Health of the Principal Towns.

The total number of births registered in the principal towns (exclusive of Colombo) during the quarter numbered 1,477, corresponding to an annual rate of 310 per 1,000, a lower proportion than in the corresponding period for 1891-95 (39.4).

The deaths numbered 1,327, and were at the annual rate of 27.9, a decrease of 28 per cent. on the mean death-rate of the fourth quarters in 1891-95 (38.7).

The following table shows the birth and death-rates in each of the principal towns in the Island for the fourth quarters of 1896 and 1895, and the average rates for the fourth quarters in 1891–95. The rates include events occurring in hospitals and jails :-

Ratnapura	_•••		3,527 •	27.0	- 37·1	30'4	38.5	46-1	32.6

Of the towns in the above table the population of Anurádhapura, Hambantota, Nuwara Eliya, Ratnapura, Chilaw, Mátalé, Kurunégala, and Puttalam are too small to yield trustworthy rates, a few deaths more or less causing a serious fluctuation in the rate. Excluding these, Badulla shows the highest death-rate (41-1), which is slightly lower than the average, but 27 percent. in excess of the rate in the corresponding quarter of the previous year. Jaffina and Mátara follow with rates of 36-8 and 34-6 respectively. The lowest death-rates are shown in Batticaloa and Kandy, 9-8 and 12-4 respectively, declining from averages of 15-1 and 26-0. With the subsidence of the epidemic of malarial fever the death-rate of Galle (25-6) has fallen to nearly balf its average (48-6). The death-rate of Negombo in the quarter is less than half the average and the birth-rate less than a third of the average.

Registrar-General's Office. Colombo, March 9, 1897.

P. ARUNACHALAM, Acting Registrar-General.

^{*} Illegitimacy in Ceylon does not mean, as in European countries, immorality on the part of the parents. A large number of people who marry are content with the customary or religious ceremonies, and do not think it necessary to comply with the requirements of modern legislation, which is itself rather uncertain as to what constitutes a legal marriage. "Illegitimate" here means the issue of an unregistered union, not necessarily a bastard.
