REGULATIONS made by the Governor, with the advice of the Executive Council, under the provisions of "The Quarantine and Prevention of Diseases Ordinance, 1897."

1. The term "proper authority" in the following regulations shall mean—

- (a) Wherever there shall be established a Municipality, the Chairman of the Municipal Council, or the Principal Civil Medical Officer, or the Colonial Surgeon of the Province, or the Health Officer of the Municipality, or any officer appointed by the Governor to perform the duties of the proper authority.
- (b) Wherever there shall be established a Local Board, the Chairman of the Local Board, or the Assistant Government Agent of the District, or the District Judge, or the Police Magistrate, or the Chief Medical Officer resident within the Local Board limits, or any officer appointed by the Governor to perform the duties of the proper authority.
- (c) Wherever there shall be no Municipality or Local Board established, the Government Agent of the Province, or the Assistant Government Agent of the District, or the Police Magistrate of the division, or the Colonial Surgeon of the Province, or the Chief Medical Officer of the district or place, or any officer appointed by the Governor to perform the duties of the proper authority.

2. It shall be lawful for the proper authority to cause persons infected with cholera, smallpox, chickenpox, or other infectious, contagious, or epidemic disease in any house or place hereunder described to be removed to some public hospital or other place provided by Government—

- (1) In any house or place in which goods are exposed for sale.
- (2) In any house or place of public resort.
- (3) In any building in which there are no means of isolating the patients from the other inmates, or in any building where the retention of the patient is likely to prove a source of danger to others.

Provided that it shall be competent for the proper authority, in case the removal of any person so infected in any house or place in which goods are exposed for sale is objected to, and the house or place is not otherwise open to objection, to allow the patient to be retained, on condition, however, that the sale of goods shall not be carried on in such house or place during such time as any person shall remain so infected in such house or place.

Provided further, that it shall be lawful for the proper authority to allow any patient to be removed to any locality which such patient or his or her friends may choose, and to which the medical authorities of the town or place, if any, do not object, instead of to the public hospital or place provided by Government.

3. Except as provided by these regulations, and except as provided by the Ordinance No. 8 of 1866, it shall not be lawful for any person to remove or assist in removing any person suffering from cholera, smallpox, chickenpox, or other infectious, contagious, or epidemic disease from the house or place in which such person shall be to any other house or place, without the sanction in writing of the proper authority.

4. It shall be lawful for the proper authority to prohibit the removal from any house or place in which goods are exposed for sale, or from any house or place of public resort, or from any building in which cholera, smallpox, chickenpox, or other infectious, contagious, or epidemic disease may have occurred, of any articles of merchandise or trade, or goods of any kind, until such time as such building or place is declared to be free from infection by the Medical authorities of the town or place in which such building is situated.

Provided that it shall be lawful for the proper authority to permit any goods from an infected house or place in which goods are exposed for sale, or from any house or place of public resort, or from any building in which cholera, smallpox, chickenpox, or other infectious, contagious, or epidemic disease may have occurred, to be removed to any other locality which the owner or occupier of such building may choose, and to which removal the Medical authorities of the town or place do not object.

5. It shall be lawful for the proper authority to prohibit the removal for interment of corpses of persons who have died of cholera, smallpox, chickenpox, or other infectious, contagious, or epidemic disease along any particular thoroughfare, and to prescribe the thoroughfares leading to the place of interment along which such corpses shall be carried. Information of such prohibition shall be given by notice in writing under the hand of the proper authority, which shall be posted in two or more conspicuous places in the prohibited thoroughfare and by publication in such other way as may be deemed necessary by such proper authority.

THE following scheme prepared by the Director of the Royal Botanic Gardens, Peradeniya, relative to the means for securing communication and co-operation with Agriculturists in the Colony, is published for general information.

Colonial Secretary's Office,
Colombo, May 26, 1897.

By His Excellency the Governor's command,
E. NOEL WALKER,
Colonial Secretary.

Communication and Co-operation between the Department of the Royal Botanic Gardens and the Agriculturists, &c., of the Colony.

It is very desirable that there should be greater and more ready communication and co-operation between the Department of the Royal Botanic Gardens and those whom it is chiefly designed to benefit, viz., the agriculturists, horticulturists, and botanists of the Colony. Many interesting cultivations, experiments, &c., are often going on in the Gardens, of which the public sees or hears nothing except in the brief annual report, which is not the place in which to give detailed accounts of such work. And, on the other hand, the staff of the Department, for want of better communication and means of getting information, often remain for long in ignorance of important occurrences, such as the appearance of new diseases, the starting of new cultivations or new methods of cultivation, and so on. A few suggestions as to ways of overcoming these difficulties are given below:—

I.—Publication of Information concerning the Gardens and what is going on therein.

(1) I would suggest the publication at intervals of a series of circulars or bulletins, each as a rule dealing with one subject only. The cost of a one-page circular would be about Rs. 3 per 1,000 copies. These circulars might be kept at the Gardens and distributed free or sent by post on receipt of a stamp for postage. Their publication should not be at fixed intervals, but whenever required. As examples of what is meant, the first few might deal with "the Chocho," "Rhea fibre," "the Cacao disease," "new ornamental plants," and so on. In some cases Sinhalese or Tamil translations might also be prepared for distribution among the villagers.

(2) I would suggest the publication in the *Government Gazette* and elsewhere, if thought desirable, of advertisements of important seeds or plants on sale at the Gardens.

(3) I would also suggest the giving of occasional lectures on important subjects, such as diseases of plants, new cultivations, &c., by the staff of the Department in Colombo, Kandy, or elsewhere. Also the giving of occasional demonstrations at the Gardens upon such subjects, e. g., upon rubber-tapping at Henaratgoda, or upon fibre plants at Peradeniya. Notice of such meetings might be given in the newspapers, or invitations sent to the Planters' Association at its meetings in Kandy. Such lectures or demonstrations could hardly fail to be of mutual advantage both to cultivators and to this Department.

II.—The Collection of Information by and for the Department.

(4) I would suggest that occasional tours be made in different districts of the Colony to investigate the various cultivations carried on, the diseases of plants, &c.; and that the results of these investigations be from time to time submitted to Government as special reports, which might also, when deemed advisable, be published as separate bulletins or circulars (see above).

(5) I would suggest that the Superintendent of Hakgala Garden and the Curator of Peradeniya Garden should be authorized to travel with or in place of the Director on these expeditions whenever the aid or advice of a highly skilled practical Gardener is needed.

(6) I would suggest that the Government Agents and other Administrative Officers, native headmen, Secretaries of Planters' Associations, &c., be requested to assist this Department by informing me from time to time of new cultivations started, old ones abandoned, outbreaks of diseases, and so on. Such a request might well form part of the first (introductory) circular issued by this Department.

JOHN C. WILLIS,
Director, Royal Botanic Gardens.

And whereas it is expedient to exclude the Customs Department of this Colony from the operation of the said Ordinance in respect to the holidays appearing in the schedule hereto:

It is hereby notified for general information that the Governor in Executive Council has excluded the Customs Department of this Colony from the operation of the said Ordinance in respect of the holidays set forth in the schedule hereto:—

Tenders should be submitted in duplicate, the original being forwarded to the Colonial Storekeeper and the duplicate to the Hon. the Auditor-General, both being required to be forwarded at the same time.

Intending tenderers will be furnished on application with the quantities actually supplied during the last three years.

2. The timber should be quality first class Rangoon teak squares.

3. The specification of the consignment should be submitted if directed to do so, and the teak is to be delivered at the Government Factory or as may be directed.

4. The timber is to be sound throughout, free from sapwood, shakes, dead or loose knots, or any other defects, and of the full dimensions given, in logs averaging 15 to 25 ft. in length by 15 in. sidings to 24 in. sidings—30 per cent. to be not less than 18 in. sidings by 20 ft. in length.

Price to be stated at per ton of 50 cubic ft.

6. A deposit, as noted above, will be required before any form of tender is issued; and should any person decline to enter into the contract and bond after he has

tendered, or fail to furnish approved security, such deposit will be forfeited to the Crown. All other deposits will be returned upon signature of a contract.

7. The deposit must be made at the Treasury or Kachcheri, and the deposit receipt must be produced to the officer issuing the form of tender as his authority for making the issue.

8. No tender will be considered unless it is on such printed forms—to be obtained at the office of the Colonial Storekeeper—and unless accompanied by a letter signed by two responsible persons, whose addresses must be given, engaging to become sureties for the due fulfilment of the contract.

9. The amount of security to be given, and all other necessary information, can be ascertained on application at the Colonial Storekeeper's office.

But if a contractor submits a security bond which does not bear the name or stamp of the lawyer who drafted it, he will be required to pay a fee of Rs. 10-50 to the Attorney-General for approving each bond.

11. The security bond should be furnished immediately on acceptance of tender being notified.

12. The price to include delivery.

13. All alterations or erasures in tenders should bear the initials of the tenderers, otherwise the tenders will be treated as informal and rejected.

14. The timber, before being accepted by the Colonial Storekeeper, will be inspected and passed by the Factory Engineer.
