NOTIFICATION UNDER SECTION 18A OF THE FISHERIES ORDINANCE, No. 24 OF 1940, AS AMENDED BY (AMENDMENT) ACTS, Nos. 25 OF 1952 AND 30 OF 1956

THE Report of the Arbitrator appointed to inquire into the dispute that has arisen between the present Madel operators and a group of individuals who are desirous of operating Madels in the Tangalle Waraya, is hereby published, for public information.

2. Any person who is affected by this Fishing Dispute or any matter relating to or incidental to this dispute and who desires to make representations on any matter dealt with in this report should do so in writing to the Minister of Industries and Fisheries before the expiration of one month from the date of publication of this notification.

V. S. M. DE MEL,
Permanent Secretary,
Ministry of Industries and Fisheries.

Colombo 1, August 6, 1958.

Report

The Honourable the Minister of Industries and Fisheries has, by his letter dated 28th February, 1958, referred to me for public inquiry and report a dispute that has arisen between the present madel net operators and a group of individuals who are desirous of operating madel nets in the Tangalle Waraya in the Hambantota District.

The subject matter of the dispute, according to the Honourable Minister's letter, is as follows:—

Madel fishing in the Tangalle Waraya in the Hambantota District is governed by regulations framed under Section 27 of the Game Protection Ordinance, 1909, and published in Gazette No. 8,417 of December 2, 1938. The fishermen of Tangalle Waraya operated 95 nets up to 1953. In 1953, for reasons of economy, the number of nets was reduced to 9 at the instance of the Co-operative Department.

Two Co-operative Fishing Societies, namely, the Tangalle Moolika Co-operative Madel Fishing Society and the Tangalle Medaketiya Co-operative Madel Fishing Society, were formed. The reduction in the number of nets was made under Regulation 4 (1) of the aforesaid regulations. The societies operated in this waraya without competition until 1956, when a new group of individuals claimed their rights under the existing regulations, and produced 4 nets for inspection. In accordance with the regulations, these nets were listed provisionally in 1956, and were entitled to precedence over all other nets on the following year of registration in 1957. The original operators who up to 1953 possessed 95 nets and enjoyed a virtual monopoly in the waraya contend that the continuance of such a monopoly was implicit in their understanding with the Co-operative Department to form themselves into two co-operative societies and reduce the number of nets from 95 to 9 for reasons of economy.

As it was not possible to enforce the regulations owing to the possibility of a breach of the peace, the annual registration, which was fixed for 31.12.57,

PART I: SEC. (I) — (GENERAL) — CEYLON GOVERNMENT GAZETTE — AUGUST 15, 1958

was postponed by the Government Agent, acting under Regulation 24 of the regulations framed under Section 27 of the Game Protection Ordinance, 1909, and published in Gazette No. 8,417 of December 2, 1938. Since all matters in dispute may not have been specified in the representations already made, I request you to inquire into any matters incidental or related to the dispute as outlined above and make your report on all such matters.

The procedure indicated in sub-sections (2) and (3) of Section 18 (A) of the Fisheries Ordinance, No. 24 of 1940 as amended by the Fisheries (Amendment) Acts, Nos. 25 of 1952 and 30 of 1956, in order to give due publicity to the public inquiry to be held by me was followed and a public inquiry following the procedure therefore, as laid down in some of the other sub-sections of Section 18 (A) referred to, was held by me at the Tangalle Rest House on 18th April, 1958, and the 10th May, 1958, when all the evidence which was being led on behalf of the different parties who were interested in the subject matter of the dispute as well as submissions made on their behalf by their lawyers, were concluded and the proceedings were adjourned for 31st May, 1958, for me to prepare my report and read it out to the interested parties who had been asked to be present for that purpose.

All written representations, which had been made to the Director of Fisheries under sub-sections (3) (a) (ii) of Section 18 (A) referred to, had been forwarded to me for my information by that officer before the commencement of the public inquiry and most of those persons who had sent up representations as well as a very large number of interested parties were present at the commencement and during the progress of the inquiry.

All the material witnesses, who had been summoned to give evidence, were present on one or the other day of the public inquiry as well as representatives of the Fisheries Department.

At the Public Inquiry, Mr. R. A. Kannangara, Advocate, instructed by Mr. D. P. Atapattu, appeared on behalf of the Tangalle Moolika Co-operative Madel Fishing Society (hereinafter called the Moolika Society) and the Tangalle Medaketiya Co-operative Madel Fishing Society (hereinafter called the Medaketiya Society), whilst Mr. R. G. W. Nilaweera, Proctor, with Mr. Nihal Wickramasuriya, Proctor, appeared for the Tangalle Medaketiya North Co-operative Madel Fishing Society in formation (hereinafter referred to as the Medaketiya North Society).

Mr. S. W. Edirisuriya, Proctor, appeared for 6 individuals who were present at the inquiry and who did not belong to any of the societies above mentioned, but who purported to own madel nets and boats which they sought to have registered in order that they too may enjoy fishing rights in the same waraya.

All regulations made under the repealed Game Protection Ordinance, 1909, are still kept alive under sub-section (h), Section 28 of the Fisheries Ordinance 24 of 1940 and the special regulations relating to the use of fishing nets within the area of the territorial waters adjoining the Hambantota District of the Southern Province were published in the Ceylon Government Gazette No. 8,417 of December 2, 1938, and these regulations are in force up to the present day.

Under these regulations, no madela or hanadela which has not been registered for use in a particular waraya in the District could be used, and the Assistant Government Agent may, by notice published, prescribe the number of madel or hanadel to be used in any waraya and no madela or hanadela shall be registered for use in any waraya in excess of the number prescribed by this officer for that waraya.

Each Madel net and boat which is registered is entitled to a turn of fishing in this waraya by having the net cast and dragged ashore, a process which takes about 3 hours time; by 1953, the number of madel

nets and boats which had been registered for operation in this waraya had risen to 95 (from 3 madel nets and boats which used to operate in this waraya in 1902, according to Mr. Nilaweera, who was not contradicted on this point); considering the fact that only one madel net can be cast at a time in this waraya and that too mostly during the daylight hours, everybody must have realised the utter lack of economic sense in the situation that had arisen, as only about 10 boats and nets were actually put out to the sea and all the 95 boats and nets belonged to about 15 individuals who had to keep them all in good repair for the purpose of registration at the end of each year. It was admitted that in 1953, one J. Wijetunga had as many as 19 boats and nets registered in his name, but that he actually worked only 3 of them. There were several others, besides Wijetunga, each of whom owned several boats and nets.

At this stage, the Co-operative and Fisheries Department officials and the Assistant Government Agent, Hambantota, stepped on to the scene and, after protracted negotiations with the net owners, decided that the number of nets should be reduced in the interests of the fishing industry and that a system of Co-operative fishing should be introduced; the fishermen fell in with this idea.

It was then found that it was impracticable to get all the fishermen in the area to form themselves into one Co-operative Society, and two (2) societies, the Moolika Society with a membership of 20 and owning 4 boats and nets and the Medaketiya Society with a membership of 22 and owning 5 boats and nets were formed and registered (later in 1955).

It is now contended, on behalf of these two societies that they, the members, were induced to reduce the number of boats and nets that they owned from 95 to 9 as they were to enjoy a monopoly of madel fishing in the Tangalle Waraya and that too for all time; and that it would be grossly unfair by them if any outsiders were now allowed to register their madel nets and boats and allowed fishing rights in this waraya, thereby reducing the former's earnings.

Mr. Kannangara went further and argued that it would be ultra vires, if not illegal, for the Government Agent, Hambantota, to register the 4 nets belonging to the parties represented by Mr. Nilaweera, for operation in this waraya and that the "inducement" held out to his clients to reduce their numbers of nets gave them a monopoly of madel fishing in this waraya for all time.

The evidence of Mr. Liyanage who was Additional Assistant Government Agent, Hambantota, from 1952 to 1954, and of other officials is to the effect that the number of madel nets was reduced in 1953 mainly for economic reasons; this was acquiesced in by the net owners who realised the advantages in the proposed measure; I have no doubt that for the time being at least, this was the very best arrangement possible and that everyone concerned acted in the very best faith in reducing the number of nets from 95 to 9 and having them apportioned in the proportion of 4 to 5 between the Moolika and Medaketiya Societies which were formed for the purpose and registered later in 1955 as Co-operative Fishing Societies.

It was also not intended at the time to register new boats and nets and allow new comers to fish with madel nets in this waraya but as to how long this arrangement was to hold good was not in the contemplation of the authorities at the time, though the mere handful of fishermen who saw the advantage they were going to have over the rest of the fishing population of Tangalle may have considered that they had obtained a monopoly of madel net fishing in the Tangalle Waraya for all time.

J. Wickramasuriya, who described himself as the Treasurer, stated in evidence that the Moolika Society is composed of 20 members of whom 4 are women (one of them being a lady teacher), one is a male trained teacher actually engaged in his vocation, 3 are land

owners and that 3 of the members are from the same family, 2 brothers and a sister, and that the rest a nondescript crowd who may be designated "fishermen". The composition of the Medaketiya Society is not in evidence, but it must be on the same pattern.

Could it be said that it was the intention of the authorities that this mere handful of villagers should have the monopoly of madel net fishing in the Tangalle Waraya for all time? Even if it be so, would it be fair to continue this monopoly for all time and even after the fishing population of the area had increased considerably?

Before 1953, all the 95 madel nets and boats had to be kept in good repair and sea worthy so that each set could pass the registration test about the end of the year, though only about 10 boats and nets were actually used for fishing purposes; everyone must have realised the gross lack of economics in the situation and the formation of the boat and net owners into two (2) co-operative societies with a total net strength of 9 could not be said to have resulted in any financial loss to the fishermen; it was quite the reverse, they stood to increase their nett gains from fishing.

By October, 1956, other members of the increasing fishing population of Tangalle who were also prepared to form themselves into a Co-operative Fishing Society called the Tangalle Medaketiya North Co-operative Madel Fishing Society (hereinafter called the Medaketiya North Society), wanted to enjoy the madel net fishing rights in the same waraya and offered for registration 4 boats and nets and, as could be expected, there was opposition from the two older societies and up-to-date the Medaketiya North Society has not been able to have its nets registered. When application is made to the Co-operative Development Officer for registration of the society, they are met with the reply that their nets should first be registered before their society could be registered as a Co-operative Fishing Society. This state of affairs has led to the present reference.

Although I am inclined to think that the document 1R11, which purports to be the Minutes Book of this Medaketiya North Society, has been made for the set purpose of being produced at this inquiry in order to strengthen their case, I find that about 30 persons from Tangalle, whose main occupation is fishing have formed themselves into a Society and have collected some money which has been expended in the preparation of 4 madel nets and 4 outrigger boats which were shown to me at the spot, and that all that is necessary for these people now before they could ply their trade in the Tangalle Waraya is the registration of their nets which would entitle them to fish in this waraya. They are all people from the Tangalle Waraya area and they are as much entitled to fish in this warayaas the members of the two earlier societies, but for the artificial restrictions imposed on them.

The right to fish in these territorial waters should not be restricted to a mere handful of persons all of whom are not fishermen by occupation, whilst a large majority of the population whose only occupation can be fishing are to be shut out because of the arrangement that had been arrived at in 1953, which was workable only for the time being and perhaps the near future. It will also be grossly unfair by the members of the two older societies, who consented to a reduction of their nets from 95 to 9 to allow every individual who gets a madel boat and net ready to enjoy full and unrestricted fishing rights in this waraya. To shut out new comers in the trade altogether owing to the existing monopoly will also be unfair, if not more.

I would therefore recommend to the Honourable the Minister that the Government Agent, Hambantota, be forthwith instructed to increase the number of madel nets entitled to fish in the Tangalle Waraya up to a maximum of 15 for the time being under Regulation 4 (1) and that the 4 nets belonging to the Medaketiya North Society be registered forthwith and facilities

afforded to this society to fish in this waraya with these nets in the same manner as the two older societies. All necessary facilities should also be afforded to the members of this Medaketiya North Society, which is still stated to be in formation, to have their society registered as a Co-operative Fishing Society and to act in all respects as the two older societies.

As regards the 6 individuals, represented at the inquiry by Mr. Edirisuriya, Mr. Nilaweera maintained that they were creatures of the two older societies and that they had been put forward by them in order to embarrass the position of the members of the Medaketiya North Society.

I am inclined to agree with Mr. Nilaweera and find that at least some of them have been inspired by the members of the two older societies, but they too have got ready at least 3 nets and boats which can be, and would be, registered but for the restrictions. These 6 persons, under the present conditions, cannot be allowed to form a fourth society of their own; if they are not allowed to form a separate society they appear to be willing to join the Medaketiya North Society. If they all join the Medaketiya North Society or at least 3 of them join it, this latter society (the Medaketiya North Society) will be entitled to have another net and boat registered in its name, making 5 in all. If these 6 persons or at least 3 of them will join the Moolika Society, that society also will be able to increase its net strength from 4 to 5. The Medaketiya Society will not be entitled to increase its net strength any more whether its membership increases or not, as it has already got 5 nets registered in its name.

I also consider it inexpedient, under existing conditions, to extend madel fishing rights in this waraya to individuals or to any other new society that may spring up during the next five years, up to the end of 1962, when the entire position may be reconsidered.

I would also recommend that provision may be made to have the existing regulations amended at least (if these antiquated regulations framed under the repealed Game Protection Ordinance are not to be recast in the near future so as to meet the present day requirements) so that the question of fishing rights, with madel nets, could be considered at regular intervals of 5 years in the light of conditions then obtaining.

Another question that may crop up during the course of these five yearly intervals is as to what should be the fate of the coming generation of fishermen of the area who may aspire to own madel boats and nets of their own? Should they be asked to wait till the end of a five-year period? I think the situation may be met if they are allowed to join one or the other of these three societies on payment of a small premium, the quantum to be fixed by the Government Agent at the end of each year in consultation with the Co-operative Department or any other department that may get an insight into the finances of each fishing society.

The maximum number of members that each of the 3 societies may entrol may also be determined by the Government Agent. In my opinion, from 35-40 members for each society may be a workable number, beyond that it may get unwieldy.

In conclusion, I wish to place on record my deep appreciation of the help given to me during the course of this inquiry by the lawyers who appeared for the several parties interested as well as by the officials of the different Government Departments concerned. My thanks also go out to the Assistant Superintendent of Police, Tangalle, who made provision for order being kept during the course of the proceedings. After this report was written to be read on the 31st May, 1958, a state of Emergency was declared and a curfew order was imposed all over Ceylon a few days before that day and it was thought expedient to defer its reading and the matter was put off since die.

The state of tension, which necessitated the declaration of the Emergency and the curfew order, has eased to a very great extent now; as it will be very unfair by the parties to the dispute if the reading of this report is delayed, today was fixed for its reading in public after the necessary publicity had been given to this fact by me.

The documents not required by me, like Minute books and other productions are handed over to the Proctors and the files are handed over to Mr. R. A. de Silva, Fishery Inspector, Tangalle, to be handed over to the respective Government Departments that produced them.
