## SUFFICIENT FUEL STOCKS IN COUNTRY - MINISTER

**NO IMPACT FROM SUEZ IMPASSE** 

#### **NO OIL PRICE HIKE**

Sri Lanka has sufficient stocks of fuel for at least another two weeks, Energy Minister Udaya Gammanpila said.

Speaking to the media, he said the blockage of Egypt's Suez Canal by a giant container ship (Ever Given) would not have an impact on Sri Lanka's oil

"Sri Lanka's next fuel shipment will be

(UAE) and not from any port close to the Suez Canal," the Minister said.

As per the statistics, international oil prices rose about two per cent amid growing fears that it could take weeks to remove the 'Ever Given' container ship blocking the Suez Canal, which would hold up supplies of crude and refined products. The

coming from the United Arab Emirates crisis entered the fifth day yesterday, with no immediate solution in sight.

> Minister Gammanpila said the Government does not intend to increase the oil prices in the coming weeks. "Sri Lanka's last fuel price increase was on Septemhe added. TO PAGE 02

Defence Secretary Gen. (Retd) Kamal Gunaratne and the Prelates at yesterday's event in Anuradhapura. Pictures by Sulochana Gamage.

## Sandahiru Seya, a tribute to the valiant war heroes - Defence Secretary

The erection of the *Sandahi-ru Seya* is purely a tribute to the valiant war heroes, Defence Secretary Gen. (Retd) Kamal Gunaratne said.

"It is a pride for us to vest this Stupa for the future generation as adept by the ancient Sri Lankan kings, Gen. Gunaratne said, recalling the large number of fallen, injured and permanently disabled war veterans.

The depositing of treasures and sacred relics at the Sandahiru Stupa Square Chamber was held auspiciously amidst religious blessings of Maha Sangha at the Stupa premises in the sacred city of Anuradhapura yesterday.

A large collection of precious artefacts and sacred relics offered by Ven. Maha Sangha

and devotees around the country along with an engraved stone inscription depicting comprehensive details of the Stupa with its dimensions were deposited during the historic religious ceremony.

The driving force behind the project, Defence Secretary and the Chairperson of 'Archaeological Heritage Management Presidential Task Force' (PTF) for Eastern Province, Gen. Kamal Gunaratne (Retd) offered a coffer containing sacred relics to Maha Sangha while arriving at the Square Chamber of the Maha Stupa.

The Theras deposited all the relics and treasures accordingly while observing the religious proceedings during the occasion.

The sacred recitals were

chanted by Ven. Maha Sangha to invoke blessings for the mammoth construction.

The three and a half-foot high crest-gem designed to be placed at the tip of the Conical Spire embedded with precious stones and gold was offered to the Ata-

Tri-Forces and the Civil Defence Force (CSD) were also offered precious artefacts to be placed at the square chamber during the ceremony. The event was organized on successful

completion of the hemispherical dome of the gigantic Stupa and the portion of Square Chamber erection would be initiated following the depositing of treasures today.

Accordingly, the assembly of square chamber, erection of conical spire and minaret, placing of sacred symbolic crestgem at the pointing tip, engravings, carvings and art work will be the other associated work in the pipeline.

Sandahiru Seya construction was a concept of the fifth Executive President of the country and the present Prime Minister Mahinda Rajapaksa built in appreciation of the noble services rendered by the Security Forces personnel to rid the country of terrorism.

process was steered under the directives of the former Defence Secretary Gotabaya Rajapaksa who is the current President.

Venerable Maha Sangha including Malwathu Chapter Lekakadhikari Most Ven. Rajakiya Panditha Dr. Pahamune Dharmakirthi Sri Sumangala Thera, Government Ministers, the North Central Province Governor, Parliamentarians, Ministry Secretaries, Navy and Air Force Commanders, Inspector General of Police, Director General of CSD, Chairman and Chief Executive Officer of the National Gem and Jewellery Authority and a large gathering of devotees and invitees were also present at the event.

#### Unrefined coconut oil imports to be banned

S.M.WIJAYARATNE, Kurunegala corr.

State Minister Arundika Fernando told the media that action will be taken to stop importing unrefined coconut oil henceforth.

"About 180,000 metric tonnes of coconut oil is required annually to meet the country's demand. Steps are now underway to increase local manufacturing of pure coconut oil to meet the demand. President Gotabaya Rajapaksa has given instructions in this regard," he said.

#### ITI lab tests on... From page 01

She said the report would be issued as soon as the tests were completed. The CAA has begun collecting coconut oil samples in all districts to test whether those are contaminated as claimed by some. The CAA spokesman told the media that district officials were instructed to obtain five samples of coconut oil from each district to test for substandard products, adding that those would be tested in

laboratories. The Customs took measures to seal the questionable stocks of coconut oil in stores until investigations conclude. The Customs stated that the containers were released only to the warehouses of the respective companies. The Sri Lanka Standards Institution (SLSI) has confirmed that the coconut oil of one of the four importers is substandard as per its test results.

The Food Safety Unit of the Health Ministry recently confirmed that a highly carcinogenic substance was identified in a stock of imported coconut

The Government said the coconut oil stock in question would be reexported if it was found to have been contaminat-

"The questionable stocks of coconut oil have not gone to the market. Those have been sealed in warehouses. The Opposition is making false allegations for political advantages. Their intention is to inconvenience the Government," Minister Rear Admiral (Retd) Dr. Sarath Weerasekara told the media yesterday.

#### The BBC and other news out-

Police not acting... From page 01

He was speaking at a press conference in Kandy on Saturday."The Government permitted a fair increase of bus fares to minimise the loss to the bus owners from the newly imposed restrictions. However, we cannot let bus operators continue to overload passengers like before while also taking the advantage of increased bus fares. The Gazette was issued because oral instructions in

this regard were disregard-

ed. Now we have made it a

law and the Police should pay more attention to this matter," he said.

"The COVID-19 risk has not been eliminated. If the people disregard health guidelines in the coming Sinhala and Tamil New Year season, there is a possibility that the virus may spread fast again," he added.

He pointed out that several employees of the Northern depot have been instructed to quarantine as

#### Police watch on... From page 01

The Education Ministry issued a special circular with health guidelines to re-open Western Province school today. According to the circular issued by the Education Ministry, classes with less than 15 students can be conducted on a daily basis. And also, classes with 16-30 students will have to be divided into two groups and conducted week after week.

Classes with 30 or more students will have to be divided into three groups and classes must be conducted equal number of days.

lets reported that the blockage of Egypt's Suez Canal by a giant container ship is causing a "traffic jam" in the Red Sea, according to a merchant seaman on a nearby ship. Joe Reynolds, chief engineer of

the Maersk Ohio, told the BBC the number of vessels (container ships and tankers) waiting at the Canal's southern entrance was "growing exponentially". "It's going to affect shipping schedules around the world," he warned.

Tugboats and dredgers are trying to dislodge the Ever Given, which is wedged diagonally across the waterway. The 400m-long (1,300ft), 200,000-tonne vessel ran aground on Tuesday morning amid high winds and a sandstorm that affected visibility.

Specialist salvage companies have been brought in to help refloat the ship, and an adviser to Egypt's President has said he hopes the situation will be resolved within two to three days. But experts have said it could

take weeks if some or all of the vessel's 20,000 containers need to be removed. Experts say the loss to the global economy from the Suez impasse will be close to US\$ 10 billion.

Completed in 1869, the 194 Km-long Suez Canal is one of the most vital shipping lanes that connects the East and the West. it is the only place that directly connects the waters of Europe with the Arabian Sea, the Indian Ocean and the countries of the Asia-Pacific. Without the Suez,

shipments traveling between those parts of the world would have to traverse the entire continent of Africa, adding hefty costs and substantially extending their journey times.

The time saved by the passage is almost invaluable. Today, a ship traveling from a port in Italy to India, for instance, would cover around 4,400 nautical miles if it passed through the Suez Canal a journey that, at a speed of 20 knots, would take about nine days. But the second-quickest

way to complete that same journey would be via the Cape of Good Hope and around Africa. At the same speed, it would take three weeks to traverse the route, which is 10,500 nautical miles long. The canal's strategically important position means it hosts nearly 19,000 vessels each year, according to Lloyd's List, a shipping industry journal. A multinational summit resulted in an agreement that the canal would be free for all countries to use, both in peace and war.

Religious Affairs Minister Yaqut Cholil Qoumas condemned the attack and urged places of worship.

A priest at the church, Father Wilhe-

The attacker, he said, arrived by motorwho stopped the attackers from entering

#### the grounds of the cathedral. The blast happened by the church's side entrance.

Footage from security cameras showed fire, smoke and debris being blown into the middle of the road. Makassar Mayor Danny Pomanto said

that if the explosion had happened at the main entrance, it could have led to far more casualties.

Gomar Gultom, head of the Indonesian Council of Churches, said the attack on people celebrating Palm Sunday was "cruel".

He urged people to stay calm and trust the authorities.

Churches have been targeted in the past by extremists in Indonesia, the world's biggest Muslim-majority nation.

In 2018, dozens of people were killed in bomb attacks on churches and a police headquarters in the port city of Surabaya. Police blamed an Islamic State-inspired

network, the Jamaah Ansharut Daulah (JAD) group, for the attacks.

Indonesia's worst ever terror attack was in Bali in 2002, when 202 people mostly foreigners - were killed in an attack on a tourist nightlife district.

That attack was carried out by the Jemaah Islamiah (JI) militant network and prompted a sustained crackdown on militants. (BBC, agencies

#### Law's delays will be... From page 01

"There has been key progress made over the last few months. The increase of Supreme Court and Court of Appeal judges was the first such increase in over 40 years. Justice sector reform has been allocated a record 20 billion from the budget which reflects the largest ever commitment by a government towards the reform of the justice sector," the Minister noted.

The convocation was graced by Chief Justice Jayantha Jayasuriya, PC, Attorney General Dappula De Livera, PC, Court of Appeal President Arjuna Obeysekera, acting Solicitor General Sanjay Rajaratnam, PC among

guests. Minister Sabry said that the legal profession is unique and it rests with the Bar Association a heavy responsibility to the citizens of this country, and to the country itself.

Speaking further Sabry said the BASL has a vital role in protecting the rule of law, maintaining the independence of the judiciary and protecting the sovereignty of the country. "This responsibility is not a passive one, it is a positive one where there is a need for the legal profession to be at the forefront of positive social change."

"Lawyers, therefore, the minister said, form a core part of the judicial arm of the state. Lawyers are by their very nature officers of court and on many levels the gatekeepers to justice."

In his address, Saliya Peiris said: "I am committed to the objectives of the Bar Association. Amongst which are upholding the Rule of Law, safeguarding the independence of the judiciary, and fostering the fundamental rights of the people of Sri Lanka, the promotion, observance and protection of human rights and liberties including right of access to courts are an essential component of the Rule of Law and are among the objectives of the bar association".

'The Bar should not hesitate to let its views be known whenever the Rule of Law or the independence of the judiciary is imperiled. In fact, the objectives of the BASL require the intervention of the Bar in situations of national importance whenever the Rule of Law or the administration of justice is affected," he concluded.

#### Seasonal shoppers warned... From page 01

He said that the Police have identified that drug dependents and organized gangs are involved in these type of offences.

He requested jewellery shop owners to be extra vigilant and have a contingency plan to confront such instances and have a police emergency number to dial immediately.

He said the Police have deployed mobile patrols to tighten security in the New Year season.

Moreover, the Police Spokesman also warned the public to take precautionary measures to prevent road accidents during the upcoming New Year season.

DIG Rohana said 11 people died on Saturday due to motor traffic accidents. He urged drivers to desist from driving under the influence and to be cautious of road rules and safety of pedestrians when driv-

The Police Spokesman also requested the people to adhere to health guidelines during the season and to wear face masks all the time. He requested the shop owners to pay more attention in this regard. He added that about 3,400 people had been arrested since October 30, 2020 for violating quarantine regulations such as not wearing face masks and not maintaining social distancing.

## Public cautioned against severe lightning

The Meteorology Department yesterday issued an advisory for severe lightning.

"Thundershowers accompanied by severe lightning are likely to occur at several places in the Central, Sabaragamuwa, Western and North-Western Provinces and in the Galle and the Matara Districts. Heavy showers above 100 mm are likely at some places in these

There may be temporary strong winds during thundershowers. The public is requested to take adequate precautions to minimise damages caused by temporary strong winds and lightning," the advisory stated.

"Showers or thundershowers will occur at several palaces in the

Sabaragamuwa, Southern, West ern, Central and Uva Provinces during the evening or night. Fairly heavy rainfalls above 50 mm can

be expected at some places. Several spells of showers will be in the Northern, North-Central and the Eastern Provinces. Mist will be at

some places in the Central, Sabaragamuwa and Western Provinces during the morning," the Department said.

The Department advised the people to seek shelter, preferably indoors and never under trees, during lightning. "Avoid open areas such as paddy fields, tea plantations and open water bodies during thunderstorms. Avoid using wired telephones and connected electric appliances during thunderstorms. Avoid using open vehicles, such as bicycles, tractors and boats. Beware of fallen trees and power lines. For emergency assistance, contact the disaster management authorities," the Department added.

#### Dates from Saudi Arabia for Ramadan

#### ASHRAFF.A.SAMAD

The Government of Saudi Arabia has provided 75 MT of dates for Ramadan

The stock was handed over to Prime Minister and Buddha Sasana, Religious and Cultural Affairs Minister Mahinda Rajapaksa on March 16 by Deputy

Ambassador of Saudi Arabia in Sri Lanka Riyab Al Sharif at the Prime Minister's official residence.

The Prime Minister handed the dates over to Muslim Religious and Cultural Affairs Department Director A.B.M. Ashraf. The dates will be delivered to the registered Mosques in the country.

#### 'Universities to re-open after New Year'

#### S.M.WIJAYARATNE, KURUNEGALA CORR.

University Grants Commission Chairman Senior Prof. Sampath Amaratunga has informed Vice Chancellors to take steps to re-open State Universities after the Sinhala and Tamil New Year.

The Vice Chancellors have been instructed to ask undergraduates to attend universities in groups.

The new entrants to the universities will be enrolled soon, the UGC Chair-

### **Colombo Port City Economic** Commission **Bill gazetted**

The Government last week gazetted the 'Colombo Port City Economic Commission' Bill to establish a Special Economic Zone within which there is ease of doing business that will attract new investments.

The new Bill has been published under the orders of President Gotabaya Rajapaksa and it will be presented to Parliament for the First Reading

"The Colombo Port City Special Economic Zone" will be an international business and services hub with specialised infrastructure and other facilities to promote and facilitate economic activities. It will facilitate international trade, shipping logistic operations, offshore banking and financial services, information technology and business process outsourcing, corporate headquarters operations, regional distribution operations, tourism, and other ancillary services.

The Zone will facilitate the diversification of the service economy and will promote the inflow of foreign exchange while generating new employments.

The Bill will establish a Commissio to grant registrations, licences, authorisations and other approvals to carry on businesses and other activities in the Zone. The Commission will consist of not less than five members and not more than seven members who will be appointed by the President.

It will also provide for the identification of a Single Window Investment facilitator to promote ease of doing business within the Zone while determining and granting incentives and other exemptions to promote businesses of strategic importance.

#### Seminar on Graphic Design and Multimedia **Technology**

Sri Lanka Institute of Printing under the State Ministry of Skills Development, Vocational Education, Research and Innovation has organized a workshop style seminar on Graphic Design and Multimedia Technolo-

This seminar will be held on March 30 from 8.30 am to 1.30 pm at the Institute. It will give an exposure and understanding of the use of essential graphic software packages in the industry and guide school leavers and other professionals who wish to gain knowledge in graphic designing skills in day to day work and presentations.

The Multimedia session will discuss the use of essential software packages in Web Design, Non-Linear Editing and Digital Animation and guide the school leavers and other professionals who wish to gain knowledge in Web Design, 3D Animation, Non-Linear Editing skills in relevant projects.

It will be useful for those who take up Web Design, 3D Animation, Non-Linear Editing and Graphic Designing as careers, which have a high potential for employments.

The intake will be limited to capacity and those who are interested in participating in the seminar should reserve a seat by contacting Sri Lanka Institute of Printing on 011 2686162 or 011 2679791 or 0777 706995 or by visiting Sri Lanka Institute of Printing, Department of Government Printing, No. 118, Dr. Danister De Silva Mawatha, Colombo.

Seats could be reserved by an e-mail to sliopreg@sltnet.lk or by visiting its web site, www.sliop.edu.lk.

#### **SRI LANKA'S NO. 1 BANK** RANKED AMONGST THE BEST IN THE WORLD.

The globally acclaimed magazine, "The Asian Banker", has ranked Bank of Ceylon as Sri Lanka's largest Bank and placed the bank amongst the top 500 largest banks in the Asia Pacific Region.

We take pride in receiving this prestigious award and vow to steadfastly forge ahead with strength and innovation.

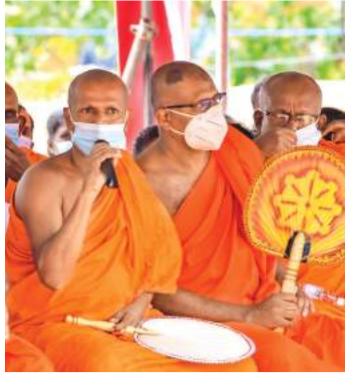

Head Office, "Bank of Ceylon Square", No. 01, Bank of Ceylon Mawatha, Colombo 01.

## Meeting basic needs of the people a priority — President

he government is duty-bound to meet the basic needs of the people. It is not only the responsibility of the government but also that of the officials as well. This foundation will strengthen the economy in a manner that is most effective for the country and will prioritize addressing the issues of the rural people," President Gotabaya Rajapaksa said.

The President made these remarks addressing the gathering at the beginning of the 16th 'Discussion with the Village' programme held at Derangala Maha Vidyalaya premises in the Kiriwelkele North Third Step Grama Niladhari Division which falls within the limits of the Pitabeddara Divisional Secretariat Division in the Matara District, on Saturday (27).

He observed that the foundation has been laid for the country to move forward while correctly identifying and resolving the problems faced by the people for a long time. "Back in the day, Colombo was developed into a green city. Strategies are now in place to utilize renewable energy sources to the tune of 70 percent of energy requirements by 2030. Steps have been taken to supply electricity to the main power grid from over 7,000 solar power systems. The use of chemical fertilizer will be reduced by 25 percent every coming year. All these projects are aimed at conserving the environment as well as strengthening the economy," President Rajapaksa said.

"Foreign and local forces who cannot stand this progress and the mafia which supports them are misleading the public. The devastation caused in the last five years can happen again if true progress is left unnoticed and you choose to believe lies and mislead yourself. If you give into those lies, the damage could be irreversible," the President said.

He said national security was ignored due to the wrong priorities of the previous government. The Easter Sunday attacks were a result of that. War heroes were imprisoned on baseless charges. The country's sovereignty was compromised by co-sponsoring the Geneva resolution. Attempts were made to destroy the culture and religion associated with our unique heritage.

"The country was thrown into a crisis by entering into agreements such as the MCC Compact and the Eastern Container Terminal Agreement." The President added that they are being resolved today.

President Rajapaksa highlighted that those who created and supported all the issues are now protesting against the present government adding that several prominent figures from the former government pretend as if they were never in power. The President observed that although it was not his way to respond to baseless allegations, now he has to answer and expose lies.

The 'Discussion with the Village' programme commenced on September 25, 2020 from the Badulla District. Thereafter programmes were organized covering the Matale, Ratnapura, Anuradhapura, Ampara, Polonnaruwa, Kalutara, Moneragala, Kegalle, Kandy, Puttalam, Trincomalee, Kurunegala, Galle and Nuwara

Eliya districts. The idea behind this programme is for the President to talk to the rural communities living in remote and difficult areas without intermediaries, about their long-standing unresolved problems and to present them directly to the officials in order to find solutions. Problems that can be solved on the spot are instantly addressed. The rest which take time to deal with are noted down to find solutions later. The objective of the programme is to reach out to the people of the village, understand their problems and find solutions giving consideration to their own suggestions.

Kiriwelkele North Third Step Grama Niladhari Division is located 12km away from Pitabeddara town. It is a highland colony established in 1958 and it became Kiriwelkale village following the settlement of people in the area. It is the most difficult village which falls within the limits of the Pitabeddara Divisional Secretariat area. The total population of the Grama Niladhari Division is 2,990 comprising 622 families. Most of the owners of small tea holdings in the Matara District live here. The main sources of income are tea, cinnamon, rubber, black pepper and coconut.

President Rajapaksa arrived at Dehigaspe Dudley Senanayake Maha Vidyalaya, Pitabeddara and from there he made it to Derangala Maha Vidyalaya to attend the 'Discussion with the Village' programme.

President Rajapaksa conversed with the people gathered on both sides of the road as well as the people and students gathered in close proximity to Derangala Junior College and inquired into their problems.

President Rajapaksa opened the 'Smart Classroom' facilitated with a high-speed internet connection donated by Sri Lanka Telecom (SLT) Mobitel to Derangala MahaVidyalaya and presented the laptops with internet connections donated by SLT Mobitel and the TV set and the internet connection provided by Dialog Axiata to the Principal of the Seelarathana Junior School, Banagala.

Another objective of President Rajapaksa is to develop school library facilities in all areas where the 'Discussion with the Village' programme is held. The President presented sets of books to schools under the programme "A generation empowered with knowledge". Each school receives 500 books covering a number of subjects to assist students in their further education.

A programme to grant title deeds to the families who had been in possession of government lands without clear ownership was begun recently. President Rajapaksa symbolically presented title deeds to five families in the Pitabeddara Divisional Secretariat Division.

It was decided at the 'Discussion with the Village' programme to expedite the development of bridges including Pahuruthota, Jambugasdola, Mederipitiya and Velangavita which were destroyed by floods

The President instructed the officials to resolve the issues regarding the unauthorized use of land belonging to the Land Reforms Commission and conduct surveys following a joint inspection of large tracts of land under plantation companies.

It was decided to hold a "Land Day" to resolve all existing land issues in Pitabeddara and adjoining villages. The Road Development Authority was

The Road Development Authority was tasked with identifying unsafe slopes on roads in the area and constructing safety fences.

President Rajapaksa instructed the relevant officials to develop about 120 km of roads including the Derangala road near the Podidahayakanda bus stand, the Mahena Ella road and the Nagahahena 517 road in Banagala East within the next few months.

Farmers apprised the President regarding the difficulties faced by them in selling cinnamon produce. The President instructed to formulate a proper system and monitoring mechanism to end the injustice caused in purchasing grade A cinnamon as grade B. The Plantations Ministry was directed to distribute high-quality cinnamon seedlings to nurseries owned by the Cinnamon Farmers' Associations.

The small-scale tea plantations in the area have a history of over 35 years. It takes more than two years to replant and collect tea harvest. The President emphasized the need to expedite the replanting of tea by providing an annual allowance for two years to compensate the loss of income during this period, as a remedy.

The President instructed the Education Secretary to take steps to eliminate the issue of shortage of teachers and develop infrastructure facilities in schools including Thalapekumbura Junior School, Derangala Maha Vidyalaya, Siyambalagoda West Junior School and Kalubowitiyawa Maha Vidyalaya as well as to construct a flyover at Alapaladeniya Secondary School.

It was instructed to implement a drinking water project in Morawaka and to establish a number of small community water units covering 60 Grama Niladhari Divisions.

The President also directed the officials to renovate the Derangala Health Centre and provide immediate solutions to a number of public problems including infrastructure development and filling vacancies in health centres in the area.

Speaker Mahinda Yapa Abeywardena, Minister Dullas Alahapperuma, Southern Province Governor Dr. Willie Gamage, State Minister Kanchana Wijesekera, Members of Parliament Nipuna Ranawaka, Weerasumana Weerasinghe, Karuna Kodithuwakku, Principal Adviser to the President Lalith Weeratunga, people's representatives of the district, Secretaries to Ministries, Heads of Government Institutions and the Security Forces were present at the 'Discussion with the Village' programme held on the premises of Derangala Maha Vidyalaya.

## Sri Lanka chairs IORA WGMSS 2nd meeting

The IORA Working Group on Maritime Safety and Security (WGMSS) 2nd meeting chaired by Sri Lanka was held virtually from March 18 to 19 with its member States and the Secretariat.

Foreign Secretary Admiral Prof. Jayanath Colombage inaugurated the meeting and highlighted that the time is opportune to translate discussions on maritime safety and security issues into action. He referred to the maritime crime trinity narcotics, human and weapon trafficking, which is increasing, despite numerous initiatives by the Global Maritime Crimes Programme of the United Nations Office on Drugs and Crime and several other regional and international entities and national governments.

He said that 40 per cent of fishing comes from IUU fishing in the Indian Ocean, quoting a UN Food and Agriculture Organization Report. The Foreign Secretary noted the Impact of IUU fishing on the marine environment and the sustainable management of fisheries resources. He said how fishing boats are involved in the increase in trafficking and polluting the marine environment, recalling the dead zone of 60,000 square kilometres in the Bay of Bengal and the large garbage patch in the southern part of the Indian Ocean. "With humans releasing at least eight million metric tonnes of plastic every year to the oceans, soon there will be more plastic in the ocean than fish, resulting in unhealthy scenarios".

He said that now, again, another three trends are emerging or already have emerged in the Indian Ocean. "Number one, the politicisation of the maritime trade; number two, the politicisation of maritimerelated infrastructure and number three, increased militarisation of the Indian Ocean". "We need international rules-based maritime order and enhance maritime trade connectivity as there is a huge asymmetry in the Indian Ocean Region," he

The Foreign Secretary said that Sri Lanka is looking forward to continuing its leadership role in the next tenure as the lead country for the IORA WGMSS and that Sri Lanka is also looking forward to play-

ing an effective role to benefit the IORA family during its tenure as Vice-Chair, which will begin around the fourth quarter this year, for enhanced regional cooperation in the

Indian Ocean Region. IORA Acting Secretary General Dr. Gunawan H. Gatot extended his sincere appreciation to the Foreign Ministry of Sri Lanka for the exceptional arrangements made to host the IORA WGMSS second meeting in a hybrid format despite the ongoing COVID-19 Pandemic.

"Prevention cannot depend on anticipating how threats to maritime safety and security will evolve. During these ongoing challenging times, we must recognise the opportunity to enhance cooperation through stronger partnerships and effective coordination and planning. I hope that today, through

this hybrid Meeting, we can engage in constructive discussions on the way forward to review and update the IORA WGMSS Work Plan, and to share best practices that strengthen cooperation within the IORA Maritime Safety and Security Framework," he said.

The Inaugural Ceremony was held in accordance with COVID-19 protocols and was attended by Heads of Missions and or other diplomats of IORA Member States and Dialogue Partner countries in Colombo, UN Resident Coordinator, Head of Global Maritime Crime Programme of the United Nations Office on Drugs and Crime (GMCP-UNODC) and senior officials from other stakeholders.

The meeting was chaired by Director General of Ocean Affairs, Environment and Climate Change of the Foreign Ministry Hasanthi Urugodawatte Dissanayake.

Prior to the meeting, March 17, an informal virtual meeting was held to discuss the agenda and modalities by the Eight Cluster Group Member States of IORA WGMSS of 20 delegates. The Cluster Group comprises Australia, Bangladesh, India, Indonesia, Iran, Kenya, Madagascar, Mauritius, South Africa, Sri Lanka, Tanzania and the United Arab Emirates.

An introductory session was held to stimulate the participating Member State representatives on Maritime Safety and Security issues. The session included a presentation by Head of GMCP – UNODC Alan Cole on "The Emerging Threats to Maritime Security in the Indian Ocean Region' and on "Maritime Safety and Security: Challenges and Solutions from Stable Seas Perspective" by Stable Seas Organization Jay Benson. This introductory session was moderated by Commander of the Eastern Naval Area and Chief Hydrographer of Sri Lanka Navy Rear Admiral Y. N. Jayarathna.

Forty four delegates joined virtually representing 15 Member States out of 23 and discussed the succeeding Work Plan of the IORA WGMSS for 2022-2026. Deliberations involved taking into consideration drawbacks in the earlier Work Plan, in terms of format, implementation responsibilities and the COVID 19 pandemic and new activities proposed by the Member States. The Work Plan for 2022 to 2026 was finalised with more specific activities and individual Member States or the IORA Secretariat taking responsibility for each activity, which was considered, as more pragmatic in moving forward. It also included unconcluded activities from the 2019 – 2021 Work

## Fifty four Indian fishermen in Sri Lankan custody released

Sri Lanka has released all 54 Indian fishermen who were arrested this week for allegedly poaching in the country's territorial waters, Indian officials confirmed on Saturday.

The Indian official sources here said that 40 of them were released on Friday and the remaining 14 have been released this morning.

The 54 Indian fishermen were arrested by the Sri Lankan Navy on March 24 at two different locations in the North and Northeastern seas. The Navy also seized their five trawlers.

Upon their arrest, the Indian High Commission here said that they were providing consular

assistance to the arrested fishermen. It said the fishermen's issue needed to be treated in a humanitarian manner. The Indian High Commission in a statement said that the bilateral mechanisms were being utilised to see an expeditious settlement of the issue.

Fishermen from both countries are arrested frequently for inadvertently trespassing into each other's waters. The fishermen issue has become a major irritant in bilateral ties of the two countries.

In January, External Affairs Minister S. Jaishankar visited Sri Lanka and met Sri Lanka's Fisheries Minister Douglas Devananda and raised the fishermen issue and reviewed bilateral cooperation in fisheries.

"We look forward to the early return of our fishermen from Sri Lanka," Jaishankar had said. Later, a three-member committee was

#### Oceanlust cleans coral reef

Leaning the beach.

Navy Commander Vice Admiral Nishantha Ulugetenne inaugurated the 1st Reef Cleaning Project in 2021 organised by Oceanlust e-magazine at the Malima Club House, Uswetakeiyawa on Saturday. The natural coral reef from the Kelani Estuary and the neighboring shoreline were cleaned.

Naval divers cleared plastic and polythene debris. Members of the Men in Whites, their family members, Naval and coast guard personnel, members from the Marine Environment Protection Authority, Department of Coast Conservation and Coastal Resource Management, various government and non-government organizations and residents of the area broke a sweat to clean a 5km long beach area from Uswetakeiyawa to Preethipura on the sidelines of the main event. Navy Seva Vanitha Unit President Chandima Ulugetenne, Deputy Chief of Staff and Commander Western Naval Area Rear Admiral Meril Sudarshana, officers and sailors took part in the event.

#### Boy bathing in tank dies in croc attack

M. S. ABDUL HALEEM.

Mullipothana Group Corr A 15-year-old boy bathing in a tank in Sampur died when he was attacked by a crocodile.

The victim was identified as Konalingam Lenujan, a student of Toppur-School, Ithikulam. The boy had gone to bathe in the Ithikulam tank along with two other boys and had been dragged down by the crocodile. Later, his body was found, police said. Sampur police are investigating.

## Governments urged to prioritise seafarers, aircrew in vaccination programmes

## They travel across borders at all times

In a Joint Statement international organisations called on Governments to prioritise seafarers and aircrew in their national COVID-19 vaccination programmes.

Late city

The International Civil Aviation Organization (ICAO), International Labour Organization (ILO), International Maritime Organization (IMO), International Organization for Migration (IOM) and World Health Organization (WHO)issued a joint statement last week on prioritization of COVID-19 vaccination for seafarers and aircrew.

"The coronavirus (COVID-19) pandemic has triggered devastating consequences for

human life and the global economy. Maritime and air transport are two essential activities that underpin global trade and mobility and are key to a sustainable socio-economic recovery.

"More than 80 per cent of global trade by volume is moved by maritime transport. The global economy depends on the world's 2 million seafarers who operate the global fleet of merchant ships. Seafarers have been severely impacted by the travel restrictions imposed during the pandemic. As of January 2021, it is estimated that some 400,000 seafarers are stranded on board commercial vessels,

long past the expiry of their contracts and unable to be repatriated. A similar number of seafarers urgently need to join ships to replace them.

"Passenger air transport carried about 5.7 billion passengers in 2019 while airfreight represents 35 per cent of the value of goods shipped in all modes combined. The total number of licensed aviation professionals, which include pilots, air traffic controllers and licensed maintenance technicians, was 887,000 in 2019, according to ICAO personnel statistics. Application of stringent public health rules to air crew, including quarantine, has

resulted in hindered connectivity, operational complexity and significant cost.

"Maritime and air transport rely on seafarers and aircrew. They are key workers required to travel across borders at all times, which may result in the need for them to present proof of a COVID-19 vaccination as a condition for entry in some countries. This is despite WHO recommendation that, at the present time, countries should not introduce requirements of proof of vaccination for international travel as a condition of entry, as there are still critical unknowns regarding the efficacy of vaccination in reducing transmission and

limited availability of vaccines. For shipping and air transport to continue to operate safely, the safe cross border movement of seafarers and aircrew must be facilitated. We reiterate our call upon countries that have not done so to designate seafarers and aircrew as key workers.

"With this statement, our organizations also call on governments to prioritize seafarers and aircrew in their national COVID-19 vaccination programmes, together with other essential workers, in accordance with the advice from the WHO SAGE Roadmap for prioritizing the use of COVID-19 vaccines in the context of limited supply published in November 2020. Seafarers and aircrew need to be protected through vaccination as soon as possible, to facilitate their safe movement across borders. We also call on governments to identify and prepare for the challenges of COVID-19 vaccination of seafarers and aircrew, particularly for seafarers spending long periods of time away from their home country.

"Our organizations fully support the timely development of an international harmonized framework for vaccination certificates, to facilitate international travel for seafarers and aircrew.

"In December 2020, WHO established a Smart Vaccination Certificate working group to ensure that digitalized versions of vaccine certificates are interoperable, and the UN Crisis Management Team for COVID-19, under the leadership of WHO, recognized that all countries should consider seafarers and aircrew, who are required to travel across borders during the pandemic, for essential allocation of vaccines. We invite governments and other stakeholders to bring the contents of this joint statement to the attention of the competent authorities and all parties concerned," the statement read.

### Russian envoy calls on **Defence Secretary**

Ambassador Extraordinary and Plenipotentiary of the Russian Federation to Sri Lanka, Yury Materiy met the Defence Secretary General Kamal Gunaratne (Retd) at the Ministry on Friday.

The Defence Secretary and the Ambassador Materiy had a cordial discussion on matters of bilateral importance and mutual relevance during the occasion,

the Defence Ministry said. General Gunaratne thanked the Russian envoy for their continuous support for Sri Lanka that further strengthened the bilateral ties between the two countries.

Defence Attaché to the Russian Embassy in Sri Lanka, Colonel Denis I. Shkoda and Additional Secretary (Defence) PBSC Nonis were present.

Ambassador Extraordinary and Plenipotentiary of the Russian Federation to Sri Lanka, Yury Materiy in discussion with the Defence Secretary General Kamal Gunaratne (Retd) at the

#### **UN commission pushes equality** for women in decision-making

The 65th session of the UN Commission on the Status of Women (CSW) ended its two-week long gathering on Friday by adopting a document that recognises the need to significantly accelerate the pace in ensuring women a place in government and public sector leadership. The so-called Agreed Conclusions acknowledge that temporary special measures, such as quotas, and increased political will are needed as an enabling pathway to this goal.

"This is the first session of the Commission on the Status of Women in 15 years to engage with the issue of women's participation in public life and these Agreed Conclusions make important advances", said Phumzile Mlambo-Ngcuka, the Executive Director of UN Women, which serves as the CSW Secretariat.

**Acknowledgement** 

**MUTHUSAMY NADARAJAH** 

The family of late Muthusamy Nadarajah

wish to express their appreciation to

those who offered such kindness support

16<sup>th</sup> Day Ceremony (Karumadi) will be

held at Sarasvathi Hall, No. 75, Lorensz

Road, Colombo 4 on 31st March 2021

in our bereavement.

from 12 noon onwards.

Thank You

Against the backdrop of the coronavirus pandemic, the Agreed Conclusions affirm that the crisis is deepening the pre-existing inequalities that perpetuate multiple and intersecting forms of discrimination.

However, recent data show that women have been mostly absent from COVID-19 government task forces around the world - making up only 24 per cent of the 225 task force members examined across 137 countries.

As such, the document recommends concrete actions to remedy the situation, such as changing laws that hinder women's equal participation in public life; setting timelines for gender balance in government through measures such as quotas or appointments; and encouraging the nomination of as many women candidates as men.

#### 600,000 Sinopharm vaccines here on Wednesday

A stock of 600,000 Sinopharm COVID-19 vaccines was handed over to Beijing Capital Airport last evening (28) to be sent to Sri Lanka.

The stocks will arrive in Colombo on Wednesday (31) morning via the SriLankan Airlines, the Chinese Embassy in Sri Lanka said.

#### Two books launched at J'pura Uni.

Professor E.R. Jansz (Centre) at the book launch.

MARK PERERA Dearly beloved husband of Srimathi Pigera, most affectionate father of Renuka, Chamila and Lakmal, most loving father-in-law of Royce, Thushitha and Randhika. Grandfather of Dulasha, Shehali, Inuk and

Oshela, much loved brother of Bridget, Bernard, Stella (Australia), Patricia, Hyacinth and Remigus (Australia), loving brother-in-law of late Vincent Rodrigo, late Srima Seneviratne, late George Martinus, late Joseph Jayasinghe, Judith Perera, John Amaratunga, Niranjan Pigera and Sriyantha Pigera. Cortege leaves "Ruksevena", Hewagama, Kaduwela on Monday 29th March at 3.00 p.m. for Burial at Weliwita Cemetery.

The launch of the two books, Pitfalls, Rewards and Reflections of a Retired Scientist and Weerasinghe Land and Other No- fictional Stories, by Vidya Jyothi Emeritus Professor E.R. Jansz was held on March 20 at the Board Room of the Faculty of Medical Sciences, University of Sri Jayewardenepura.

At this occasion, Prof. Jansz was appreciated for his monumental contribution to the University of Sri Jayewardenepura. The Chief Guest, was Senior Professor Sudantha

Liyanage, Vice-Chancellors of the University. "The best way to assess a scientist is not by measuring the individual achievements but by assessing the long term impact he has made. Department of biochemistry, being only the department in the university that produced two awardees of the vice-chancellor award for scientific publications is a testimony to his untiring efforts to build the academic capabilities of the university," Prof. Liyanage said. Senior Professor Aloka Pathirana, Dean, Faculty

also commended his services particularly, for his efforts during the formative years of the faculty by shouldering a greater amount of administrative and academic responsibilities.Senior Professor UG Chandrika, one of his students, an awardee of prestigious vice-chancellors award for scientific publications, made a special speech on behalf of all the students and highlighted how Prof Jansz had transformed the lives of hundreds of thousands of students in the country.

of Medical Sciences, has

#### **COVID-19 – Global Education Recovery Tracker launched**

The COVID-19 pandemic has disrupted education for 1.6 billion children worldwide over the past year. To help measure the ongoing global response, Johns Hopkins University, the World Bank, and UNICEF have partnered to create a COVID-19 - Global Education Recovery Tracker.

Launched on Friday, the tool assists countries' decision-making by tracking reopening and recovery planning efforts in more than 200 countries and territories.

The effort captures and showcases informa-

tion across four key areas: Status of schooling

• Modalities of learning (remote, in-person

 Status of vaccine availability for teachers The Global Education Recovery Tracker seeks to build upon Johns Hopkins University's pivotal work in gathering quality data on COVID-19 cases, testing, and vaccinations, along with the strategic roles that the World Bank and UNICEF play in operational and policy support to countries during the pandemic.

"Throughout the pandemic Johns Hopkins has demonstrated the vital role for universities in providing accurate, evidence-based data and information for the world," said Johns Hopkins Provost and Senior Vice President for Academic Affairs Sunil Kumar. "We hope the work of this partnership will build understanding of how COVID-19 continues to affect students every-

where." Data through early March 2021 show that 51 countries have fully returned to in-person education. In more than 90 countries, students are being instructed through multiple modalities, with some schools open, others closed, and many offering hybrid learning options.

Regionally, there are emerging indications of shifts in learning modalities. Remote learning continues to dominate in the Middle East and North Africa where schools were largely closed in recent weeks. However, in Sub-Saharan Africa, most students are physically attending school. In the East Asia and Pacific region, inperson education has mostly resumed, with stringent social distancing measures. The regions of South Asia, Central Asia, and Europe are mainly relying on hybrid education where the infrastructure allows. Across Latin America, countries are using mixed approaches that include remote, hybrid, and in-person education. However, the majority of schools remain partially or fully closed to in-person classes with remote education as the most used modality.

"The world was facing a learning crisis before COVID-19," said Jaime Saavedra, World Bank Global Director for Education. "The learning poverty rate – the proportion of 10-year-olds unable to read a short, age-appropriate text was 53% in low- and middle-income countries prior to COVID-19, compared to only 9% for high-income countries. A year into the pandemic, continued disruptions to schooling, shifts in learning modalities, and concerns for students' well-being are ever greater, and this learning crisis is getting worse. COVID-19 related school closures are likely to increase learning poverty to as much as 63%." Saavedra emphasized the importance of this Tracker, "In many countries, students and teachers need urgent supplemental support. The return to school requires accelerated, remedial, and hybrid learning, as well as other interventions.

Collecting and monitoring this data on what countries are doing is critically important to help us understand the magnitude of what support is needed as we go forward, learning from the major trends observed among countries. -www.unicef.org

#### Death Acknowledgements

**AMARASINGHE - RANIL MANURAI** With profound sorrow we announce the death of RANIL MANURAJ AMARASINGHE. Beloved son of late Marshal & Gladys Amarasinghe, precious brother of Ranjanie, Dr. Lalantha, Sawithri (UK), Mohan (Canada), late Dr. Maithriya (Mike), (UK), MALA, Manel (UK) & Virendra, brother-in-law of Annesley, Dr. Priyanganie, late Amithra (UK), Indra (Canada), Niranjalie (UK), Saliya and Salome (UK). He passed away peacefully on Sunday the 21st March after a brief illness. The funeral was held according to his wishes. The family wish to express their sincere thanks to all those who took care of him during this time, our relations and friends for their presence, expressions of love, sympathy & support and to Pastor Lalith Perera along with the members of C.R.L. Church for their presence, worship & prayer at the parlour, which was greatly appreciated in our time of grief. "He may be unseen and unheard but will always be loved & missed deeply by all. May he rest in peace in the Arms of Jesus. We regret we are unable to thank everyone individually.

## 327 Naval recruits pass out

Three hundred and seventy seven recruits of the 241st intake of Sri Lanka Navv's Regular and Volunteer Forces passed out in Poonewa on March 27 after completion of their basic training.

Director General Logistics and Director General Budget and Finance, Rear Admiral Udaya Hettiarachchi graced the passing out parade at the main parade ground of Sri Lanka Naval Ship (SLNS) Shiksha and took the salute. The ceremony held in a dignified sequence saw trophies were awarded to recruits

who excelled during their basic training. Recruit R.N.N.W. Jav-

athilake was adjudged the Best Recruit of 241st intake and won the award for his achievement. D.M.N.W. Dissanayake won the award for securing the highest aggregate in overall subjects. B.M.N.K. Basnayake and L.M.N.S. Bandara won awards for the Best Marksman and Best Sportsman of the 241st intake. The *Dha*thusena Division became the Best Division of the entire intake. A fascinating drill

display presented by the recruits of 241st intake and sparkling performances of the Navy Band and Cultural Troupe added much glamour to the evening.

Religious dignitaries, Commander North Central Naval Area Rear Admiral Sanieewa Dias, Commandant SLNS Shiksha Commodore M.S.K. Mahawatta, Naval Officers and Sailors, Senior Officers from the sister services, Police and Civil Security Department, Government Officials and parents participated.

Receiving the awards.

#### Mihindu Housing Programme begins The Mihindu Housing Programme in Anuradhapura was inaugurat-

ed on Saturday. Families of the Bikkhus without proper housing facilitieswill be facilitated by the Mahindu Housing Programme. It was launched based on a concept of Prime Minister Mahinda Rajapaksa. Rs 600,000 is granted under the programme to the parents of each Buddhist monk for constructing a new house or completing a half-constructed house.

Housing State Minister Indika Anuruddha handed over cheques each for Rs 100,000 to 68 parents of the Buddhist monks on Saturday at the Anuradhapura Samabuddha Jayanthi Temple. The State Minster laid foundation stones to two houses at the Buddhannegama village in

#### Infrastructure being developed to uplift rural economy - State Minister Lanza

Rural Roads and Other Infrastructure State Minister Nimal Lanza said that the Government has given priority this year to develop rural infrastructure and uplift the

economy of the rural people. State Minister Nimal Lanza was participating in the inauguration ceremonies of several road programmes in Katana on Saturday.

The carpeting of the Adiambalama-Kimbulapitiya Road and the Muruthana-

Bambukuliya Road in Katana

has commenced under the National Programme to develop 100,000 km under the

State Minister Nimal Lanza opening the project. 'Vision of Prosperity' Policy of President Gotabava Raja-

paksa at a cost of Rs. 142 mil-

lion. The Provincial Road

Development Authority initiates the project.

The Adiambalama and the Kimbulapitiya Roads could be used as part of an alternative route to avoid traffic congestion in Kochchikade.

State Minister Nimal Lansa said that women will be empowered to strenthen the rural economy.

"In many countries, including the United States, the United Kingdom, Italy, and France, some areas are still

closed to the effects of the corona epidemic. But Sri Lanka has opened up because it has controlled the COVID pandemic. People are giving priority to health care practices and are now carrying out their daily activities. Everyone will be vaccinated in the next three to four months," he said.

Katana Pradeshiya Sabha Chairman Nanda Wijeratne and its members were pre-

## Good tidings for Port City Bill

he Colombo Port City Economic Commission Bill was approved by Cabinet this week. This Cabinet nod signals a watershed. It is coming at the right moment. Covid has taken an enormous economic toll all over the world, and Sri Lanka was no exception. But the Port City project promises to create the economic impetus that would propel the nation forward despite the blow dealt by the pan-

The project is a daring plan. Its inception was in the tenure of the Mahinda Rajapaksa administration — its second term, to be precise. The criticism of the Port City Project at that time had reached fever pitch. There was a certain political party which lamented that all the granite in the country would have to be used up for the project, but that too would not be enough.

The 269 hectares of land has now been reclaimed, and without any such calamity. It now seems almost as if the building of the city was the easy part. The most important work of the project is in the execution, which involves finding the investors to develop the city and establish the financial hub that it promises to be.

It is a special zone, with special laws to facilitate investment and all of the monies to be used for investment have to, by law, be raised overseas. There are special Single Window Investment Opportunities written into the Commission Bill. A Single Window Opportunity means that parties that seek to invest lodge all the relevant documents at a single entry point, and obtain approvals through this Single Window System.

The idea of course is to upgrade the ease of doing business. Will the Port City develop into an investment hub as important as Dubai, for instance?

What can be said is that it is being launched at a very challenging time. But such times are also often the best of times for investment, because on the cusp of the end-period of a calamity such as Covid, entrepreneurs are seeking brand new opportunities that are not hamstrung by the rules and regulations that bedevil traditional business hubs.

It is fitting that this project is being launched when the Rajapaksa administration is back in power. The previous regime was lukewarm towards projects such as Port City, though there was no outright attempt to stop its progress. Initially there were times when the fate of the entire project lay on the balance, after 2015. However, better judgement prevailed and the construction of the Port City was not hampered.

With the present Government, the legal framework for the project has been expedited, and what remains to be seen is how the execution of the Port City plan will take place initially amidst very challenging economic circumstances globally.

However, it needs to be underlined that the City is an example of an idea that was vilified from the start, that has now fired the imagination of entrepreneurial adventurers from around the world. The City can be a financial hub as well as a tech-hub.

It can also be a lifestyle capital, because of the prime location — with offices and apartments within the City being able to obtain a full view of the gorgeous Indian Ocean stretch that fronts the artificial island. It is a grand feat of creative engineering that the Chinese have acquired a reputation for, all over the world.

There is no doubt that the location was chosen with that precise intent in mind — that of making the island a physically attractive location, in addition to being an attractive investment area as well. It's in the tradition of Dubai, but additionally Colombo is no desert and therefore the geographical attributes for creating a lifestyle-oasis are far superior to those of Dubai.

But this Special Economic Zone (SEZ) is not in an oil rich region and there will be no easy investments flowing in as a result of oil wealth as in Dubai. The stability of the hub is guaranteed, and the return of the Rajapaksa administration which collaborated with the Chinese and began the project in the first place, gives investors an idea about the maturity of the democracy that is Sri Lanka.

New investments would however have to be canvassed with superlative campaigns because the global investment outlook is extremely competitive after Covid, with so many economies seeking to recoup their losses. One other thing the Zone has going for it in addition to the geographical ambience, is the fact that the regulatory aspect has been scrupulously codified, and now offers a clear-cut platform upon which investors can build their businesses.

There has been some extremely good thinking going into the execution aspect of the project, and kudos to the local principals and the Chinese collaborators in the project for having thought of all of the special aspects that would make the SEZ so unique.

Five years from now, the people would know how the Port City has performed as a global investment hub. The signs at the inception, it can be said, could not have been more promising.

#### THOUGHT FOR THE DAY

Without investment there will not be growth, and without growth there will not be employment. - Muhtar Kent

## Now & Then

ast week a private bus travelling from Lunugala to Colombo fell down a precipice of about 200 feet near the 13th milepost on the Badulla Moneragala road, in Passara, killing 15 passengers including children. This is not the first or the last such accident reported on Sri Lankan roads and railway tracks. There were several fatal accidents and there will be more.

If Sri Lankan people remember the past, they should remember the accident which killed four commuters travelling by train while several others were critically injured after a lorry collided with a train at Angulana, Lunawa, while the lorry

reversed into the middle of the moving train. It was in February 2018. May be people still remember how a 17-year-old schoolgirl whose birthday fell on October 15 died the same day after falling into an unprotected drain at Nittawela Junction on the Kandy-Katugastota road and was swept away to the Mahaweli Ganga in October 2015. A similar incident happened in Colombo in the past where a woman was killed after falling into an unprotected drain during heavy rain. She had 'stepped' on it as it was hidden in the water. We are in March 2021. But those accidents are very significant and have a direct impact on the safety of Sri Lankan people.

It is good to speak about the 2015 and 2018 accidents because as a result of 'not learning the lesson' last week's Passara accident took place. What is the lesson? Who should learn the lesson? Did they learn the lesson after last week's accident? Will they learn the lesson in future? The simple and short answer is 'No'. This is why we have to talk about this issue today. At least it will open the eyes of victims and their loved ones who should demand justice and compensation from relevant authorities

According to some media reports published and telecast in the past decades or so, several accidents took place in Sri Lanka directly due to the negligence of the relevant authorities who are serving the public through various state departments. Several people have been killed after falling into unprotected drains. During heavy rains, water fills in these drains and people cannot see the drains. They accidentally step on them and fall into the drains while walking along roads.

But the relevant authorities are deaf and blind to this issue and still keep open holes along the roads. They will do so until the Government takes stern action against them and introduces severe punishments for them. Otherwise they will close them only after people fall into them and die. It is because they are sure that nothing would happen to them even if thousands of innocent people get killed during the years ahead. Those authorities and their loved ones travel in state-owned or private luxury vehicles and never fall into such deadly holes located along roads. Knowing those facts they will never bother about ensuring the safety of poor people who walk along the roads during heavy rains.

Then comes the 2018 February train accident which killed four train passengers and injured several others at Angulana. The passengers were on the

# The tragedy of preventable accidents

After the deaths of four passengers, the railway authorities did extend the Moratuwa slow train up to Panadura enabling Kalutara bound passengers to travel comfortably to Panadura and then get on to the Kalutara express train from Panadura without any trouble.

footboard of the Kalutara bound express train Therefore they were at risk of getting entangled with anything close to the rail track. This is the situation of the majority of all office trains which run to and from Colombo during rush hours in the morning and evening. After this incident, the railway authorities gave a solution to this specific Kalutara bound express train which runs from Maradana from 4.10pm. But still this issue exists on all the other lines without the problem being solved. May be the relevant authorities are waiting until a few more train passengers get killed in the same way on other lines to solve the issue.

However, a simple solution which cost nothing was available to the railway authorities several years before this accident in February 2018. It was simply extending the Moratuwa slow train which runs from Maradana to Moratuwa (just before this express train) to Panadura. That way, the passengers could get to Panadura comfortably and then get on to the Kalutara express train from Panadura. The Mor-

atuwa train had to travel just two more stations to Panadura in order to save the lives of hundreds of people who travel on the footboard of the Kalutara express train.

After the deaths of four passengers, the railway authorities did extend the Moratuwa slow train up to Panadura enabling Kalutara bound passengers to travel comfortably to Panadura and then get on to the Kalutara express train from Panadura without any trouble. Now both trains are safe because they are less crowded. But the railway authorities did not apply this simple solution until four passengers got killed. They are still waiting without solving this same issue that exists on many other lines.

Then comes last week's Passara private bus accident. Anyone can see that the large boulder that had fallen on the road blocked twothirds of the road while leaving a

very narrow strip for vehicles to travel. It is funny that this was not observed by any responsible party. Just one week after a private bus went down the precipice of about 200 feet located just opposite this boulder killing 15 passengers including children, the relevant authorities are now removing the boulder. They should have done it just after the boulder fell on the road or before any accident took place in this location. But they did not do it. Even now they are removing it very slowly. No one will be worried about the boulder if it was just a car with a driver which went down killing just one person. No media coverage will be given to such a 'minor' accident and the boulder will be there forever.

This is the existing system in Sri Lanka which has been there since independence without any change at all. This is the sick system President Gotabaya Rajapaksa is trying hard to change on behalf of innocent people of Sri Lanka in the middle of all types of obstacles. But what if one person is pulling hard forward while the rest of the people are pulling hard backward? The result is obvious. It is very easy to pull backwards when the loved ones of victims of negligence do not demand justice and just forget their deceased loved ones when the time passes. This has been proved in the past in Sri Lanka. Justice was not done for victims of ragging, the victims of 1988–1989 era, etc. because there was no one to cry for their human rights. But there are many to cry only if money and other benefits flow their way. Otherwise there will be no one to stand by the rights of the victims and survivors. No NGO will see their plight.

But media reported some plus points related to this same accident. Dr. Palitha Rajapaksha, a doctor who underwent two heart surgeries and had a knee problem went down the 200 feet precipice using a rope in order to save the lives of the injured. He could have avoided doing so due to his health condition and simply ask another doctor to do it. But he did it proving that still there are living gods among us although a lot of individuals and organizations only see the negative side of doctors. Another similar incident was reported a few days after this acci-

That is, a Sinhalese doctor couple adopted three Tamil children who lost their parents due to the same accident. This is called humanity and reconciliation which the UNHRC does not like to

## UNHRC's Sri Lanka Resolution viewed as 'intrusive intervention'

**KALINGA SENEVIRATNE** 

he Core Group chaired by the UK tabled a shoddy motion based on a hostile UNHRC Report riddled with factual errors and unproven allegations going back to 2009; none of which qualifies as robust evidence," said Lord Naseby, Conservative Party member and the President of the All-Party Parliamentary UK-Sri Lanka Group in a statement issued on March 23 following a vote at the UN Human Rights Council (UNHRC) in Geneva that called for intrusive human rights intervention in Sri Lanka's domestic affairs.

The resolution, which was tabled at the 46th session of the UN body by the UK on behalf of what is called a "Core Group" consisting mainly of Western nations such as the UK, France, Italy and Austria, would involve UNHRC spending some \$2.8 million to set up an office "to collect, consolidate, analyse and preserve information and evidence, and to develop possible strategies for future accountability processes for gross violations of human rights" that could be used to mount war crimes cases against Sri Lankan military personnel, as well as economic sanctions against the country.

The resolution was adopted with 22 voting for it and 11 against with 14 abstaining among them India and Japan, while China, Russia, Cuba, Pakistan, Philippines and Venezuela voted against it. Lord Naseby argues that it "is a gross intrusion on the sovereignty of a state (to adopt a resolution) based on a simple majority vote when Motions of this significance would need a two-thirds majority".

Sri Lanka has strongly rejected the resolution. Foreign Minister Dinesh Gunawardena said the resolution lacked authority and it "was brought by countries supported by Western powers that want to dominate the Global South".

Speaking before the vote, China's Ambassador to the UNHRC Chen Xu said that this resolution is an attempt to "interfere in Sri Lanka's internal affairs and undermine its development and stability under the pretext of human rights". He commended the Sri Lankan government for improving human rights by advancing sustainable economic and social development, to improving peoples' living standards. Russia, Cuba and the Philippines speaking in support of Sri Lanka also expressed similar sentiments.

This battle in Geneva reflects a fundamental difference in the way human rights is viewed by the East and West. Ever since Sri Lanka crushed the LTTE in 2009, Western countries have been using the UNHRC in a witch-hunt against Sri Lanka, mainly because the Sri Lankan Government led by President Mahinda Rajapaksa ignored Western calls for a ceasefire to ship the LTTE leaders overseas – to fight another day. The war was won mainly due to Chinese and Russian diplomatic support and military aid.

In January 2015, there was a regime change in Sri Lanka, where Rajapaksa was defeated in elections that were mainly fought on human rights and corruption allegations mounted by NGOs funded by the West that influenced young voters. The new Govern-

Foreign Minister Dinesh Gunawardena said the resolution lacked authority and it "was brought by countries supported by Western powers that want to dominate the Global South".

Lord Naseby argues that it "is a gross intrusion on the sovereignty of a state (to adopt a resolution) based on a simple majority vote when Motions of this significance would need a two-thirds majority".

ment led by President Maithripala Sirisena and Prime Minister Ranil Wickremesinghe were considered "subservient" to the West and openly expressed anti-China sentiments. In September 2015, Sri Lanka co-sponsored a resolution that called for setting up war crimes courts in Sri Lanka with foreign judges to try Sri Lankan military personnel. Many Sri Lankans saw it as similar to the 1815 Kandy Convention where the King

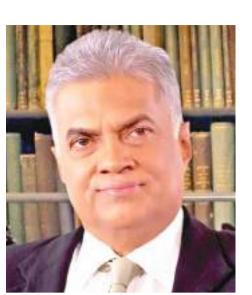

signed away sovereignty to the British.

The 2019 Easter Sunday Islamic terrorist attacks in Colombo turned public sentiments against the government when it was realised that undermining of the intelligence services

and the military, where many of these personnel were in jail awaiting trials precipitated by the UNHRC resolution Sri Lanka cosponsored, were a major reason for the attacks

These attacks helped to solidify a national security focused Sinhala nationalist wave that catapulted the Rajapaksas – who are still credited with having ended a 30-year terrorist war – back to power. After coming to power, the new government informed UNHRC in 2020 that they are withdrawing the co-sponsorship of the resolution, and this year opposed a new resolution.

Initially the UNHRC resolutions called for

Former PM Ranil Wicremesinghe

accountability for 40,000 deaths during the final push to defeat the LTTE in 2009. Neither the UN, international human rights organisations nor the Western media that transmitted these claims were able to provide evidence. Now the UNHRC has quietly dropped this claim and instead the latest resolution talks about reconciliation and militarization of civil administration.

"The impact on thousands of survivors, from all communities, is devastating. Moreover, the systems, structures, policies and personnel that gave rise to such grave violations in the past remain – and have recently been reinforced," said a statement by Michelle Bachelet, UN High Commissioner for Human Rights. "The growing militarization of key civilian functions is encroaching on democratic governance," she added.

The UNHRC seems to be out of touch with recent developments in the country, where at the General Elections in August 2020 there was a significant shift in Tamil voter sentiments towards development-based empowerment as opposed to rights-based Constitutional changes the UNHRC resolutions have been promoting.

The Tamil National Alliance (TNA) which has been working with the Tamil diaspora groups to pressure Western governments such as the UK, US, Canada and France to move resolutions against Sri Lanka, had their vote share and seats reduced by over a

half. For the first time in 60 years, the Sri Lanka Freedom Party (SLFP) – a party traditionally identified with Sinhala nationalism – topped the vote in the Tamil bastion of Jaffna fielding a local Tamil candidate.

"Tamils have voted for change (and) this is a big change and the Tamils in Jaffna have spoken in one voice," the newly elected Jaffna MP Angajan Ramanathan, who joined the ranks of the Government, with the SLFP as a constituent party of the Rajapaksa-led alliance, told the *Sunday Observer*: "When it comes to the North, some politicians only focus on the rights of the Tamils. The Government will provide the peoples' basic needs and infrastructure and help them to improve their economic status."

The Rajapaksa regime believes in the Chinese and Singaporean model of economic development which Ramanathan's statement reflects. The UNHRC resolution tends to go in the opposite direction.

After abstaining from the vote in Geneva, which most Sri Lankan see as voting against them, India released a statement saying that they could not support Sri Lanka because devolution of power to Tamil areas agreed to with India in the late 1980s, has not been properly implemented and the Provincial Council (PC) system that is part of it is being undermined by the current Government.

India may have unintentionally given a boost to increasing public sentiments in the country to abolish the PC system because it is seen by most people as an added tier of corruption. People in Sri Lanka want fewer politicians, not more, and they would much prefer to see development funds equally distributed to the Provinces via existing government structures.

Sri Lanka's UNHRC battle is without doubt part of the geo-political power play with the West and India trying to use the UNHRC (with Western support) to control Sri Lanka, while China with heavy investments in the island is seeking support for Sri Lanka at UN forums. The UNHRC's vote may have pushed Sri Lanka further into China's embrace, and since the UNHRC's resolutions are not binding – unlike UN Security Council ones – Sri Lanka will be constrained to bank on trusted China to veto any such moves. Though China could not win the vote for Sri Lanka, China may have won another battle for influence in the Indian Ocean. (IDN-InDepthNews)

## Bangladesh at 50

#### KAUSHIK BASU

t feels strange to have known a country since its birth. For much of 1971, Bangladesh (then East Pakistan) was engaged in a war for Independence. With US President Richard Nixon standing firmly behind Pakistan as President Yahya Khan's Army tried to crush the independence movement by resorting to rape and genocide, millions of Bangladeshi refugees poured into India. I was then an undergraduate in Delhi and joined a team of students to work in the sprawling refugee camps that had sprung up in the Indian states of West Bengal and Odisha.

Full-fledged aerial war with Pakistan broke out on December 2. I vividly remember catching the night train in Kolkata to return to college during a curfew, under orders to keep all the lights off in the compartment.

This was the high point of Indian Prime Minister Indira Gandhi's career. She had opened India's doors to the refugees and intervened militarily to support Bangladesh, refusing to cave in to US pressure, which included sending the Seventh Fleet into the Bay of Bengal. Khan's Army surrendered to an Indian-Bangladeshi allied force on December 16, 1971. Bangladesh had already declared independence on March 26, but it was effectively born that day in December.

At independence, Bangladesh was one of South Asia's poorest countries - poorer than India, and much poorer than Pakistan. Described by then-US National Security Adviser Henry Kissinger as a "basket case," it floundered for several years, a vast archipelago of poverty and deprivation. Things got worse in 1974, when the Nixon administration suddenly cut off food aid to Bangladesh while the country was in the midst of a famine, on the grounds that it was earning some money by exporting jute bags to Cuba. Today, as Bangladesh celebrates a half-century of independence, the country has become a case study in economic development that few would have predicted. When its GDP growth rate surpassed Pakistan's in

Prime Minister Mahinda Rajapaksa with Bangladeshi Prime Minister Sheikh Hasina

Indian PM Narendra Modi with Bangladeshi PM Sheikh Hasina

2006, many dismissed it as a one-off fluke. But Bangladesh has outpaced Pakistan every year since then, and – astonishingly – is now one of the world's fastest-growing economies.

Bangladesh's GDP per capita now closely rivals India's and significantly exceeds that of Pakistan. Average life expectancy, at 74, is higher than in India (70) and Pakistan (68). The country is a leading global exporter of ready-made garments, and other sectors are taking off, too. Bangladesh's pharmaceutical industry, for example, is thriving. With 300 companies (several of which conduct research) the country now meets 97 percent of domestic demand, and is beginning to export globally.

True, Bangladesh still has much poverty and hardship, rising inequality, and an uncertain future trajectory. Climate change and rising sea levels continue to pose significant dangers, and political instability could yet reemerge and disrupt economic progress.

Nevertheless, Bangladesh's remarkable economic transformation – the World Bank now classifies it as a lower-middle-income economy – deserves praise and can offer important les-

sons for today's low-income countries.

Bangladesh's rise is a story of both deliberate

Today, as Bangladesh celebrates a half-century of independence, the country has become a case study in economic development that few would have predicted.

interventions and chance. The country owes a large part of its success to progressive NGOs, most notably Fazle Hasan Abed's BRAC and Muhammad Yunus's Grameen Bank. One particular intervention that played a larger role than anyone expected was Grameen Bank's early decision that microfinance credits would go to the senior female member of the household. I have argued elsewhere that this gave women greater voice in the home, which in turn helped divert household expenditure toward child welfare. This is one of the main reasons why Bangladesh has made strong progress on development indicators such as life expectancy and literacy, and in combating malnutrition.

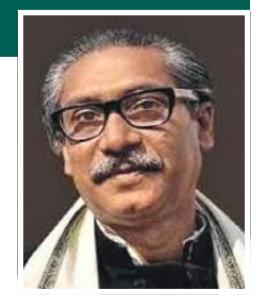

Bangladesh has one of the world's largest microfinance sectors, which has enabled households to break out of the debt trap and start their own small businesses. Using a computable general equilibrium model, Selim Raihan, S.R. Osmani, and M.A. Baqui Khalily have shown that microfinance did more than just help the households that received money. By bolstering fiscal and monetary policies, it boosted the country's GDP by 9 to 12 percent.

country's GDP by 9 to 12 percent.

But Bangladesh's success has also had a lot to do with luck. The Indian subcontinent has complex labour laws, notably the Industrial Disputes Act, which predates Indian and Pakistani independence in 1947, and has thwarted the emergence of large manufacturing firms able to realize economies of scale. Pakistan repealed the law in 1958, but for the wrong reasons, to enable big corporations to control workers. Moreover, it did so in a ham-handed way, thereby contributing to labour exploitation and

crony capitalism.

Bangladesh, having once been part of Paki-

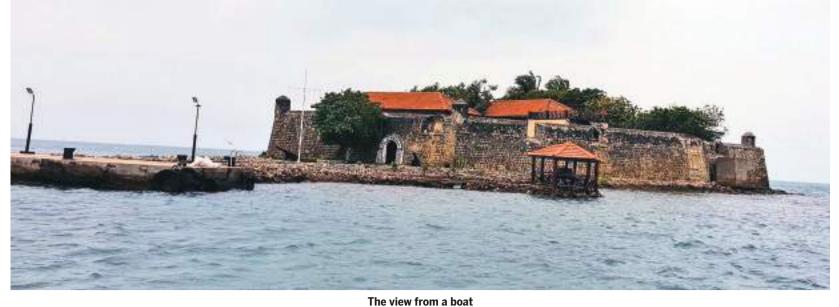

Founder of Bangladesh
Sheikh Mujibur Rahman

stan, was born without the law's baggage. But, unlike Pakistan, the country went on to develop its own labour regulations that were flexible without giving corporations unfettered power. This played an important role in Bangladesh becoming a successful global manufacturing hub.

Finally, a crucial political factor underpins Bangladesh's economic success. Prime Minister Sheikh Hasina has often been criticized, but she has made one essential contribution to the country's upward trajectory. Although Bangladesh's constitution guarantees religious freedom, it has been challenged by fundamentalist groups that renounce what the prominent Bangladeshi commentator Abul Barkat has described as the "liberal and humanistic origin of Islam in East Bengal." Sheikh Hasina, who is reputed to be innately secular, has kept these destructive

Many countries have succumbed to religious fundamentalism, with disastrous consequences for their economies. Bangladesh is notable for having withstood this danger. Its buoyant, vibrant economy, now with a 50-year track record, is testimony to this success. (Brookings Institute)

**Entrance to the Naval Pier** 

#### DISHAN JOSEPH

riven by a desire to travel and explore this beautiful nation, I had begun a quest to visit every fort along our coastal belt. These amazing fortified structures have withstood time itself, and have a history of their own. The better-known forts are found in Galle, Matara, Jaffna, Kalpitiya and Trincomalee. I have visited all of them. Smaller forts and stockades were built by the Dutch in Negombo, Kelaniya, Colombo, Kalutara, Malwana, Hanwella, Seethawaka and Ruwanwella. Today, there are no traces of some of these magnificent buildings. But in the quiet fishing hamlet of Karainagar in the Northern Province stands a unique fort known as Fort Hammenhiel. It is the only fort surrounded on all sides by the ocean, and obviously has no landside access as some of the bigger forts. This would have been a vital defence strategy in that era.

We journeyed from Colombo in search of this beautiful fort. Having reached Jaffna as the sun was receding in the horizon, we stayed at Mandaithivu.

The causeway that leads to Mandaithivu is dotted with green nets on either side as local fishermen have mastered the art of rearing prawns. Early next morning we began our journey towards Karainagar. This island is connected by a long causeway to the mainland. The view from either side of the causeway is refreshing, as small fishing boats meandered on the waterway. Marine birds flew about in their hundreds.

On reaching Karainagar, the dusty road was lined with fences made with palmyrah fronds. A few minutes later, we reached a section of the road where a Hindu kovil rose colourfully amidst a somewhat barren landscape dotted with clusters of palmyrah trees. To reach the small Naval Pier one has to enter through the main gate where Naval sentries stand guard.

After talking to a naval officer we walked towards the pier with much excitement. A Naval coxswain was ready at the boat and another sailor handed us lifejackets. I noticed two large cannons stationed on the right side of the pier.

There is a Navy-operated restaurant on the landside by the pier. On that clear morning, the sturdy rampart of the fort could be seen from the pier.

The sailor guided the boat towards Fort Hammenhiel. As we neared the fort, her defensive turrets zoomed into view. On either side of its entrance, two old can-

## Discovering the beauty of Fort Hammenhiel

Fort Hammenhiel is the only fort surrounded on all sides by the ocean, and obviously has no landside access as some of the bigger forts.

nons were mounted. The boat was moored and we jumped out with anticipation. The name of the Fort was inscribed on a white arch. We entered via the seven-foot gate which is the only entrance to the entire fort.

The Portuguese had realized the strategic location of Karainagar. They built this fort using coral rocks and named it Fortaleza do Caes. It was built to supplement the coastal defence of the Mannar Fort (which is mostly in ruins today).

Both these smaller forts once augmented the security of the approach to the massive Jaffna Fort which was a trading hub and a military symbol of dominance. By March 1658, the Portuguese were in for a surprise when the aggressive Dutch forces laid siege to the fort. The Dutch executed a decisive battle tactic – they first fired their cannons on the wooden water storage tank of the fort.

History records that the tank was broken to pieces. Taking advantage, the troops led by the Dutch trio –

The Portuguese

had realized the

of Karainagar

and built this fort

using coral rocks

and named it

Fortaleza do Caes.

Aerial view of the Fort

Captains Cornelies Reb, Piester Waset and Van de Reede – attacked the fort with relentless rifle fire. Thereafter the thirsty Portuguese troops, weary from the counter attack surrendered their fort on April 28, 1658.

The jubilant Dutch began enhancing the defensive aspects and increased the gun turrets. As we climbed the flight of 12 steps to the

second tier of the fort, we counted 18 gun turrets that covered the full 360-degree view where one basically had a 'firewall' to defend against an incoming attack.

The Dutch named the fort as Hammenhiel as the shape of the map (in that era) reminded them of a leg of smoked ham. The Dutch Navy considered Hammenheil as the key to the sea area of Jaffna. With

time they realized the fort's structure was not strong enough to bear the weight of their 18 guns and set about consolidating the structure with solid granite stones.

An ammunition storage dungeon was built. In addition, there were five lookout points where cement 'pill boxes' were erected and men kept guard on a watch system. At the topmost point of nearly 30 feet

As we climbed the flight of 12 steps to the second tier of the fort, we counted 18 gun turrets that covered the full 360-degree view where one basically had a 'firewall' to defend against an incoming attack

from shore level, an ancient telescopic device was mounted. Today, the glass has not been calibrated and the view is out of focus. However the sight to the naked eye is amazing.

To the right of Hammenhiel you see the island of Eluvaithivu. Kayts Island is visible along with a clear view of the Karainagar landmass. From this vantage point the fort resembles the lower part of a ship's anchor. The Dutch used a wise system of collecting rainwater in a cement pond.

It is recorded that the Dutch had a garrison of 30 soldiers under the command of a Lieutenant. We saw the nine cells that were once used to hold prisoners. Today they are empty and remind us of those ancient times. Of the nine cells, one is large and has room for seven beds.

The beds are made of solid cement (one square block) and measure 68 inches in length, 30 inches by breadth and 18 inches in height.

A wooden box had been given to each prisoner where they kept their plate, water jug, and soap. The door to each cell is only five feet high. Four rooms once used by British officers have been restored by the

These British officers would have had a vacation every evening being posted on such a beautiful sea fort. During the British occupation of Hammenhiel they used the fort as a Naval detention barracks and later as an infectious disease quarantine clinic.

In September 2015, the Navy made great efforts to fully restore this fort to her former glory, maintaining its historic beauty. We also observed a wooden rack where six old rifles fixed with bayonets were on display. A Petty Officer took out a rifle and explained its firing mechanism. The bayonets were still sharp after centuries. On special occasions, sailors attired in replicate blue Dutch Naval uniforms present arms to welcome visitors in a fascinating ceremony laden with nostalgia. It was a beautiful moment to watch the changing of the guard.

The Sri Lanka Navy must be commended for restoring and maintaining this ancient maritime edifice, enabling us to get a lovely glimpse into the past. Fort Hammenhiel stands like a majestic sentinel in the serene Northern seas and is a glowing testament to Dutch engineering and architecture.

The view of the sunset with the fort in the backdrop is a travel bonus.

## Luck essential for any successful coronavirus variant - Study

Let's say you are a new member of the SARS-CoV-2 family, with a few genetic tweaks that distinguish you from the rest of the clan. Maybe you have changes in your spike protein that allow you to more easily to invade cells, or a random mutation that helps you elude the virus-killing effects of a COVID-19 treatment.

You could be a contender. But first, you have to get out of the body you're in and infect some more people.

What would it take for you to succeed and prosper? Alternatively, what would cause you to die on the vine, a short-lived experiment in evolution's harsh proving chamber?

A modeling exercise by researchers at the Fred Hutchinson Cancer Research Center in Seattle suggests that for a genetic variant of SARS-CoV-2 to become a menacing new presence, it's not enough to be scary and highly transmissible. It also needs a string of lucky breaks to establish itself.

Most notably, it must gain entree to a superspreader event if it is to have a fighting chance of planting its flag in a population. In the brief period during which its carrier is at or close to his peak viral load, the new variant needs to hitch a ride to someplace like a choir practice, a political rally, a poorly ventilated barroom or a packed

indoor arena where people are mingling at close quarters and many are not wearing masks.

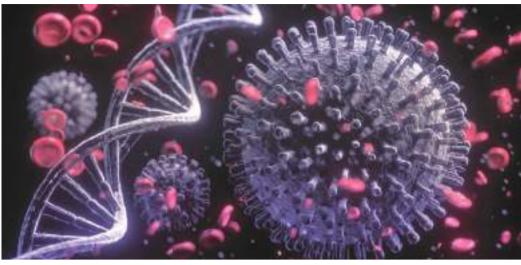

Once there, it needs to infect at least a handful of people. Five would be enough for the new variant to live on to compete for more victims. Infecting 20 or more will give it a real chance of becoming predominant in its new communi-

Time is of the essence, the new research suggests: Even for a new variant that's armed with transmission superpowers, that first superspreader event needs to come within a month of its arrival for the variant to stand a chance of becoming established.

That's a lot of narrow windows and a lot of high hurdles, and the likelihood that a new variant will clear all of those obstacles is actually pretty slim, the researchers concluded. And that should offer humans a bit of hope.

But then there's reality: At least five new "variants of concern" have apparently overcome these forbidding odds in the span of about six months.

That suggests something rather ominous: There are probably many more such variants out there, each looking for its lucky break. While few variants will get it, it only takes one or two with the right constellation of mutations to prolong or

escalate the pandemic—or to undermine the vaccines and medicines that could end it.

The team's model was posted this week to MedRxiv, a site where researchers share their research results and seek feedback from colleagues. As such, its findings are considered preliminary.

For researchers hoping to see around the next corner of the pandemic, a modeling exercise like this is more than an idle speculation.

The coronavirus that causes COVID-19 is known to mutate constantly, but almost always in ways that don't significantly change its behavior. So it would be nice to know how these variants are

born and whether there are many more like them. And if there are, it would be useful to know how they can be bottled up quickly.

"Phenomenological" modeling studies such as this one gather the wildly erratic patterns of spread buried in pandemic data, combine them with well-documented cases of super-spreader events, and drop in a new actor that plays by slightly different rules. Then they play out what happens next over and over again in computer models that act as digital test tubes.

One thing researchers are increasingly sure of is that in patients with compromised

immune systems, the coronavirus is more likely to take on not just one but a passel of mutations. Those genetic changes could make it even harder to fight the virus with medicines,

masks and vaccines. A model like this doesn't yield calibrated measurements of how effectively an intervention like universal masking can stop spread. It doesn't generate predictions about the pandemic's next stage. But it does provide insights into how a virus behaves under a range of circumstances, along with probabilistic estimates that can sharpen the intuitions of public health officials.

"We will in all likelihood create new variants on top of

those that have emerged," said Dr. Joshua T. Schiffer, who led the modeling team at Fred Hutch. "And the ones that will win are the ones that dodge the vaccine or transmit more

These variants don't have names yet and may not pop up for months, Schiffer added. But when they do arise, they'll be subject to the same harsh early-life experiences.

After running through thousands of scenarios, the team concluded that variants with potentially frightening capabilities to spread and sicken probably occur frequently in the course of a pandemic the size of this one. After all, there are dozens of branches on the SARS-CoV-2 family tree, and each of them might have been a chance for genetic mischief. Given the punishing attrition rate of new variants, ill-fated ones must be born every day around the world for so many branches to have emerged.

Periods of high transmission seem to create an "all comers welcome" atmosphere for vari-

So when infections are surging, even a variant that's no more transmissible than those already in circulation stands a better chance of elbowing its way into the game, the modeling shows. And a genetic variant that arrives with a biological advantage in that department is even more likely to

succeed. A clinical lab scientist processes upper respiratory samples from patients suspected of having COVID-19.

All of these newcomers still face tall odds. But if many variants are out there, and if careless societies afford them the chance of an early superspreader event, then it's reasonable to assume that at least one or two may gain enough of a foothold to take off.

Their impact on the pandemic's trajectory will be a genetic roll of the dice.

In the meantime, the research offers some actionable advice for both experts and the general public.

The most effective way to reduce the number of new variants is to prevent "large waves of infection" from happening in the first place, the study authors write. Not only is a surge an ideal environment for generating new variants, it also offers plenty of opportunity for a superspreading event.

And that means we all have a role to play by wearing masks, practicing social distancing, avoiding large gatherings and taking other precautions that can deprive a new variant of the luck it needs. (MedicalExpress)

## Ship remains stuck at Suez

remained stuck sideways in Egypt's Suez Canal for a fifth day Saturday, as authorities prepared to make new attempts to free the vessel and reopen a crucial east-west

The Ever Given's owners say a gust of wind pushed it and its huge cargo of more than 20,000 shipping containers sideways in the canal on Tuesday, wedging it between the canal's sandy banks. The massive vessel got stuck in a single-lane stretch of the canal a few miles from its southern entrance. Bernhard Schulte Ship Management, the technical manager of the Ever Given, said an attempt Fr to free it failed.

Plans were in the works to pump water from interior spaces of the vessel, and two more tugs should arrive by Sunday to join others already trying to move the massive ship, it said. An official at the Suez Canal Authority said they planned to make at least two attempts Saturday to free the vessel when the high tide goes down.

A maritime traffic jam grew to around 280 vessels Saturday outside the Suez Canal, according to canal service provider

waterway for global shipping.

Leth Agencies. Some vessels began changing course and dozens of ships were still en route to the waterway, according to the data firm Refinitiv.

Shoei Kisen President Yukito Higaki told a news conference at company headquarters in Imabari in western Japan that 10 tugboats were deployed and workers were dredging the banks and sea floor near the vessel's bow to try to get it afloat again as the high tide starts to go out. Shoei Kisen

said in a statement

Saturday the company was considering removing containers to lighten the vessel if refloating efforts fail, but that would be a difficult operation.

The White House said it has offered to help Egypt reopen the canal. "We have equipment and capacity that most countries don't have and we're seeing what we can do and what help we can be," President Joe Biden told reporters Friday.A prolonged closure of the crucial waterway would cause delays in the global shipment chain. Some 19,000 vessels passed through the canal last year, according to official figures. About 10% of world trade flows through the canal, which is particularly crucial for transporting oil. The closure could affect oil and gas shipments to Europe from the Middle East.

It remained unclear how long the blockage would last. Even after reopening the canal that links factories in Asia to consumers in Europe,

the waiting containers are likely to arrive at busy ports, forcing them to fa additional delays before offloading.

Apparently anticipating long delays, the owners of the stuck vessel diverted a sister ship, the Ever Greet, on a course around Africa instead, according to satellite data.

Others also are being diverted. The liquid natural gas carrier Pan Americas changed course in the mid-Atlantic, now aiming south to go around the southern tip of Africa, according to satellite data from MarineTraffic.com.

The Financial Times reported on Friday that a number of shipping groups had contacted the U.S. Navy's Fifth Fleet over maritime security concerns for vessels that do chose to sail south around Africa, which would put them in waters off the continent's eastern coast that have a long history of

piracy.
"Africa has the risk of piracy, especially in east Africa," Zhao Qing-feng of the China Shipowners' Association in Shanghai, told the FT, saying owners could need to hire extra security forces to board their vessels before making the extended journey.

It's just one more factor that could cause a serious slowdown and a potential pricehike for goods moving to Europe and the U.S. from Asia, and one more headache for a global supply-chain system already strained by the coronavirus pandemic.

Egyptian authorities have prohibited media access to the site. The canal authority said its head, Lt. Gen. Osama Rabei, would hold a news conference Saturday in the city of Suez, a few kilometers (miles) from the site of the vessel.

## EU approves more vaccine production sites

Phuket to open for vaccinated tourists

Thailand plans to allow tourists vaccinated against Covid-19 to visit the resort island of Phuket without quarantining on arrival in a step towards reviving tour-

Starting in April, the country is also shortening the quarantine period for arrivals from abroad from 14 days to 10 days.

Thailand's tourism industry dried up when scheduled passenger flights into the country were barred in April last year to curb the spread of the coronavirus. There has been a limited resumption of flights since

The plan for Phuket is set to begin on July 1, and if judged successful, may include other popular destinations such as Samui Island, Krabi, Pattaya and Chiang Mai in October, said

Yuthasak Supasor, head of Thailand's Tourism Author-

The Thai government approved the Phuket plan on Friday but it still needs final approval from Phuket and health authorities. Thailand last year repeatedly cancelled various reopening plans as the pandemic expanded abroad.

If all goes smoothly, it is hoped that around 100,000 tourists can be welcomed in the third quarter of the

Before the pandemic, Phuket was the country's second-most popular destination after Bangkok. In 2019, it welcomed around 10 million foreign tourists.

According to the Phuket Hotel Association, more than 50,000 employees in its hospitality sector lost their jobs last year. (Yahoo)

bling Covid-19 vaccination drive, badly shaken by the recent Astra-Zeneca safety scare, got a boost Friday from the European Medicines Agency, which approved new AstraZeneca, Pfizer-BioN-Tech and Moderna vaccine production sites. The agency, an arm of the

European Union and Europe's top drug regulator, approved sites in the Netherlands, Germany and Switzerland. It also loosened regulations for how long the Pfizer vaccine must be stored at ultralow temperatures.

The moves could speed up the Continent's lagging vaccine production and distribution, which have been plagued by delays and setbacks.

Though the European Union is flush with cash, influence and negotiating heft, only about 10 percent of its citizens have received a first dose, compared with 26 percent in the United States and 44 percent in Britain. The bloc of 27 nations was comparatively slow to negotiate contracts with drugmakers, and regulators were cautious and deliberative in approving some vaccines. And it has been stymied by supply disruptions and shortages.

Europe also experienced a scare over the safety of the Astra-Zeneca vaccine and distribution in several countries was temporarily halted. Most of those coun-

tries have resumed using it, after the E.U. drug agency vouched for its safety. But public confidence in the shot has been severely undermined.

The hitches in Europe's vaccine rollout come as some countries, like Germany, are facing a spike in new cases. "The next few weeks will decide whether we can get the pandemic under control in the foreseeable future," Helge Braun, an aide to Germany's chancellor, Angela Merkel, told the German newspaper Bild am Sonntag. "If the number of infections rises rapidly at the same time as the vaccination, the risk increases that the next virus mutation will become immune to

the vaccine." The agency said a new warning label would be added to the vaccine so that people in the medical community could watch for rare complications that could lead to blood clots and brain bleeds

Trust in the AstraZeneca vaccine is essential to fighting the pandemic worldwide. The shot is more easily stored and less expensive than Pfizer's or Moderna's, and for now, it is sold without the goal of earning a

profit. The European Union has exported more vaccine doses than it has administered. On Wednesday, it revealed emergency legislation that would curb exports of Covid-19 vaccines manufactured in its countries for the next six weeks.

Ursula von der Leyen, president of the European Commission, posted on Twitter on Thursday that the European Union had shipped out 77 million doses since early December, that 88 million were expected to be distributed internally by the end of the week and that 62 million shots had been administered within member nations. (NYT)

## Antibody therapies to be stopped due to variant surge

The US government in coordination with Eli Lilly said it will no longer distribute the Covid-19 monoclonal antibody therapy bamlanivimab for use on its own. The halt is due to the "sustained increase" in coronavirus variants in the United States. The government stopped distributing the treatment on

Last week, the US Food and Drug Administration updated guidance to say the therapy on its own may not work as well against variants. FDA Acting Commissioner Janet Woodcock had said that the US had stopped shipping bamlanivimab to Arizona, California and Nevada due to the variants, and the FDA asked the companies to assess their therapies against the variants.

Bamlanivimab can still be used with etesevimab, another monoclonal antibody treatment developed by Eli Lilly. In combination, the two Eli Lilly treatments seem to work against coronavirus variants.

Operation Warp Speed invested heavily in the treatment throughout its development, and in December, the US government spent \$812.5 million to buy 650,000 additional doses of bamlanivimab. The government has

**Antibody therapies** 

sent out nearly 800,000 doses of bamlanivimab as of March 2. The updated guidance says that if health care providers want to use their existing supply of bamlanivimab, they can.

"We recognize the U.S. government has made the decision to no longer allow direct ordering of bamlanivimab alone due to concerns about the prevalence of the California (B.1.427/B.1.429) and New York (B.1.526) variants of SARS-CoV-2," Eli Lilly said in a

statement Thursday; last week, the US Centers for Disease Control and Prevention said the California strains are officially "variants of concern," as they may be more transmissible and Covid-19 treatments may be less effective against them.

"The U.S. government has enabled direct ordering of bamlanivimab and etesevimab together as well as etesevimab alone, to pair with bamlanivimab that sites of care have on hand," Lilly said in the statement. "We

believe that sites with access to bamlanivimab and etesevimab for administration together should use that therapy over bamlanivimab alone. We remain committed to ensuring patients who need access to neutralizing antibody therapy can get it."

#### Merkel aide warns of vaccine-resistant mutations

Germany must bring down coronavirus infections in the next few weeks or risk new virus mutations that are resistant to vaccines, Chancellor Angela Merkel's chief of staff Helge Braun told the Bild am Sonntag newspaper.

'We are in the most dangerous phase of the pandemic," he added. "The next few weeks will determine whether we can foreseeably get the pandemic under control."

If the number of infections rises rapidly again, there is a growing danger that the next virus mutation will become resistant to the vaccine, Braun said.

Then we would need new vaccines, then we would have to start vaccinating all over again," he pointed out.

To curb the virus' spread, Braun called for the imposition of stricter measures and nighttime curfews in regions with high numbers of new infec-

He spoke out in favor of additional curbs in regions where the number of cases per 100,000 people in the last seven days is more than 100. 'That's where regional curfews in the evening and at night can help, because we have the highest infection rates at meetings in people's homes."

He also stressed the importance of testing in reducing virus transmission, urging firms to compulsorily test their

workers twice a week. Speaking to the Tagesspiegel newspaper, Social Democratic Party (SPD) politician and public health expert Karl Lauterbach called on the federal and state governments to immediately implement a "hard lockdown," citing the sharp rise in infections.

"It won't work without a hard lockdown," Lauterbach stressed, defending his call for nationwide curfews. "Curfew restrictions from 8 p.m. for two weeks would work we've seen it in France, Britain and Portugal."

The sooner a decision was taken, the more lives would be saved, he said.

COVID cases in Germany rising again

Coronavirus infections have risen sharply in Germany in recent weeks, driven by a more transmissible variant of the

virus and moves to ease some

**Intulantes** 

(Coronavirus)

iznostikzentrum

restrictions. On Saturday, the number of confirmed coronavirus cases in Germany increased by 20,472, while the reported death toll rose by 157, according to data from the Robert Koch Insti-

tute for infectious diseases. Braun said he expected the infection situation to ease in May, helped by the impact of vaccinations and the onset of warmer weather: "By Whitsun (May 23) we will see the first positive effects — provided the situation doesn't get out of hand by then."

Meanwhile, popular frustration is growing over the government's pandemic management. Opinion polls indicate that support for Merkel's party has been dropping ahead of a national election in September.

#### More European countries tighten Corona restrictions

Several European countries have tightened measures to stem the spread of coronavirus in the face of a worrying rise in infections that is put-

ting further pressure on healthcare systems. In France, the government on Saturday described the situation as "critical" as it added three more departments to the 16 already under tight restrictions

Some 20 million people, including those in the greater Paris region, are classed as living in high-infection zones. They are not allowed to travel further than 10km (six miles) from their home unless they have an essential reason.

Officers at train stations, airports and toll-paying motorways began on Saturday to enforce the travel restrictions. Only shops selling food, and book and music stores are open and classrooms in high schools are only running at half the capaci-

Daily cases in France have nearly doubled since the start of March, with more than 200,000 new infections registered every week. On Saturday, it reported another 42,619 daily cases, up from 41,869 on Friday. (Al Jazeera)

#### **Music for vaccinations** in New York

#### **Music-vaccinations**

On a recent weekday, the sounds of Vivaldi, Mozart and Bach greeted hundreds of just-inoculated New Yorkers as they entered a medical observation area at one of the city's biggest COVID-19 vaccination sites. the Jacob K. Javits Convention Center. Hearing the music, many stopped to

record videos of the five musicians in a piano and string ensemble gathered onstage, performing live.

For people on the road to immunity from the coronavirus, experiencing live music in the same space that served as a field hospital at the height of the pandemic was a fitting accompaniment on a day of hope.

For some of the musicians, it was something more.

Pianist Barbara Podgurski said her recent performances at the vaccination site were her first in public since the pandemic battered the city last spring.

"There were three months where I didn't play the piano because I felt hopeless," she said. "The reaction ... I haven't heard in a year. You realize how much people need music in their lives, to feel beauty and magic. It gives them hope."

(Westerly Sun)

## Wellalage's all-round show was the highlight

**CHRIS DHAMBARAGE** 

The individual brilliance of Dunith Wellalage highlighted the annual Inter-Schools Under-19 traditional cricket encounter between St. Joseph's College and Royal College, which ended in a draw at Darley Road during the weekend.

The promising all-rounder and the captain of St. Joseph's produced his best performance for the current season while stroking a match-saving knock of 71 in the first innings followed by a superb five-wicket haul.

The manner in which he handled the pressure situation with the bat was quite outstanding as he played his natural game while flaying the Royal bowlers to all parts of the ground quite effortlessly.

In fact, the aggressive lefthander cleared the ropes on five occasions and also scored the same number of boundaries during his 76-ball stay at the crease.

Wellalage walked in to the middle at a crucial stage when St. Joseph's had lost three early wickets and soon they collapsed to 74 for five after they had elected to bat

But instead of trying to rebuild the innings with a defensive approach, Wellalage decided to attack, which

Royal College wicket-keeper Shehan Herath appeals for a dismissal. Pix by Samantha Weerasiri

turned out to be a wise move at that point as runs began to flow quite thick and fast.

Even then, the Josephian first innings total of 210 was certainly just above average but Wellalage made it look quite a daunting task for the opposition with a controlled

spell of bowling. His five-wicket haul completely shattered Royal's hopes of piling up another big score as the visitors batted safely before declaring their first innings at 209 for

Royal innings of course, was the dismissal of inform batsman and Skipper Ahan Wickremasinghe who was trapped leg-before by Wellalage for a

13-ball 18. However, opener Isiwara Dissanayake held the Royal innings together with a determined batting performance as he carried his bat with an unbeaten 102.

> Ananda vs St. Peter's

Ananda College and St. The turning point in the Peter's College played out a

tame draw in their annual fixture where only one innings was completed at Ananda Mawatha.

It was very clear from the start that both teams were not prepared to take a risk as they figured in a runcrawl with the Anandians continuing to occupy the crease even on the second

But Ananda's decision to innings after having suffered

prolong their batting was understandable because they were very much short of runs in the first

Royal College fielders celebrate a dismissal a batting collapse early in the innings.

That they eventually reached a healthy score of 268 was mainly due to a fighting knock of 81 from Skipper Saviru Bandara who played a lone hand in pulling his side out of real trouble.

The right-hander batting at number eight produced his best batting performance for the current season as he single handedly carried the Anandians towards a position of authority.

This clash altogether turned out to be a battle between the two rival captains as the final session was form this season as they dominated by the Peterite Skipper Nipunaka Fonseka who played a similar role for his team.

The elegant left-hander who has been in excellent form this season put his head down once again to construct a fighting half-century that helped his team reach a modest 234 for eight in their first innings.

#### St. Sebastian's vs Dharmasoka

continued their good

St. Sebastian's College

went on to dominate their fixture against Dharmasoka College which

ended in a draw at Mor-

atuwa. The Sebastianites produced a centurion in the form of Sanesh Fernando who played the sheet anchor role with the back up support coming from Bihanga Mendis.

Dharmasoka's hopes of getting close to the St. Sebastian's score of 241 never materialised as they collapsed to 136 runs against the spin of Shenith Fernando and Mehen Silva.

St. Sebastian's then batted for 48 overs in the second innings before declaring with half centuries from Chakila Perera and Avishka Fernando.

#### **Richmond vs** Wesley

Richmond College dis-played their batting prowess as they hit up over 300 runs in their drawn game against Wesley College at the Galle Stadium.

The Richmond innings was built around three splendid half centuries from Kavindu Nirmana, Janith Kaushalya and Bhanuka Manohara.

All three batsmen performed with a great deal of confidence and authority even though they were maintaining a run-rate of iust over three runs per

The Wesleyites were left with just two sessions of batting and they lost six wickets during that period for less than 150 runs. Thenuka Perera's unbeaten half century was of great value for Wesley who were at the receiving end for most of the time in this encoun-

#### Pradeep Liyanage the athlete turned ruggerite

St. Anthony's College is a leading school located in the hill capital Kandy, which has contributed immensely in the field of Education and Sports producing several personnel who made their 'Alma Mater' proud.

In the field of sports especially in the game of rugby they have unearthed many highly skilled players, who have given fine displays bringing honour and fame to their school.

Pradeep Liyanage was one of them who had the distinction of becoming a prolific player in the game of rugby representing the country both locally and internationally.

Pradeep Liyanage also known as 'Laiya' in the sporting circles was born in 1983 in Kandy. His father is Silva working overseas while mother Subadra is a housewife. He has one brother Niresh attended his school. While they were living in the outskirts of Kandy, Pradeep got an opportunity to enrol at St. Anthony's College, Kandy in junior school in 1995 and

continued his higher studies in 2002, where he concluded his school career.

From his younger days, he had a liking for sports and launched his sporting career playing cricket and engaging in athletics at College in the under-13 age category. His main events there were 100 and 200 metre races in, which he notched up the second and first places respectively at the All Island Champion-

In athletics, he went on to win the same events in Kandy District Athletic Championship in the under-13,15 and 17 age groups which earned him the 'Best Athlete' at college under the coaching of Keerthi.

His participation in rugby was due to his under-13 rugby coach Nihal Ananda, who monitored and spotted Pradeep's capabilities in athletics mainly the speed he had in his individual events. He finally participated in handling the rugby ball from junior rugby and went on to play in all age groups for his school teams. While he was playing in the under-

**Pradeep Liyanage** 

15 team, he occupied the fly halves berth while in the under-17 team played in as a wing three quarter.

At the age of 17 years, he was included in the first XV team where he competed for four years. He was a member of their champion side which won the 'Schools Rugby Crown' as an unbeaten team in 2001 under Tikiri Dissanayake's captaincy coached by Priyantha Guneratne, .

Even though he was playing in as a Wing three quarter later had to shift his position to Centre three quarter, after one of their key players who occupied that place was injured, and from there he continued to lock horns

in this position until he hung up his boots. During their unbeaten season they defeated some of the top schools in the fray like Isipathana, S.Thomas and St.Peters few to be named. Playing as second centre, he went on to plant 41 tries in that whole season.

In the final match of the season against Isipathana they pulled off a narrow 10-8 win and it was his solitary try with two penalties which guided them to victory. He was later awarded the Double

Eagle,. In 2002, his former school mate Priyantha Ekanayake, invited him to join Kandy Sports Club and continued playing until 2013, later captaining them in 2009. He surged ahead to annex the 'Best award three times and the 'Best Three Quarter' award on six occa-

for Kandy as a school boy, he got his National call in 2002. His tenure with the National team spanned until 2013.

He made his debut in 2002 with the Sri Lanka XV side tour of Hong Kong followed by the Dubai Sevens tournament the same

He was appointed the Sri Lanka captain in 2010 and led them in several **International Tournaments** in both sevens and XV-aside format of the game. He played his first Rugby

Asiad under Pradeep Basnayake's captaincy along with some of the best players in the game in that era like Nalaka Weerakkody, Sajith Mallikarachchi, Fazil Marija, Amjad Buksh, Nilfer Ibrahim, Radhika Hettarachchi and Indrajith Bandaranaike In his rugby career, he was coached by Priyantha Gunaratne, Nihal Ananda, Mohamed Faizal, Tavitha Thulagesi (Laga), late George Simpkin and Yohan Taylor.

At present he is ing his school and his wife is Ruwindika Dunuwille and has three children In the meantime playing namely Shakya (6), Nathaya (4) and Yeheli (3) years old.

#### Tharindu Rumesh outstanding athlete and soccer player

(UPANANDA JAYASUNDERA-Kandy Sports Special corr.)

B.Tharindu Rumesh is an old boy of Mahasen Vidyalaya,Bakamuna of the Polonnaruwa District who is an outstanding soccer player who is also an athlete as well as a badminton and kabaddi player.

As an Athlete be became the Champion in the School Sports Meet representing Deepthi House in 100 and 200 Metres and Long Jump events and for four consecutive years he won these three events from Under 12 to Under 15 level.

As a Soccer player Rumesh played for the school soccer team for eight years as an Under 14 up-to Under 19 level player. Then he joined the Youth Sports Club of Bakamuna and continued playing serious soccer and he was selected to the Polonnaruwa District Soccer team and he toured India in 2007 with the team.

He was coached in soccer by Karunaratne Banda and Niroshan Cooray, both

#### AG recommends **COMMITTEE** for SLC

The Attorney General's (AG's) Department has recommended that Sri Lanka Cricket (SLC) be placed under a new management committee until its election of office-bearers on May 20 as the current committee's term expired on February 20, 2021.

According to the Sports Ministry Secretary Anuradha Wijekoon, on Attorney General's advice, a five-member Committee will be appointed today in place of the current cricket administration until the SLC elections which will be held on May 20.

The advice comes three weeks after the Sports Ministry sought legal advice from the AĞ when Colts Cricket Club challenged the legality of the current committee headed by Shammi Silva. (D.R)

## Ushan Thiwanka sets RECORD in Texas

**DHAMMIKA RATNAWEERA** 

USA based Sri Lankan athlete Ushan Thiwanka set up a new Sri Lanka high jump record with a performance of 2.28m at the Texas Relays Athletic Championships yesterday.

The 23-year-old athlete, who is presently training and following his higher studies in Texas, was able to erase the long standing record of 2.27m set by Manjula Kumara Wijesekera which was set up in 2004 and equalled in 2005.

Thiwanka's achievement is also rated as the third best performance at world outdoor competitions this year.

The former schoolboy of Maris Stella College, who left the country on a scholarship last year to Texas A and M University-Commerce, also achieved Sri Lanka's Elite National Pool qualification mark of 2.22m, which qualifies him to be included in the Elite National Pool as well as in the top high-performance pool of the Sports Ministry.

Earlier, Thiwanka was able to set up a new

Sri Lanka indoor high jump record of 2.26m. Thiwanka started his athletics career at Karunaratne Buddhist School at Ragama and was able to develop his skills at Maris Stella College under the guidance of his coach Sanar-

Thiwanka of course, had a difficult childhood while growing up as both his parents suffered from polio.

However, that did not stop him from achieving great heights in his life, and he is now a step closer to his Olympic dream.

#### **NEGOMBO STUN Tamil Union** in SLC L/O Tourney

**CHRIS DHAMBARAGE** 

Negombo CC caused a major sensation as they defeated the more fancied Tamil Union by five wickets in their SLC Major Club Limited Over Cricket Tournament match played at the P. Sara Oval in Colombo yesterday.

Tamil Union were skittle out for a paltry 99 runs in 27 overs and the winners hit up 100 for five in reply to record a memorable victory.

Meanwhile, Ace Capital CC were shot out for a dismal 30 runs as NCC romped to a massive 230-run victory at the NCC Grounds in Maitland Place.

## SL eye HISTORIC TEST SERIES win against WI

Sri Lanka will look to record their maiden Test series victory in Caribbean when they take on the West Indies in the second and decisive match for the Sobers/Tissera Trophy at the Sir Vivian Richards Stadium in Anti-

gua today. The Sri Lankans are brimming with confidence following their excellent performance in the opening Test where they took major honours in the drawn game at the same venue a few days ago.

After conceding the Twentv20 series and the One Day International series to their opponents, Sri Lanka are now well set to create a piece of history in their final outing of the tour.

Sri Lanka have toured the West Indies on four

**Kraigg Brathwaite and Dimuth Karunaratne** 

previous occasions but they are yet to win a series and their last attempt was in 2018 where the threematch series ended in a 1-1

Sri Lanka's first tour to the Caribbean was in 1997 and the home side clinched the two-Test series 1-0. The Lankans once again toured the Caribbean in 2003 and lost the two-Test series 0-1.

The two teams then figured in a 1-1 draw in the 2007/08 series held in the West Indies.

#### HAMILTON, SUNDAY: An unbeaten 92 from Devon Conway

and a four-wicket burst from Ish Sodhi ensured New Zealand romped to victory by 66 runs in the opening Twenty20 against Bangladesh in Hamilton on Sunday. Conway, whose rollicking innings

included 11 fours and three sixes, shared in a 105-run stand with debutant Will Young (53), as New Zealand posted an impressive 210 after winning the toss and electing to bat. Mohammad Naim made an enter-

prising start to the Bangladesh reply with two boundaries off the opening over from Tim Southee. But once the tourists reached 39

in the fifth over the innings fell apart as first Lockie Ferguson removed Naim for 27 and then Sodhi suffocated the momentum with his four wickets in eight deliveries.

At the end of their 20 overs Bangladesh were 144 for eight and Sodhi had the impressive figures of four for

New Zealand went into the match

without six frontline players including Kane Williamson and Trent Boult and stand-in captain Tim Southee said it was pleasing to see the new blood perform with the bat.

Conway, Sodhi lead New Zealand to EASY T20 WIN over Bangladesh

"Devon is just carrying on what he's done at this level, making it look extremely easy," Southee said with Conway now having four fifties and a 65.42 average from 12 Twenty20s.

"It's great to be able to see guys come in and perform. If you had five or six guys out a few years ago we would be scratching around but there's a number of guys now knock-

ing on the door." 'Let ourselves down' (Subhead)

A disappointed Bangladesh skipper Mahmadullah pointed the finger at a mediocre batting display from his side and called for a big improvement before game two in Napier on Tuesday.

"We have let ourselves down in our batting department," he said.

"Ish (Sodhi) is an experienced campaigner, he uses conditions really well, the ball was gripping a little

bit here but we can't make the same mistakes again and again." After the Sodhi rout, Afif Hossain

(45) and Mohammad Saifuddin (34 not out) stretched the innings with a 63-run stand for the seventh wicket but they were unable to lift the scoring rate enough to threaten the New Zealand total.

The one disappointment for New Zealand was Finn Allen's much anticipated debut.

The exciting 21-year-old had set the New Zealand domestic scene alight with an average of 56 at a stunning strike rate of 194 in the domestic Twenty20 competition.

**Chief scores:** 

New Zealand - 210/3 in 20 overs (D. Conway 92, W. Young 53, M. Guptill 35, G. Phillips 24, Nasum

Bangladesh - 144/8 in 20 overs (Afif Hossain 45, M. Saifuddin 34, Mohammad Naim 27, Mahmadullah 11, Sodhi 4/28, Ferguson 2/25)

## **'New demand for** retired teachers to offer online education'

Indika De Zoysa

With the COVID-19 pandemic, demand for online education has increased and there is a new demand for retired teachers who have now moved in to providing online edu-

cation solutions. Vice President -**Enterprise Business** Group at Huawei Technologies Lanka, Indika De Zoysa said that this is due current teachers inability to meet with the growing demand for online learning through Zoom and other means and also since some education providers are hiring retired teach-

ers to provide online education.

He said the government is planning to distribute 96,000 Tabs to schools and this will further increase the demand for retired teachers. To increase the penetration of the internet, Huawei has agreed to partner with the Education Ministry to provide 30,000 internet access points for students' distance learning education. Recently, Huawei has debuted IdeaHub, which simplifies the transformation of online teaching at an International Chinese School in Brazil. Huawei previewed a series of digital transformation solutions last year to support continuous learning and quality education in the Middle East over the coming years

During the COVID -19 pandemic several new marketing and educating initiatives were done by the government, TV stations, marketer's and these initiatives/ adaptations were among the first in the region where Sri

> Lanka can be proud of. "We have also seen a local entrepreneur who is hiring A/L students on a temporary basis to teach English online to students in London and simpler enterprises are now emerging. He also appreciated the government's ICT driven projects including 'Gamata Sanniwedan-

aya' which aims to establish the necessary connectivity infrastructure which is imperative for Sri Lanka to successfully navigate its journey

towards digitisation. The Ministry of Education with Telecommunication Regulatory Commission took steps to provide all schoolchildren, who are at home during the extended school holidays, with access to E-Thaksalawa free of charge through any telephone network. Education programmes on TV too can be accessed free.

He also said that with the C-19 panemic resulting in the world moving at a faster pace towards digital solutions there is a looming shortage of Tabs and Laptop computers globally.

"In Sri Lanka too this is now evident and this is not because of the current import restrictions, but simply due to demand and supply situation.'

## 'National Policy on Industries' for Cabinet approval in 2 weeks

#### Guarantee Fund to ease entrepreneur woes

Aruni Kotalawala receives the Sri Lankan Entrepreneur of the year award on behalf of Wijaya Products (Pvt) Ltd. Picture by Saliya Rupasinghe

ANANDA KANNANGARA

The proposed 'National Policy on Industries ' to safeguard, encourage and promote Lankan industrialists and entrepreneurs will be brought before the Cabinet of Ministers for their approval within the next two weeks, Industrial Minister Wimal Weerawansa said.

Minister Weerawansa made these observations a the annual CNCI Achiever Awards 2020, organized by Ceylon National Chamber of Industries (CNCI) in Colombo. Associated Newspapers of Ceylon was the Media sponsor.

A large number of local

industrialists, manufacturers and Entrepreneurs received certificates and awards for the excellent service done by them to improve the Sri Lanka economy to a greater extent during the last year.

Speaking on certain trade agreements, the minister said many trade agreements did not strengthen the Sri Lankan economy and the Government needs to defeat all obstacles faced by our industrialists due to these trade agreements and encourage the country's own industrialists to develop the local market, so that they can even

enter the global market. Speaking further the Min-

ister noted that in addition to the proposed 'National Policy on Industries', steps have also been taken by the Government to introduce a 'Guarantee Fund' for the benefit of Sri Lankan SME sector industrialists to enable

with a certain amount of security provided through this 'Guarantee Fund'. "As we are aware most our industrialists are today reluctant to obtain bank loans to start new ventures due to high security asked by banks.

them to obtain bank loans

"The Guarantee Fund will be introduced by the Government in collaboration with the private

sector, so that it will be a great relief to our industrialists," he said.

He said this nature of funds will encourage our industrialists as well as entrepreneurs to invest in more ventures in the future and it will also help to provide more employment opportunities to our youth. Minister Weerawansa also mentioned that the government is now focusing attention towards granting more relief to industrialists by further reducing bank interest rates to a single digit in order to encourage the SME sector to invest in many

other commercial ventures.

While mentioning several development activities carried out by former President Mahinda Rajapaksa during his tenure, Minister Weerawansa said due to his farsighted policies Sri Lankan economic growth had increased to 6.5% during that period. The Minister also highlighted the invaluable role played by the CNCI in the promotion of industries in Sri Lanka and said their contribution to the growth of the national economy is commendable.

The Sri Lankan entrepreneur award was won by Wijaya Products pvt

#### **Enterprise Development Advisory Council meets Minister Cabraal**

A meeting of the Enterprise Development Advisory Council (EDAC) was held on March 26 at the Shangri-La Hotel under the patronage of Ajith Nivard Cabraal, Minister of State for Finance and Capital Markets and Public Enterprise Reforms.

The progress of the subcommittees on ICT, Doing Business, Stock Market and Automobile initiated during the previous meeting was

State Minister Cabraal with Angajan Ramanathan

discussed. Representatives of public and private banks participated at the

were also present.

#### World's biggest wealth surge marks rise of billionaire Adani

After spending two decades building a business empire centered around coal, Indian billionaire Gautam Adani is now looking beyond the fossil fuel to cement his group's future. His ambitious plans are getting a boost from Prime Minister Narendra Modi.

Adani has emerged as India's infrastructure king, diversifying from mines, ports and power plants into airports. data centers and defense -- sectors Modi considers crucial to meeting India's economic goals. Investors are rewarding the pivot, betting the tycoon's strategy of dovetailing his interests with the government's development program will pay off.

(Business Standard)

### Vehicle registrations up in February, hand tractor registrations on the rise

Total Vehicle registrations recorded 3,558 units in February marginally up from 3,256 units in January but significantly down from 31,402 units 12 months ago. The main contributor for the increase was a higher number of hand tractors, a category that is not under an import ban and an uptick from locally assembled vehicles.

Total cars recorded 220 units in Feb marginally up from 195 units in Jan but significantly down from 2,056 units 12 months ago Of the 95 units recorded under brand new cars in Feb, Zotye - Z100 a locally manufactured car by a subsidiary of United Motors

accounted for 79 units up from 27 units in Jan and 34 units 12 months ago.

Pre-owned cars recorded 125 units in Feb down from 155 units in Jan and significantly down from 1,768 units 12 months ago. SUVs recorded 287 units in February up from 161 units in Jan but significantly down from 819 units 12 months ago. The data shows 31 Toyota Land Cruisers which have been a gift from the Japanese Government to the Police Department. In the locally assembled category DFSK (United Motors) recorded 113 units in Feb significantly up from 14 units in Jan and 6 units 12 month ago and Mahindra

KUV 100 (Ideal Motors) recorded 80 units in Feb up from 61 units in Jan and 1 unit 12 months ago.

Hand tractors (no import ban) recorded 212 units in February significantly up from 94 units in Jan and 83 units 12 months ago. Farm Star accounted for 89 units claiming a category share of 42%. Medium trucks recorded 216 units in Feb down from 259 units in Jan but up from 178 units 12 months ago. Large tractors (no import ban) recorded 485 units in Feb marginally up from 461 units in Jan and 240 units 12 months ago. Tafe (Browns) is the market leader with a 52% share.

#### LG Ambassador Challenge launched

LG, Abans, and Korea Friends of Hope International Sri Lanka (KFHISL) recently launched the LG Ambassador Challenge at the Colombo City Centre on March 25. The Ambassador Challenge will carry out four CSR projects across the country.

LG Ambassadors were selected after an evaluation process. Chief Marketing Officer Abans Budhhika Dharmawardena said, "LG and Abans have consistently undertaken the task of uplifting Sri

Lankan livelihoods. From providing best in class products to our corporate social responsibility schemes we always look to uplift the nation."

Secretary KFHISL Lasitha Nanayakkara noted that the project in Sri Lanka was the brainchild of Korea Friends of Hope International Chairman

Daniel Choi. Chief Guest at the event and Director General of NGO Secretariat Raja Goonaratne noted the need for NGOs to assist in the national goal of poverty alleviation. Gooneratne noted

that though there were 37,000 registered NGOs in the country many of them lacked funds to carry out any activity. Goonaratane praised the ini-

tiative and was happy to see institutions with the financial strength of LG and Abans working towards national development. The Sri Lankan chapter of KFHI is to be registered at the NGO secretariat shortly. In Vavuniya LG Ambassador Kunaraththinam Kajanagan through the project 'Drop of Life' will look to provide RO water purification to

the area. The project will hope to over the long term reduce the prevalence of kidney-related diseases

In Balangoda LG Ambassador U D I Thushara with the project 'Nurturing the Future Generation' will look to rebuild the abandoned Midwife Centre. The building is currently in a state of disrepair and the village does not have facilities for midwives to meet with expectant mothers.

In Ampara LG Ambassador Tuwan Nawshath Allan will look to construct a Volleyball court. The project will look to

LG. Abans and KFHISL at the event. Picture by Dinesh Perera. create youth engagement and additional life jackets are

improve physical wellness. In Batticaloa LG Ambassador Pakkiyarasa Katheeswaran will look to provide the local ferry service with much-needed life jackets. The

required due to the heavy rainfall and the subsequent uncertainty it causes when crossing the body of water. The project would benefit an estimated 8,000 families.

## Star Garments Group opens eleventh factory in Buttala

Leading global manufacturing company Star Garments Group ('Star') recently established a stateof-the-art factory in Buttala in the Monaragala District, with the view of promoting inclusive growth and supporting the nation's efforts in uplifting regional economies.

This is the group's eleventh factory in Sri Lanka and will go on to provide job opportunities for over 1,000 people.

The facility is equipped with modern infrastructure and technology to produce cut and sew knit clothing to some of the world's most renowned brands.

It will generate over Rs. 60 million directly to the local community every month and facilitate the country's export revenue by contributing around USD 12

Charlie Komar and A. Sukumaran

million annually. President and CEO of Komar, Charlie Komar said, "This investment reaffirms our longterm commitment to Sri Lanka's apparel industry and paves the way towards stimulating economic empowerment among rural towns and villages. This is undoubtedly the future of

the industry and we are

inspired to be a part of this. We are challenging the status quo by going beyond conventional thinking to embrace a culture and philosophy where corporate responsibility including sustainability produce both thriving communities and successful enterprises."

in the growth of Sri Lanka's apparel sector with over four decades of experience. The world-class apparel sourcing, design and manufacturing company currently employs a team of over 8,000 people across all its factories, and has a distinctive repu-

tation of being one of the

most innovative and sus-

tainable entities in the

Together with the Carbon Neutral certification across all its 14 facilities. Star takes great pride in being

the largest carbon neutral company in Sri Lanka.

A. Sukumaran, Managing Director – Star Garments Group, said, "We believe the future of the apparel industry in Sri Lanka lies in establishing purpose-driven infrastructure within communities, be it towns or villages, breaking away from the traditional norm of being based in industrial parks. This will spur inclusive economic growth which is highly beneficial to the country in many aspects. Our Star factory at Buttala reflects our intention and passion in this regard.'

Star is a Komar company, a global apparel products company, specializing in the design, marketing, sourcing and distribution of sleepwear, loungewear, intimates, and layering products.

The Dialog team with the SLIM awards

#### **SL vote Dialog as Service, Telecommunications** and Youth Choice - Service Brand

Sri Lankan consumers voted Dialog as the 'Service Brand of the Year' and 'Youth Choice - Service Brand of the Year' for the second consecutive year, and the 'Telecommunication Brand of the Year' for a record tenth year running at the prestigious SLIM People's Awards 2021.

Voted for by the public to recognise brands that have made a profound impression in the minds of the people of Sri Lanka, the People's Awards crowns the brands that have captured the hearts of the people.

During an unprecedented year faced with the pandemic, Sri Lankans turned to the brands they trusted the most to help get through their challenges. These accolades presented by the people recognise Dialog's exemplary commitment towards addressing societal challenges posed by COVID-19 and its unwavering efforts in supporting its customers, colleagues, communities and the country.

The 'Service Brand of the Year' award, which recognis-

es the best service provider across all service industries, is a testament to the diverse range of inclusive and accessible services offered by Dialog, harnessing the transformative power of technolo-

Dialog was also awarded

the 'Telecommunication Brand of the Year' for a record tenth year running; recognising the delivery on its commitment of empowering and enriching Sri Lankan lives and enterprises. The three awards presented at the SLIM People's Awards that were voted on for by the people of Sri Lanka along with the recognition of being awarded 'Sri Lanka's Most Valuable Consumer Brand' by Brand Finance embodies the brand's virtues of consist-

future for every Sri Lankan. The 'Youth Choice – Service Brand of the Year' award celebrates brand loyalty amid consumer trends and is a recognition by the youth of Sri Lanka for not only addressing the need for meaningful change, but also helping to

ently enabling a connected

amplify it through powerful innovations accessible to all.

Celebrating Dialog's expansive portfolio of innovative service offerings and technological advancements, Sri Lankan youth voted for the brand they felt best unites them and form the nation's overarching experi-

Commenting, Supun Weerasinghe, Group Chief Executive of Dialog Axiata PLC said, "We are grateful and humbled that Sri Lankans have voted us as the 'Service Brand of the Year' and 'Youth Choice - Service Brand of the Year' for the second consecutive year, and the 'Telecommunications Brand of the Year' for the tenth consecutive year."

"Our long-held commitment towards delivering meaningful customer experiences through innovative technologies and differentiated services encapsulates our unwavering efforts in driving inclusive innovation and sustainable development, despite the challenges posed by the pandemic."

## Singer feted at SLIM People's awards 2021

Singer Sri Lanka PLC, a premier consumer durables retailer has clinched prominent awards at SLIM People's awards 2021, reiterating its dominance in the consumer durables sphere.

Singer was crowned SLIM People's Brand of the Year 2021 award for 15th consecutive time topping off a memorable night for the retail giant.

Forging its way to yet another remarkable achievement, Singer clinched the coveted SLIM People's Durables Brand of the Year 2021 award, reaffirming its positioning as Sri Lanka's premier consumer durables retailer.

On a winning streak, Singer also re-claimed SLIM People's Youth Choice Brand of the Year 2021 award after 3 years, because of its renewed focus during the last year to appeal to the youth via a

Singer's winning team at SLIM People's Awards 2021.

targeted communication strategy and introduction of modern products. Proof of strong progress being made of a heritage brand slowly evolving to be more progressive and future oriented.

Held for the 15th consecutive year, SLIM People's awards 2021 aims to recognize brands and personalities with great impact for

Mahesh Wijewardene

Group CEO of Singer Sri Lanka PLC said, "We are highly honored to win three awards at one of Sri Lanka's most renowned awards ceremonies. Singer has been winning the People's Brand of the Year award since the very beginning of the awards ceremony. These awards speak volumes for the commitment and passion of our team who steered to transform Singer

in to a premier retail destination that caters to the growing demand of our customers.

Shanil Perera, Marketing Director of Singer Sri Lanka PLC said, "We are indeed proud of these awards that further inspire us to reach new heights in the retail segment. We have been implementing innovative marketing approaches over the last two years hav-

ing identified the need to better engage with our consumers and our team has worked tirelessly to position Singer as the leading consumer durables provider in Sri Lanka."

Singer has demonstrated consistency and resilience with strong strategies in place with key decisionmaking, sales optimization and improving productivity and efficiency of staff.

#### Sustainable corporate leadership award for Kishu

Celebrity corporate leader Dr. Kishu Gomes was conferred with another national leadership award at a recently held award ceremony at the Tai Samudra Hotel. Colombo for his continuous contribution to the country's economic and social development via multiple areas especially focusing on the young workforce of Sri Lanka.

Kishu, the youngest Srilankan to head a truly multinational company and the longest serving multinational ČEO, is now heading the Dreamron Group of Companies as it's Group Managing Director/ CEO. He held a public sector role

Education Reforms State Minister Susil Premjayanth, presenting the award to Dr. Kishu Gomes.

as Chairman of Sri Lanka Tourism and successfully handled the recovery of the tourism industry following the Easter attack

Kishu has previously won many prestigious awards

such as, Best Young Director by the institute of Directors, Best Business leader by CIMA Sri Lanka, TOYP award for leadership and Sri Lankan of the year by the Lions Club to name a few.

#### The Exterminators wins 'Best Entrepreneur in C-19 pandemic'

The Exterminators (Pvt) Ltd., one of Sri Lanka's premier environmental enhancement solutions providers won three awards at the 'Entrepreneur Awards 2020' at BMICH Colombo.

Awards won by Exterminators are Winner - Best Productive Enterprise, Winner - Best Entrepreneur to have survived the COVID-19 pandemic and Merit - Large Service Sector (Hospitality/Hotels/Other Services). Entrepreneur Awards 2020 was jointly organized by The National Enterprise **Development Authority** (NEDA) and the National Chamber of Commerce of Sri

Lanka for the fifth year. Exterminators is a premier pest control and pioneer Antimicrobial disinfection solutions provider is the winner of 55 national/international awards and ISO 9001, ISO 14001, ISO 45001, ISO 22000, COVID-19 SLS & Asia's first 'Carbon Neutral'

Marlon Ferreira Founder/Managing Director Receiving the COVID-19 Entrepreneur award.

pest control and the world's first carbon neutral Anti-Microbial Disinfection Service. Exterminators decided that in order to survive this unprecedented situation, the company needed to take some bold steps.

These includes, creating a 'High Risk COVID-19 Team' with 8 specialized disinfectors working from office and 5 sales and operations staff working from home, venturing into new industry named 'Anti-Microbial Disinfection and many such initiatives.

The services of the company were provided countrywide even during curfew/lockdown periods to help the community to fight COVID-19 and businesses all over Sri Lanka to get back to business.

Exterminators also disin-

fected 71 Elders Homes, 30 Police Stations, 15 Religious places, 15 public places including schools, railway stations, bus stations and 'The Lotus Tower' South Asia's tallest tower - covering over one million sq.ft and travelling over 6000 kms since March 2020. Since March 2020. Exterminators has increased salaries of all employees by 10-50% while the directors salaries were reduced by 40% Four motorbikes were donated to the High-Risk COVID team

#### To support individuals struggling with income loss in pandemic

#### SANASA General Insurance unveils 'Prathishakthi'

SANASA General Insurance Company (SGIC), the General Insurance arm of leading Life Insurance company SANASA Life Insurance, has launched "Prathishakthi", a unique insurance solution that is tailor-made for any individual whose income is at risk as a result of the ongoing COVID-19 pandemic or any other epidemic that may take place in the future.

"Prathishakthi" is a timely insurance scheme that has been introduced to support policyholders of any income level and thereby his/her family as well by providing a daily income if the policyholder suffers from loss of earnings due to the COVID-19 pandemic or any other epidemic. Accordingly, the policyholder can obtain this daily income in the

event of loss of income to him/her caused by the individual's neighbourhood being locked down or even if the individual's family is being ordered to self quarantine due to a family member contracting the disease.

One of the unique attributes of the Prathishakthi policy is that it can be gifted to a deserving party by

means of a voucher paving the way for Sri Lankans to help those in need of such financial assistance. Expressing his views,

SANASA General Insurance Company Chief Executive Officer Wasantha Perera stated, "Over the past year, a large number of individuals have been left with no income due to the initial lockdown and the

drastic downturn in business even after the country opened up. After the reopening, some areas were periodically closed off to curb the spread of the virus while certain households were told to self quarantine for days when a person in the household contracted

"As a company that is in touch with the needs of the

the virus."

SA General Insurance Company has launched this new product 'Prathishakthi' which we're confident will serve the needs of all segments of society, be it a full-time employee, a business owner or a daily wage earner. Now, by paying a basic annual premium, the policyholder can be assured of a steady income or have a ration pack delivered home if they're affected by any pandemic giving them peace of mind during uncertain times."

general population, SANA-

SANASA General Insurance Company Limited (SGIC) was launched onJuly 2019 as a subsidiary company of the SAN-ASA Life Insurance, widely-known as a people oriented insurance company in the field of insurance in Sri Lanka for nearly 30

#### Colombo Port City welcomes Cabinet approval for 'Special Economic Zone'

Port City investor company, CHEC Port City Colombo (Pvt) Ltd. welcomes the Government's move to establish a Special Economic Zone and expects this initiative will bring more Foreign Direct Investments to Sri Lanka. The approval was granted at the cabinet meeting held on January 4, 2021, to establish the Colombo Port City Special Economic Zone which will be an International business and services hub with specialized infrastructure facilities

"The Colombo Port City **Economic Commission** Bill" would form the framework law that would be applicable within the Port City and the Cabinet of Ministers approved the proposal made by President Gotabaya Rajapaksa took necessary steps to publish the relevant bill on the government gazette and submit it to the parliament shortly. The Colombo Port City Special Economic Zone is expected to create a conducive and competitive environment in attracting

foreign direct investment (FDI).

Urban Development via SEZs is not unique to Sri Lanka and there are many successful SEZs in the world. An SEZ will offer relief from various forms of taxation on businesses and individuals who qualify. They also offer superior infrastructure; have streamlined administrative processes in place that results in ease of doing business. SEZ's have been a useful tool for developing nations to upgrade infrastructure,

human capital and institutional frameworks and test out policies and their impact before they are selectively implemented outside the SEZ in the rest of the country.

The establishment of a well-positioned SEZ will benefit the nation by; upgrading resources and capabilities where policymakers can overcome bottlenecks in resource mobility and attenuate the costs of larger-scale implementation or upgrading across the entire country. A successful SEZ sends an important signal that the country is open for business. The facilitative environ-

ment expected to be created through the "Colombo Port City Economic Commission Bill" is supported by the first world infrastructure made available in the 269 Ha of reclaimed Land at Port City and is expected to result in the inflow of both financial and human capital and promote local and foreign entrepreneurs, create employment opportunities and enable talent retention.

It is expected that the SEZ will attract multinational enterprises to set up headquarters or regional offices in Port City and in turn, they will bring in financial resources, technology, technical and managerial know-how.

We hope the establishment of an SEZ will accelerate Sri Lanka's economic growth. A realized master plan for the Port City provides 5.7 million square meters of built-up area valued at \$15 billion that will be home to multinational

quarters, transient workers, and residents. It will be the catalyst for a modern services hub that will help Sri Lanka's transformation into a services-led growth model and elevate the economy to high-income status.

brand-new city development built as an extension of the existing Colombo CBD, with a total reclaimed landmass spanning 269 HA. The government of Sri Lanka owns 100% of all the land in Port City.

## ADB's new country director takes helm

Sri Lanka is one of the founding members of the Asian Development Bank (ADB) which was established in 1966. The first ADB loan to the country in 1968 was to help modernize tea factories. Since the initial years, ADB has provided \$10.6 billion in sovereign and non-sovereign loans and \$394.8 million as grants to the country.

During its 55-year partnership with Sri Lanka, ADB has contributed immensely towards the country's development, by mobilizing finance resources and providing knowledge services for upgrading infrastructure, improving education and skills-based training, and reconstruction in conflict and tsunami-affected areas. ADB has also supported the growth of small and medium-sized enterprises (SMEs), development of agriculture and natural resources, and management of the public sector.

The following is an interview with Chen Chen who is the new Country Director of the ADB to Sri Lanka.

## When was ADB first established? Where are the other South Asian offices?

In 1997, ADB established in Colombo the Sri Lanka Resident Mission (SLRM) to work more closely with Sri Lanka, while better appreciating and understanding the development needs, challenges and opportunities of the country. Outside Sri Lanka and within South Asia, ADB also has resident missions in Afghanistan, Bangladesh, Bhutan, India, Nepal, and Pakistan.

#### How do you see the development progress of Sri Lanka?

Sri Lanka has made significant strides in its development journey particularly in the areas of social development. Growth since 1977 has averaged nearly 5% and the country is knocking on the door of the upper-middle-income country group. Sri Lanka has made remarkable progress in reducing poverty to low-single-digit rates compared to other countries in South Asia. More recently, the growth has slowed down due to natural disasters, policy uncertainty, terror attacks, and now of course the global COVID-

## What are the main development challenges that Sri Lanka currently faces?

Sri Lanka's economic base has seen a shift from primary to secondary and tertiary sectors over the past 5 decades. There is a need to further identify new areas of economic growth and improve productivity, which requires promoting technology, innovation, and fostering an entrepreneurial culture. A diversified economic base will also help the economy better withstand shocks

The pandemic is exacerbating many development challenges and the progress in reducing poverty is likely among those being impacted most. Past gains in Sri Lanka have been put at risk. In particular, the population close to the poverty line is at risk of slipping back into poverty as the pandemic adversely affected livelihoods and lives. Putting economic and social progress back on track to make up the lost ground is going to be one of the main challeng-

As we are seeing in many countries in Asia and the Pacific, as well as across the world, public finances have come under stress as a result of the pandemic. Sri Lanka is facing a similar, if not a more challenging, situation. More fiscal space needs to be created for critical development expenditure, social protection schemes, and other social sectors. Public financial management measures such as enhancing domestic resource mobilization by improving tax collection and strengthening domestic capital markets, and improving the performance of state-owned enterprises and expenditure management can help create fiscal space.

Some of the other challenges facing Sri Lanka's development include addressing low female labour force participation, economic imbalance across provinces, youth unemployment and skills mismatch, and an ageing population.

#### What are the major sectors ADB is supporting in the country?

ADB has a fairly diversified portfolio across many sectors in Sri Lanka supporting both social inclusion and economic growth. The overall active portfolio is \$4.5 billion with 33

projects. For example, our assistance to the energy sector strongly focuses on electricity transmission and distribution, supporting improved reliability, and greater renewable energy penetration using sources such as hydropower, wind, and solar power generation, among others. Also, we are increasingly focusing on the financial sustainability of the power sector and, in particular the Ceylon Electricity Board, to ensure healthy growth in the sector essential for sustaining the country's socio-economic development.

In the transport sector, ADB support includes road network improvement and railway operation efficiency improvement. One major Programme we are supporting is the Integrated Road Investment Programme. The Programme is widely known as 'iRoad' in Sri Lanka and is now part of the 100,000 km rural road Programme

In the agriculture and natural resources sector, ADB is working with the government to implement the Mahaweli Water Security Investment Programme to channel water from wet zones to dry zones.

In the urban sector, we support drinking water supply services, wastewater management, and urban infrastructure improvement.

In the finance sector, ADB supports domestic banks to provide a line of credit for SMEs, in particular for underserved SMEs outside the Colombo district and for women entrepreneurs. In December 2020, ADB approved a \$165 million Third Additional Financing loan for SMEs

aspirations of becoming an advanced knowledge economy. The Programme will also train more than 47,000 upper secondary education teachers in inquiry-based and interactive learning approaches.

We also work with the private sector in Sri Lanka. In particular, I would like to mention ADB's Trade and Supply Chain Finance Programme—Sri Lanka is one of the biggest beneficiaries of the Trade Finance Programme. Under the programme, ADB works with partner banks in Sri Lanka to provide loans and guarantees to enable Sri Lankan companies to engage in trade.

If anyone is interested in more details about ADB-funded projects, please visit the ADB website (https://www.adb.org/projects/country/sri), where you can find a lot of interesting stories, photos, and videos about the partnership between ADB and Sri Lanka.

## How did ADB support Sri Lanka's COVID-19 response? What are ADB's plans to support the health sector in the country?

In April 2020, ADB approved a \$20 billion comprehensive response package to provide immediate support to its developing member countries. In addition, ADB launched a \$9 billion vaccine initiative—the Asia Pacific Vaccine Access Facility (APVAX)—offering support to its developing members as they procure and

Health System Enhancement Project and handed over the first batch of personal protective supplies to the relevant institutions on 13 March 2020. Since then ADB has supported the government's COVID-19 health, economic, and education responses through new loans and grants, and also by reallocating funds from ongoing projects.

In the health sector, ADB has been working

with the government to implement the Health System Enhancement Project which was approved in October 2018. The project seeks to build a healthier, and therefore, more productive nation by strengthening the primary health care (PHC) system. The project will improve the delivery of PHC services in Central, North Central, Sabaragamuwa, and Uva provinces, and also bolster the country's health information system and disease surveillance capacity.

Moving forward, in 2021, we will continue with the next phase of COVID-19 recovery and will work closely with the Government of Sri Lanka to provide support for vaccine access under ADB's APVAX facility.

## How is the implementation performance of ADB-funded projects?

The performance of project implementation depends largely on the capacity of the implementing agencies. This is evident from our past experience of many years. Good capacity in project management, procurement, financial management, and social and environmental safeguards help ensure smooth implementation of projects. I am glad to share that in 2020, Sri Lanka received \$745 million in disbursements from ADB, making it one of the best performers in the region and indicating solid progress of project implementation.

A functioning project performance monitoring system will help identify potential issues and address them in a timely manner. In Sri Lanka, such a system has been established for ADB-funded projects for many years by the Ministry of Finance, the line ministries, the implementing agencies, and ADB. In 2020, although the pandemic prevented us from meeting physically, the government and ADB successfully organized a series of virtual project review meetings, which contributed to the record level of disbursements.

Moving forward, we noted that the government intends to rely more on domestic talent for project implementation. ADB can support the government to build the capacity of implementing agencies and to enhance the monitoring sys-

#### How are the ADB loans/assistance disbursed?

ADB disburses loan proceeds in accordance with the loan agreement signed with the borrowers. Most ADB-funded projects are implemented by the responsible agencies. Disbursements happen along with the progress of project implementation.

Take the ongoing Integrated Road Investment Programme, or iRoad, as an example. Since 2014, ADB's Board of Directors has approved a total of \$1.7 billion for iRoad programmes. The Ministry of Highways, Road Development Authority, and provincial authorities formed a joint task force for Programme preparation and implementation. During the implementation, expenditures are incurred for works, goods, and consultancy. The programme implementation units, on behalf of the government, regularly submit requests to ADB to withdraw loan proceeds with supporting documents for incurred expenditures. In addition, ADB regularly fields review missions to discuss project progress with the government and contractors to ensure compliance of project activities with loan agreements. We are glad to see the good progress of iRoad even in 2020, with a total of \$190.8million disbursed.

#### What are the advantages to Sri Lanka of borrowing from ADB? How has Sri Lanka's loan servicing

For sovereign operations, the repayment period for ADB loans is fairly long and is dependent on the type of intervention. For example, for project loans, the loan term (including repayment period and grace period) is subject to an average loan maturity limit of 19 years. For policy-based loans, the average loan maturity is lower. Though the interest rate differs between project and policy-based loans, in general, inter-

Country Director Chen Chen

est rates on ADB loans for sovereign operations are significantly lower than those on external commercial loans and are one of the lowest among the multilateral development partners. In addition, ADB offers technical assistance with project preparation and implementation, building domestic capacity, policy advice, and knowledge services which allows us to bring best practices from our operations around the region to Sri Lanka and vice-versa. Sri Lanka's loan servicing on ADB loans is in good standing.

## What are the measures taken to minimize corruption in ADB-funded projects?

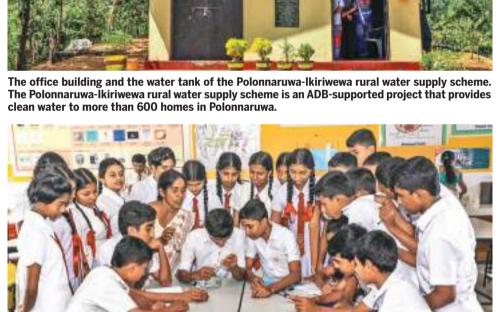

ADB's Anticorruption Policy requires all ADB-financed projects and its staff to adhere to the highest ethical standards. Our principle is zero tolerance for corruption. Continuous efforts are taken by ADB to make all stakeholders aware of this policy and relevant anti-corruption guidelines. ADB and the projects' executing agencies make sure that entities and/or individuals that are debarred by ADB for violation of ADB's Anticorruption Policy do not engage in any ADB-financed projects or activities. To prevent and mitigate the risk of fraud and corruption in ADB-financed activities, ADB assesses fiduciary and integrity risks at the project's processing stage and conducts a Proactive Integrity Review during project implementation. This is to ensure that projects comply with ADB's procurement, financial management and disbursement requirements, and project outputs meet the required quality. Moreover, ADB requires annual project financial statements to be audited by an independent auditor throughout the project implementation period. This helps to establish that project funds are utilized for intended purposes giving due attention to economy and efficiency. For purposes of transparency, audited project financial statements are disclosed on ADB's public website and accessible to all.

ADB has a dedicated unit, the Office of Anticorruption and Integrity (OAI), which is mandated to investigate fraud, corruption and other integrity violations. OAI carries out Proactive Integrity Reviews, integrity due diligence, and anticorruption knowledge-sharing with ADB's stakeholders.

#### Is ADB considering new areas of assistance to Sri Lanka?

ADB's assistance programme is always aligned with the development priorities of the country. In line with the Government of Sri Lanka's priorities outlined in the Vistas of Prosperity and Splendour, ADB's pipeline of assistance for 2021-2023 will focus on health, education, rural development such as rural connectivity and irrigation, supporting SMEs, and water. We have initiated the preparation of a new country partnership strategy for 2023-2027. During the course of the preparation, we will consult with the government, private sector, civil society, development partners, and other stakeholders to identify priorities for future assistance.

I would like to point out that one of the priorities for ADB in 2021 is supporting the government's COVID-19 vaccination programme, which will contribute to Sri Lanka's recovery from the COVID-19 pandemic. ADB stands ready to support the government in the vaccination programme, together with other development partners.

Students engage in practical exercises in the laboratory of the Hakmana Methodist Central College. The Hakmana Methodist Central College main building with laboratories, a library, adminis-

trative areas, a water tank, the main entrance, and renovated buildings is an ADB-supported

which will provide affordable working capital loans to SMEs affected by COVID-19 and long-term financing to underserved SMEs, including women-led businesses and tea smallholders.

project that serves more than 5000 students.

We also have a rapidly growing portfolio in the social sector, focusing on secondary education, higher education, technical and vocational education and training, and primary health care including COVID-19 response. The Secondary Education Sector Improvement programme approved by ADB, also in December 2020, will impart knowledge and skills in science, technology, engineering, and mathematics (STEM), and commerce in today's young population to build a steady stream of highly skilled and agile workers who will be essential to Sri Lanka's

deliver effective and safe COVID-19 vaccines. This was approved in December 2020.

ADB worked proactively with the government and the private sector in Sri Lanka to support preventive and response efforts to fight the COVID-19 outbreak in the country. In 2020, ADB mobilized or repurposed \$442.25 million in sovereign and nonsovereign operations for the COVID-19 response in Sri Lanka. Of this, \$9.0 million was in grants, \$362.45 million was new or repurposed sovereign loans, and \$70.8 million was guarantees or a credit facility

through the non-sovereign operations window. I recall that two days after the first infected Sri Lankan was reported on 11 March 2020, we repurposed a \$600,000 grant from the ongoing

The newly constructed control tower, of the Colombo port. The Colombo port expansion is an ADB-supported project that helps raise the main port to international levels thus assisting small and large scale importers and exporters in their activities.

The bridge at the Vavunikulam tank. The Vavunikulam tank is an ADB-supported project with a 3.5 km bund, a bridge, and a canal as an emergency project to restore and improve the livelihoods through economic infrastructure development in the conflict-affected areas in Vavunikulam.

## Excel Restaurants invests Rs. 160 mn for refurbishment, plans Rs. 200 mn development for Go Kart track

#### **Launches Brick Lane Coffeehouse**

**Brick Lane Coffeehouse at Excel World** 

Excel Restaurants Pvt. Ltd, under Browns Leisure Management, has transformed the ageing Excel World Entertainment Park with a touch of luxury and re-launched the venue investing over Rs. 160 million.

The group also plans to invest over Rs. 200 million to convert the old Go-Kart track to a mega entertainment and dining area similar to Clarke Quay in Singapore.

The long-standing and food counters operated by separate entities have been refurbished introducing an open kitchen and more spacious area with more amenities. The Bar area has been redesigned with new features while the first-floor banquet hall is one of the most sought after venues for wedding, family corporate events and other large gatherings "It's completely refurbished and could accommodate over 400

guests and we already have a good market for it," said Group General Manager Browns Hotels and Resorts, Executive Director, Excel Restaurants, Eksath Wijeratne.

Fulfilling another void to the Excel World Entertainment Park a Brick Lane Coffeehouse, serving an array of delicious cakes, bakes and coffees in a plush and tranquil setting was launched "This is an ideal place to while away the hours with coffee and cakes or grab a quick snack on the go. With its service as warm as the bread rolls straight from the oven, The Brick Lane Coffeehouse promises a relaxed and delectable experience for its patrons."

Operated by Excel Restaurants Pvt. Ltd, which manages a portfolio of prestigious restaurants and pubs in Colombo, The Brick Lane Coffeehouse cre-

## Sri Lanka Tourism approves Bolagala Floating Agro Tourism Resort in Katana

Bolagala Floating Agro Tourism Resort in Katana located close to the Negombo tourism hub will be the newest addition to the inventory of unique experiences for tourists visiting Sri Lanka.

This is the first-ever floating resort in Sri Lanka created adopting an agro-tourism theme consists of 50 floating cabanas, including 10 GPS tracker equipped cabanas that could freely move around the picturesque lake giving visitors an exceptional experience: floating swimming pool, floating restaurant, main restaurant, pub and karaoke lounge, underwater spa, gym are the main components of the project.

This sustainable tourism venture introduces the organic farming concept where the tourists are allowed to have hands-on experience of farming in Sri Lanka. This is the first time the organic farming concept is put into use in the Negombo area.

"Sustainable and eco-friendly products are the future for tourism particularly post COVID-19 and we look to the industry to be innovative and create unique experiences such as this project". Chairperson of Sri Lanka Tourism, Kimarli Fernando shared. She further thanked all the government agencies for their collaboration in granting approvals for a challenging project of this nature understanding the value of the project for the tourism industry in Sri Lanka.

The project proponent Kelum Perera is a Sri Lankan entrepreneur who succeeded in realizing his dream of converting abandoned clay mining pits filled with rainwater into a sustainable tourism project. Seeing the environmental devastation left by clay miners with deeply dug out land spaces that could not be used for any other purpose, Kelum Perera started an initiative to convert 13 acres to an agro and aquaculture tourist

A glimpse of Bolagala Floating Agro Tourism Resort

resort to restore the natural ecosystem and the scenic beauty which was once destroyed due to human activities.

The project is planned to be completed in two stages: 1st Stage, completion of 3 Suite Rooms, 27 Deluxe Rooms, 3 GPS Movable Rooms, a floating swimning pool and a restaurant.

swimming pool and a restaurant. In the 2<sup>nd</sup> stage the rest of the cabanas with the underwater spa and the other activity-based components. Underwater Spa is a unique feature incorporated into this project with 4 Spa rooms (Completely underwater), Each Room with a 4'x6' underwater viewing glass providing the opportunity to enjoy under-

water aquaculture while enjoying Spa facilities. The Project target is to cater to the high-end tourist segment charging above the US \$ 400 per night from mainly European countries. Representatives from international tour operators from Germany, France, UK & Italy have already visited the site to check hotel standards and quality to market it to their clientele. The Middle East market is also targeted in future. The first stage of the project is already completed and will be opening in June 2021 which Sri Lanka Tourism assumes will surely be a perfect match to the post-

COVID-19 tourism demand.

### Thambapanni Leisure wins ENTREPRENEUR OF THE YEAR awards

Thambapanni Leisure, Unawatuna won a Silver in the Provincial Large Category and became the first runner up in the 'Most Innovative Entrepreneur' Provincial category. The hotel group was the first Runner up in the national category as the 'Most Innovative Entre-

preneur."
"We are confident that

friendly beach house called Thaprobane Rooms & Restaurant and now has Thambapani Retreat, Thaproban Beach House, Thaproban Pavilion Resort and Spa and Thaproban Pavilion Waves.

The group's latest addi-

tion to their portfolio was Thaproban Galle Fort boutique hotel in Galle Fort with Ayura Holdings Pvt. (Ltd.).

## Hilton launches Liya Diriya, female career development programme

#### Aims to empower local women

Hilton Liya Diriya recipients with senior management of Hilton and Kimarli Fernando, chairperson of Sri Lanka Tourism. *Picture by Nishanka De Silva* 

Hilton in partnership with the Sri Lanka Institute of Tourism and Hotel Management (SLITHM) launched Hilton Liya Diriyan – a specially created female development program in

Translating to 'female courage,' Hilton Liya Diriya aims to provide training opportunities for local female students keen to build a career in hospitality. Selected participants will undergo two training phases to pick up practical knowledge, skills and experiences, involving a onemonth period dedicated to theoretical training with SLITHM and a six-month industrial traineeship at one of Hilton's properties in Sri Lanka.

The current local job involvement in women in Sri Lanka is around 10% while Hilton has around 14.5% female workers which are above the industry

average.

The establishment of the program is in line with Hilton's

Travel with Purpose 2030 goal of doubling its social impact investment, and underscores its continued commitment to ensuring inclusive growth, sustainable solutions and economic opportu-

nities for all, even during these unprecedented times. Furthermore, by empowering its female participants and enabling them to pursue a career in hospitality, Hilton Liya Diriya also aims to create a positive impact on the community by increasing the historically-lower labor force participation rate for women in Sri

On top of the training, participants will receive support from Hilton throughout the duration of the program, in the form of accommodation, allowance and mentoring. Upon graduation, they will also be awarded certifications, as well as employment opportunities at a Hilton property in Sri Lanka or abroad.

"Sri Lanka has shown immense potential for us over the years, evidenced by the resilience of the country, its promising tourism sector and ongoing improvements to infrastructure which have laid a strong foundation for us to kickstart our robust expansion plans," said Paul Hutton, vice president, operations, Hilton in South East Asia.

"Despite the challenges caused by the health pandemic, we continue to recognize its long-term prospects and have doubled down on our commitment to putting Sri Lanka on the global roadmap with the recent opening of DoubleTree by Hilton Weerawila Rajawarna Resort in November – our third Hilton property in the country." Hilton will add two more properties in Yala and Negombo soon.

"Through the introduction of Hilton Liya Diriya, we hope to leverage our scale and capacity to advance women's economic empowerment in the country by identifying and developing the best local talents, and I look forward to seeing them excel in their careers with us."

Kimarli Fernando, Chairperson of Sri Lanka Tourism, said: "We aspire to achieve a higher level of female participation in Sri Lanka's hospitality industry, especially in the skilled and value creation areas which would provide more opportunities for them to further their careers in the longer term. Currently women make up less than 10 percent of the hospitality workforce locally, compared to the 54 percent globally. This is a strategic change for Sri Lanka Tourism."

#### Galadari Colombo awarded 'SLIM People's Hotel Brand of the Year'

General Manager Sampath Siriwardena and Head of Marketing and Business Development Anuradha Wickramanayaka receive the award and The Galadari team

The Galadari Colombo was given thumbs up from the people selected as the People's Hotel Brand of the Year for the second time running at the recently concluded SLIM (Sri Lanka Institute of Marketing)

People's Awards 2021. The uniqueness of the SLIM People's Awards is the fact that it is awarded by the public which shows the popular choice of the Sri Lankan people.

This is the 15th successful

running of the much-anticipated event conducted by SLIM in association with Nielsen which is globally renowned for its measurement and consumer insights.

Having stood the test of

time in the hospitality industry for more than 3 decades the Galadari Colombo is hopeful to remain in the hearts of its people as a brand that is trustworthy and dedicated to service.

## **Emirates SkyCargo marks one year**

Emirates flight EK 2503 took off from Dubai to Kuwait. Although operated on a Boeing 777-300ER passenger aircraft, EK 2503 carried no passengers but about 34 tonnes of bellyhold cargo that was urgently required in Kuwait.

It was the first time in the histo-

ry of its operations that Emirates had operated a cargo only flight on a passenger aircraft. Coming just four days after COVID-19 had been declared a pandemic by the World Health Organisation (WHO), EK 2503 would be the first of more than 27,800 cargo flights to be operated by Emirates SkyCargo in the year that followed as the cargo carrier worked ceaselessly to keep communities across the world connected to the essential medical and food supplies they needed during the pandemic.

Nabil Sultan, Emirates Divisional Senior Vice President, Cargo said: "It has been exactly one year

since what was considered impossible in the air cargo industry became not just a reality but a strong operational pillar for Emirates SkyCargo."

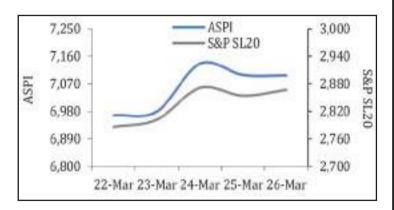

"In order to bolster the cargo capacity offered by our 11 Boeing 777 freighters and make sure that we could meet the urgent demand for goods such as PPE, ventilators and other pharmaceutical goods and food supplies from across the world, we proactively made a radical and innovative plan to utilise our widebody passenger aircraft to operate cargo only flights. Over the next few weeks, as regular pas-

senger operations were completely suspended, we started increasing our passenger freighter flights to a point where we had close to 90 passenger aircraft being used for cargo operations.

"Our team worked tirelessly to flesh out a new business model from the ground up- seeking approvals from authorities, drawing up a new route network, drafting new operational and safety guidelines and speaking to our customers around the world – to make sure that as a socially responsible carrier, we were able to maintain essential supplies of cargo into markets and at the same time sustain exports around the world in challenging economic conditions."

"Our passenger freighter strategy has been the backbone of our operations during the pandemic transporting cargo to more than 125 destinations across six continents."

#### **BUSINESS**

## Market recovers with positive economic outlook - Acuity Stockbrokers

positive note this week with ASPI increasing by 243.07 points (or 3.55%) to close at 7,097.39 points, while the S&P SL20 Index also increased by 109.21 points (or 3.96%) to close at 2,866.66 points.

#### Iran, China sign 25-year deal

signed a 25-year strategic cooperaic issues amid crippling US sanctions on Tehran, according to Iranian state media.

The agreement, dubbed the Comprehensive Strategic Partnership, covers a variety of economic activity from oil and mining to promoting industrial activity in Iran, as well as transportation and agricultural collaborations, according to the report.

No additional details of the agreement were revealed as Iran's Foreign Minister Mohammad Javad Zarif and Chinese counterpart Wang Yi took part in a ceremony marking the event.

The New York Times reported that China will invest some \$400 billion in Iran in exchange for oil as part of the deal. The two countries will also step up military cooperation with joint training, research and intelligence sharing, the report said. China is Iran's leading trade partner and was one of the biggest buyers of Iranian oil before then US president Donald Trump reimposed sweeping unilateral sanctions in unilaterally out of Iran's nuclear deal 2018 after abandoning a multilateral

Iran and China on Saturday nuclear agreement with Tehran. The deal signed Saturday could tion agreement addressing econom- undermine US leverage over Iran ahead of expected negotiations and lessen American influence in the Middle East. Ongoing US sanctions against Iran could hamper its trade with China despite Saturday's agreement, however.

The Times report said Iran was prepared to host direct talks between Israel and the Palestinians, further suggesting that US influence in the region could be waning.

The deal also supports tourism and cultural exchanges and comes on the 50th anniversary of the establishment of diplomatic relations between China and Iran. The two countries have had warm relations and both took part in a joint naval exercise in 2019 with Russia in the northern Indian Ocean.

Reportedly, Iran and China have done some \$20 billion in trade annually in recent years. That's down from nearly \$52 billion in 2014, however, because of a decline in oil prices and US sanctions imposed in 2018 after Trump pulled the US with world powers. (Times of Israel)

Iranian Foreign Minister Mohammad Javad Zarif and his Chinese counterpart Wang Yi, pose for a picture after signing an agreement in the capital Tehran, on March 27, 2021.

The financial information summarised above has been extracted from HSBC Holdings plc annual report for the year ended 31 December 2020.

#### SUMMARY OF HSBC HOLDINGS PLC CORPORATE GOVERNANCE REPORT 2020

The information set out below and information incorporated by reference is a summary of the Corporate Governance Report of HSBC Holdings plc ('HSBC') contained on pages 196 to 265 of the Annual Report and Accounts 2020 (the 'Annual Report').

#### The Board, its role, Director's responsibilities, attendance and power

The Board aims to promote the Group's long-term success and deliver sustainable value to shareholders and promote a culture of oneness and debate. The Board, led by the Group Chairman, is responsible among other matters for promoting the Group's long term success and delivering sustainable value to shareholders; establishing and approving the Group's strategy and objectives and monitoring the alignment of the Group's purpose, strategy and values with the desired culture; setting the Group's risk appetite and monitoring the Group's risk profile; approving and monitoring capital and operating plans for achieving strategic objectives; and approving material transactions. The Board's

#### powers are subject to relevant laws, regulations and HSBC's articles of association. Chairman's Committee

the Chairman's Committee is convened to provide flexibility for the Board to consider ad hoc Board and routine matters between scheduled Board meetings. It meets with attendees determined by the nature of the proposed business to be discussed.

#### Relationship between Board and senior management

The Board delegates day-to-day management of the business and implementation of strategy to the Group Chief Executive. The Group Chief Executive is supported in his day-to-day management of the Group by recommendations and advice from the Group Executive Committee ('GEC'), an executive forum that he chairs comprising members of senior management.

#### Nomination and Corporate Governance Committee

The composition of both the Board and its Committee continued to be a key focus during 2020, with progress made in ensuring that the Board possesses the necessary expertise to oversee, support and monitor management performance based on the longer-term strategy and developments in the external environment.

The Committee's priorities in 2021 will continue to be composition, succession and development of

the Board, as well as efforts to enhance the Group's diversity, talent and bench strength for key executive positions. In developing our talent, the Committee will continue to focus on the promotion of diverse candidates to ensure that the Group Executive Committee and other senior management are representative of the customers, communities and markets in which we operate. As our strategy develops, we know that the skills and capabilities we require will evolve and the Committee has a key

#### Group Audit Committee (GAC)

The Committee's key responsibilities are to monitor and assesse the integrity of the financial statements, formal announcements and regulatory information in relation to the Group's financial performance as well as significant accounting judgements. Reviews the effectiveness of, and ensures that management has appropriate internal controls over, financial reporting. Reviews and monitor the relationship with the external auditor and oversees its appointment, tenure, rotation, remuneration, independence and engagement for Non-Audit services. Oversees the work of Global Internal Audit and monitors and assesses the effectiveness, performance, resourcing, independence and standing of the function.

#### Group Risk Committee (GRC)

The GRC has overall non-executive responsibility for oversight of risk-related matters and the risks impacting the Group. The GRC's key responsibilities includes: Advise the Board on risk appetite-related matters, including the Internal Capital Adequacy Assessment Process (ICAAP) and Internal Liquidity Adequacy Assessment Process (ILAAP), as well as recovery and resolution planning. Oversee and advise the Board on all risk-related matters, including financial risks, non-financial risks and the effectiveness of the Group's conduct framework; undertaking a review and challenge of the Group's stress testing exercises; and review the effectiveness of the Group's enterprise risk management framework and internal controls systems (other than internal financial controls overseen by the GAC). Undertake review and challenge of the Group's stress testing exercises.

#### Group Remuneration Committee

The Committee is responsible for setting the over-arching principles, parameters and governance framework of the Group's remuneration policy, and the remuneration of executive Directors and other senior Group employees. The Committee regularly reviews the Group's remuneration policy in the

context of consistent and effective risk management and the regulatory requirements of multiple jurisdictions. No Directors are involved in deciding their own remuneration. All members of the Committee are independent non-executive Directors of HSBC Holdings.

#### Internal Control

The Board is responsible for maintaining and reviewing the effectiveness of risk management and internal control systems, and for determining the aggregate level and types of risks the Group is willing to take in achieving its strategic objectives. To meet this requirement and to discharge its obligations under the FCA Handbook and the PRA Handbook, procedures have been designed for safeguarding assets against unauthorized use or disposal; for maintaining proper accounting records; and for ensuring the reliability and usefulness of financial information used within the business or for publication. These procedures can only provide reasonable assurance against material mis-statement, errors, losses or fraud.

#### Financial Reporting

The Group's financial reporting process is controlled using documented accounting policies and reporting formats, supported by detailed instructions and guidance on reporting requirements, issued to all reporting entities within HSBC in advance of each reporting period end. The submission of financial information from each reporting entity is subject to certification by the responsible financial officer, and analytical review procedures at reporting entity and Group levels.

#### Disclosure Committee

Chaired by the Group Chief Financial Officer, the Disclosure Committee supports the discharge of the Group's obligations under relevant legislation and regulation including the UK and Hong Kong listing rules, the Market Abuse Regulation and US Securities and Exchange Commission rules. In so doing, the Disclosure Committee is empowered to determine whether a new event or circumstance should be disclosed, including the form and timing of such disclosure, and review all material disclosures made or to be made by the Group.

#### Interim Financial Statements For the year ended 31st December 2020

#### **FAIR VALUE DISCLOSURE OF FINANCIAL INSTRUMENTS**

The Group measures the fair values of financial instruments using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

#### Level 1: Fair value measurement using unadjusted quoted market prices

When available, the fair values of financial instruments are determined using quoted market prices (unadjusted) in active markets for identical instruments. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis. Accordingly, the fair values of treasury bills and bonds have been derived using the market yields and market prices published by Central Bank of Sri Lanka while fair value of quoted equity securities and Sri Lanka Sovereign Bonds have been valued using the quoted market prices as at the reporting date.

#### Level 2: Fair value measurement using significant observable inputs

In the absence of an active market for a financial instrument, the fair value is determined using quoted market prices in active markets for similar instruments or quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques in which all significant inputs are directly or indirectly observable from market data. The spot and forward premiums available as at the reporting date have been used to estimate the fair value of derivative financial instruments while the fair value of unquoted units have been measured using manager's selling prices. The fair values of financial assets and financial liabilities carried at amortised cost have been estimated by comparing the interest rates when they were first recognised with the current market rates of similar instruments.

#### Level 3: Fair value measurement using significant unobservable inputs

Financial instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation.

There are no material changes in the fair value of financial assets categorised under Level 3 compared to the values reported as at 31st December 2019. The Group has not changed the valuation models and assumptions used to measure the fair values of Level 3 financial instruments during the year ended 31st December 2020.

The carrying values of assets and liabilities listed below are reasonable approximation of their fair values since, those are short term in nature or re-priced to current market rates frequently:

Assets	Liabilities
Cash and cash equivalents	Due to banks
Balances with Central Bank of Sri Lanka	Securities sold under repurchase agreements
Placements with banks	Other borrowings
Securities purchased under resale agreements	Dividends payable
Other assets	Other liabilities

#### **EXPLANATORY NOTES**

- 1. The figures are extracted from the audited financial statements for the year ended 31st December 2020. External Auditors of the Group/Bank, M/s KPMG carried out an audit for the year ended 31st December 2020 and expressed an unqualified opinion on the financial statements of the Bank and the Group for the year ended 31st December 2020.
- 2. There are no changes in accounting policies and methods of computation since the publication of annual accounts for the
- There are no material changes during the period in the composition of assets, liabilities and contingent liabilities and use of funds raised through debentures. All known expenditure items have been provided for.
- 4. Impact of COVID 19

The Covid 19 outbreak in March 2020 followed by the second wave continues to pose challenges due to uncertainties and limitations faced by businesses and industries both locally and globally which in turn has implications on the operations of the Bank/Group. Required adjustments have been made for the potential implications in these financial statements based on the available information and application of judgment as at Reporting date. The Board will continue to monitor the implications and make adjustments, if required.

#### Expected Credit Loss Assessment and computation

The Bank has reassessed the Probabilities of Default (PD), Loss given Default and Economic factor adjustment as at December 2020 and made required adjustments. In respect of the loans subject to moratorium, stage assessment was made based on conditions which prevailed prior to granting of the moratorium unless specific information were available indicating subsequent increase in credit risk. Further, significant increase in credit risk was assessed using qualitative, quantitative and industry specific factors and allowance for overlay has been made based on stress testing of exposures in the risk elevated sectors. The actual losses may differ from the assessment due to the uncertainty. Bank has made adequate impairment provisions as at 31st December 2020 to ensure that the potential impact to its loan book is adequately covered in the Financial Statements.

#### Reclassification of investment in Sovereign Bonds previously measured at Fair Value Through Other Comprehensive Income as measured at Amortized cost category

The Bank re-classified its Sovereign Bond Portfolio consequent to the changes to the business model of managing the assets with effect from April 01, 2020 as per the Guidance Notes issued by CA Sri Lanka on Accounting Consideration of the Covid 19 Outbreak (updated on May 11, 2020). Accordingly, Sovereign Bond investments amounting to Rs 47 Bn which were previously classified as Financial Assets Measured at Fair Value Through Other Comprehensive Income (FVOCI) were re-classified as measured at Amortised Cost. There was no change to the effective interest rate used and interest revenue recognised for the reclassified assets for the year ended 31st December 2020.

#### Basis adopted in the impairment assessment of foreign currency denominated government securities

Bank recognised additional impairment provision against its investment in Sri Lanka Development Bonds (SLDBs) and Sri Lanka International Sovereign Bonds (SLISBs) during the year, owing to the downgrading of the country's sovereign rating during the year.

#### 5. Reduction of income tax rate w.e.f 1st January 2020

The Cabinet has approved the reduction of the income tax applicable to the Banking Sector to 24% from 28% with effect from 1st January 2020. The said amendment is yet to be approved by the Parliament and cannot be considered as substantially enacted as at reporting date. As such the Bank continued using 28% in calculating the income tax and deferred tax liabilities/assets as at 31st December 2020. The Bank has a cumulative net deferred tax asset of Rs 5,145.4 Mn recognised through the Statement of Profit or Loss and net deferred tax liability of Rs 4,338.9 Mn recognised through Other Comprehensive Income (OCI).

Had the Bank applied the reduced income tax rate of 24% to calculate deferred tax assets/liabilities as at 31st December 2020, an additional deferred tax expense of Rs 735 Mn and reversal of Rs 619.8 Mn would have got charged to the Income statement and reversed from OCI respectively for the year ended 31st December 2020.

#### 6. Proposed dividends

The Directors recommend that a final dividend of Rs. 8.00 per share (Rs. 4.50 in the form of cash and Rs. 3.50 in the form of scrip) on both voting and non voting shares of the Bank, be paid for the financial year ended 31st December 2020. The final dividend is to be approved at the Annual General Meeting to be held on 30th March 2021. In accordance with Sri Lanka Accounting Standard LKAS 10 "Events after the reporting period", this proposed final dividend has not been recognised as a liability as at 31st December 2020.

- There are no material events that took place after the balance sheet date which require adjustment or disclosure in the financial statements other than as stated above.
- 8. The consolidated financial statements of the Bank cover the Bank and its subsidiaries HNB Assurance PLC, Sithma Development (Pvt) Ltd, HNB Finance PLC and the Group's interest in Joint Venture Acuity Partners (Pvt) Ltd.
- 9. These interim financial statements are presented in accordance with Sri Lanka Accounting Standard LKAS 34 "Interim Financial Reporting" and provide the information as required in terms of Rule 7.4 of the Colombo Stock Exchange.
- Where required, figures on the audited annual financial statements have been reclassified to conform to Central Bank of Sri Lanka publication requirements
- $11. \quad \text{The funds raised through debentures were fully utilised for the objectives mentioned in the prospectuses}.$

**ADITHA DISSANAYAKE** 

thin the covers of certain books words come together to create stories that are mirrors of ordinary lives. On the pages of such books we meet matchmaking mothers, miserly old men, innocent governesses and righteous shepherds. On the pages of certain other books, penned by different hands, different words come together to open a door into an idyllic paradise. These books invite us to disappear into the woods for a while. To live in a single-room wooden hut, to go to bed when the sun sets and wake up when it rises. To lay on the sandy shore of a pond glittering with crystal clear water and listen to the birds singing an opera in the trees and the soft footsteps of the deer on the green grass growing nearby. Ah, the bliss of tran-

Such a book is Henry David Thoreau's 'Walden.' At the age of 27, having graduated from Harvard, taken up a job as a teacher and resigned after only two weeks, Thoreau accomplished a dream all of us nurture at some point in our lives. In 1845 he went to live in the woods near Concord, Massachusetts, building a single-room cabin on the land owned by his friend and mentor, Ralph Waldo Emerson. "I wished to live deliberately, to front only the essential facts of life, and see if I could not learn what it had to teach, and not, when I came to die, discover that I had not lived," was how he explained his unusual decision. He also added, "I wanted to live deep and suck out all the marrow of life, to live so sturdily and Spartan-like as to put to rout all that was not life.'

Thoreau lived in his cabin in the forest for two years, two months and two days, later recording the experience as the journal of a single year onto

the pages of 'Walden.' Echoing Indian spiritual writings, he describes why he chose a frugal lifestyle. He argues, we clutter ourselves with possessions and responsibilities to the extent that we prevent ourselves from enjoying what we have. Rejecting the work ethic that's a central component of the American Dream, he says "we have become the slave-drivers of ourselves", and writes of the "seemingly wealthy, but most impoverished class of all, who have accumulated dross, but know not how to use it, or get rid of it, and thus have forged their own golden or silver fetters." Thoreau's views apply to the 21st century too. Productivity and economic growth are often seen as intrinsically desirable, but sadly, at what cost?

As critic Linda Newberry writes, Thoreau records details of his diet and plant husbandry, claiming that only thirty or forty days' work in a year were needed to support himself. Although not strictly vegetarian ( he regularly caught and ate fish from the lake) he wrote, "I believe that every man who has ever been earnest to preserve his higher or poetic faculties in the best condition has been particularly inclined to abstain from animal food." In hunting and fishing, he finds "something essentially unclean about this diet and all flesh ... when I had caught and cleaned and cooked and eaten my fish, they seemed not to have fed me essentially ... It cost more than it came to." Clearly his vision of

> the future is made of a world where the human race no long-

er eats animals. Apart from descriptions of a spartan existence, Thoreau also describes the natsurroundings ural around him. Some of the most beautiful writing in Walden focuses on the waters of the lake at various times of year, and the birds and animals who inhabit it. Thoreau's deep interest in the natural world led to the making of detailed observations of what we now call ecosystems long before ecology became a distinct scientific discipline. In particular, he was interested in how forestry regenerates after individual trees have been destroyed by fire.

In the Chapter titled Ponds Thoreau provides as near to a concise summary description of Walden Pond as can be found in the book:

"The scenery of Walden is on a humble scale, and, though very beautiful, does not approach to grandeur, nor can it much concern one who has not long frequented it or lived by its shore; yet this pond is so remarkable for its depth and purity as to merit a particular description. It is a clear and deep green well, a half a mile long and a mile and three quarters' in circumference, and contains about sixty one and a half acres, a perennial spring in the midst of pine and oak woods, without any visible inlet or outlet except by the clouds and evaporation.'

By Thoreau's own admission, Walden was a place of understated beauty and not what we would now refer to as iconic or epic beauty. It was very humble in its origin. After all, Walden was only a couple of miles away from Concord Massachusetts. And Concord, they say, was not a remote spot even by the standards of the Nineteenth century. But to Thoreau, Walden Pond was extraordinary in several ways. The most important was its depth and purity. Thoreau mentions that the shoreline drops so suddenly that one could take one step into the water and already lose touch with the ground and that no one knew for certain the absolute depth of the pond. The water is so pure that in the right light one's ability to see into the water appears almost unlimited.

Capturing the essence of mindfulness, Thoreau writes, "I have been anxious to improve in the nick of time ... to stand on the meeting of two eternities, the past and future, which is precisely the present moment.

It should be noted, however, 'Walden' was not and is not to everyone's taste. Thoreau has been derided for merely playing at selfsufficiency, regularly returning to his mother with his laundry; Bill Bryson dismissed him as "inestimably priggish and tiresome". E.B. White, quoted by John Updike in a new introduction, was an admirer, but conceded that Thoreau sometimes wrote as if "all his readers were male, unmarried, and well-connected". (He also assumes, they are scholars in Western Classics the text is liberally scattered with allusions to Greek and Roman mythology.) The tone can be preachy, and he is given to making the same point several times, as in the chapter on Economy. Thoreau also can be patronising, as in his famous pronouncement that "The mass of men lead lives of quiet desperation." To a modern ear he is misogynistic, rarely mentioning women.

It is also said the land he lived on, which belonged to Emerson was only a mile away from Emerson's residence and he would often dine at his friend's dinner table. He was within hearing distance of the bells of Concord. He also did odd jobs for his mom for doing his laundry and for other people in Concord in exchange for meals. So Thoreau did not accomplish the status of a complete hermit at Walden. Clearly, he wasn't so completely self-sufficient as many think.

Nonetheless, he makes us take a moment and really think about what is important. He brings to light those things we have pushed way down in our conscience. Once we get a glimpse of his life in Walden we are inspired to connect with the natural surroundings around us, to fall in love again with a vision of a more perfect world, and to do good, honest work that is in line with the values of all religions on earth.

To end with two of my favourite Thoreau quotes: "If one advances confidently in the direction of his dreams, and endeavors to live the

life which he has imagined, he will meet with a

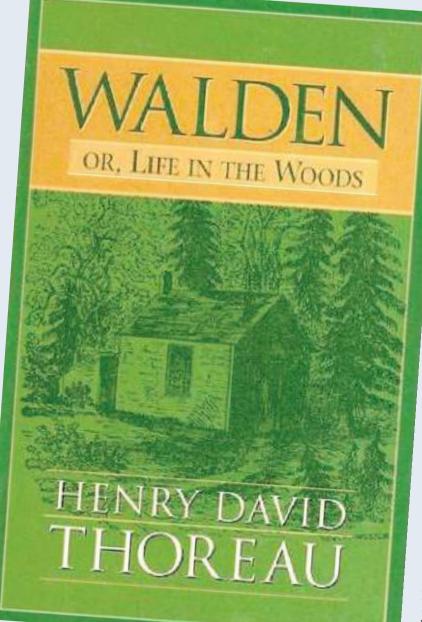

success unexpected in common hours." And, "Our truest life is

when we are in dreams

#### RE-IMPLEMENT YOUR RAND PARENTS **Butterflies in the** home garden **ISHARA JAYAWARDANE** ing plants without using ife is beautiful and all living soil. Plants are grown by beings are beautiful. Even using water solutions. It is

ugly old Mr. Spider plays a role in maintaining the balance in the home garden. He does it through that remarkable and beautiful web of his. This is because insects too act as carriers of diseases or contribute to spreading such microbes. One simple example is when there are no spiders in the garden, many flying insects will increase, because when there are no cobwebs these insects can fly freely without getting caught. So, they may be carrying microbes. What about the butterfly? Butterflies play a number of roles in the ecosystem and in our home garden. They act as a pollinator and as a food source for other species. Nearly 90 percent of all plants need a pollinator to reproduce and the butterfly makes this happen. Just because Mr. Spider is not that colorful we denigrate it. Green Thumbs speaks to Co-Founder Green Care Organic, Brand development and export consultant, Udara Rathnayake, on all things small and

We know that the home garden can only thrive if it is biodiverse. We know that the bee plays a vital role when it comes to pol-

lination. If there are bees in your home garden, then all the plants in your home garden will have more pollinators giving you lots of fruits. What about earthworms? Without earthworms there is no healthy and rich

#### Value of biodiversity

"Inviting creatures into your home garden is not a new thing. When we were children everyone had small home gardens full of birds and small insects. Our grandparents always kept a small space for them. As a result, these animals begin to trust humans. But now we are using so many of these artificial chemicals to get rid of so called pests and by doing so we upset the balance in the home garden killing off so many living beings and disrupting the food chain and the biodiversity in the home garden. We need to understand the value of these creatures and the biodiversity. The best thing is to re-implement our grand parents' practices in our home garden," said Rathnayake

She added that most people think they need a big space for gardening. That is a wrong notion. Your space may be somewhat small but you can still create a garden. Now we have new technologies such as the small hydroponic system. Hydroponics is a type of horticulture which is a method of growa water based planting method.

"We can add these technologies to our home garden. If you have a small balcony you can keep some fruits and food for the birds and invite them to your small home garden. If you have a fairly moderate home garden you can even put up a nest box in your

garden to invite different kind of birds. You can also do this by offering drinking and washing facilities for birds," stated Rathnay-

Finally, it's important to remember that yes, your garden birds may eat a few of your crops if you are growing fruits and vegetables. But they are also chomping on insects that would otherwise be harming your plants. It's all about getting that balance in your home garden. Your beautifully balanced home garden is sure to boost your spirits when you see birds and butterflies appearing in your home garden. It is good fun and your home garden will thrive giving you plenty of nutritious foods and vegetables while giving you great aesthetic pleas-

In your home garden both the prey and the predator is very important for the functioning of your home garden. The food chain is a very important part of your home

#### **Maintaining the** food chain

"This is very important for gardening as well as farming. Do you know your home garden is a very busy place as it maintains the food chain naturally? The grass uses

sunlight, water, and carbon dioxide to make its own food. Like all plants, grass is a primary producer in the food chain. The grass grows and makes more food energy than it needs. Some of the food energy is stored in the plant as grass seed. Worms come to eat the grass and then birds and butterflies come to eat the worms. Also plants and animals that live in your garden are influenced by the top predator's choice in prey and the amount of prey it consumes. It is a natural top down system. Trophic (relating to feeding and nutrition) refers to the levels in a food web, such as primary producers and consumers. The top predator effect trickles down the other trophic levels, indirectly affecting each level," explained Rath-

**Udara Rathnayake** 

nayake. Only thing is we must use the correct gardening methods and not applying chemicals to get more harvest. If you are using natural methods there will be more worms and butterflies in your home garden. Maintaining the food chain is a very natural thing and it should happen naturally. The garden is a great place to observe the food chain and learn about its importance. It is all interconnected and it will sustain the biodiversity in your garden.

#### Say no to artificial fertilizers

We impede the functioning of these all important members of our home garden by using artificial fertilizers. These various

chemicals are very harmful to the members of our home garden that support its biodiversity. In previous articles we have discussed growing natural disease controlling/repelling plants among other plants in the garden. This is also a very traditional method. For example, growing Das Pethiya (Marigold), garlic, onions, tulsi, basil or even Lemmon grass among other plants will help to reduce pathogen attacks or some insects. We can even spray a solution - The main ingredients are, neem leaves and oil, castor oil, garlic, ginger, green chilies or kochchi, lemmon grass, citronella grass or oil, das pethiya leaves, cow urine and wood

"There are so many natural pesticides and ways to chase away the harmful insects. We have to focus on biological control methods and using of natural substances extracted from trees (Neem seeds, red onions and marigold). There are various measures of dealing with pests through ecological pest control methods (managing them in a safe and eco-friendly manner). Depending on the severity of the damage caused by the pests, we as human beings, have to use different tactics to handle these little bugs," said Rathnayake.

She added that a home vegetable garden can give you all kinds of benefits such as health and prosperity. It offers you a chance to save money on groceries while enjoying homegrown flavor and freshness. It can also be a way to eat organic food and you can try new varieties of produce that you can't easily get at the store. Home Gardening is also a healthy outdoor activity that gives you exercise while being relaxing. It also involves the family and in this day and age because of the rat race we don't get much time to spend with our loved ones. So it brings the family together. Also it gives you the option of kitchen waste composting.

**REBEKAH PIERCE** hat if you could grow a beautiful, productive garden in a pile of garbage? Well, you can - and contribute to a greener environment at the same time! Tire gardening is a great way to recycle old rubber tires to maximize your yields and minimize the amount of work it takes to produce a successful garden. It's easy to start your own tire garden — as long as you pay attention to a few tips and pieces of cautionary advice.

#### **BENEFITS OF TIRE GARDENING**

There are plenty of benefits to tire gardening — depending on who you ask. Here are a few:

1. Recycles old materials

Did you know that on an annual basis, nearly 300 million tires are discarded in the United States? It is very difficult to dispose of tires, as most landfills ban them and getting rid of them legally is extremely expensive. The costs get even higher when it comes to disposing of

ting around, wasting space.

Some people burn tires, which is not safe. It releases dangerous chemicals like polycyclic aromatic hydrocarbons, styrene, and benzene into the air, all of which are human carcinogens.

There are some ways to recycle old tires, like reusing the rubber for athletic turf or playgrounds and swings. Using tires to grow vegetables is a great way to use up these tires and it is the perfect green solution.

There are some arguments – which I'll address in more detail below – that claim tires are filled with chemicals and metals and therefore are not safe containers. However, other studies suggest that those toxic materials are released only when tires are burned and that leaching is small, if existent at all.

2. Easy to do Unlike a raised bed made out of wood or stone, building a vegeta-

ble garden in a tire requires virtually no construction. You grab a tire, plop it in the garden, fill it with soil, and plant. That's almost all there is to it! 3. Warms and

dries soil quick-

If you are unfortunate enough to suffer from wet, clay soil - as I do - a tire garden is a perfect solution. Not only will a tire help warm up the soil faster, providing the perfect environment for growing things like sweet potatoes and tomatoes, but it also stays drier, too. The water

STARTING VEGETABLE GARDENS USING

drains more effectively from the tire than it does from poor-

It also allows for deeper soil if you have hard-packed ground. Clay soil is difficult for the roots of many vegetables – like carrots and potatoes – to penetrate. A tyre garden is a good perfect solution because you can fill it with loose, airy

#### soil at least several feet deep. 4. Allows for early planting

For the same reason as mentioned above, a tire garden can be planted much sooner than crops in other areas of your garden. Not only will you not need to worry about your tire

garden flooding out in a heavy rainstorm, but the soil will stay more protected from frost and intense cold, too. You may be able to move your planting up by several weeks or more.

A piece of advice, though — even though you can plant earlier in the season, I wouldn't recommend planting cold-hardy crops that you expect to grow all summer long in the tire garden. This applies even if you are planting in early spring. An example would be broccoli that you want to cultivate all spring, summer, and autumn long.

While the broccoli will likely do quite well in the early spring and late fall, the tire will get too warm during the hottest day of summer.

#### 5. Less maintenance

While your watering and fertilizing needs will likely stay about the same, you'll find that you have much less weeding to do when it comes to your tire garden. Since the garden is elevated, it's less likely that weed seeds will make their way into the garden and cause you additional

A tyre garden is also a great idea if you are gardening in a cramped space – such as an urban garden.

#### **HOW TO START A VEGETABLE**

**GARDEN IN A TYRE** 1. Find and cut Your Tire

First, start by locating and cutting your tire. I recommend the largest tire you can find - like one from a trac-

Check around with local service stations, farms, and other sites. You should never have to pay for the tires because people are always trying to get rid of them.

You will then want to cut the interior rim out of the tire with a saw. This will give you more planting area without an extra "lip" to contend with.

#### 2. Prepare the soil

Put your tire in a sunny location. Fill it with loose, fertile soil and a bit of compost. It's going to take a lot of soil to fill your tire, so you will have to plan ahead for this.

You can sterilize the soil if you'd like. To do this, place a layer of plastic over the soil and leave it there for several weeks (I usually do this over the course of the late fall into the early spring). The plastic can actually remain on the soil if you'd like after you plant, as it can be used to create a miniature solar greenhouse.

#### 3. Plant and harvest as usual

Once your tire is in place and you have filled it with soil, it's time to plant. Your planting process, along with all other care requirements from weeding, watering, fertilizing, and harvesting will be exactly the same as they would be if you were growing in any other kind of raised bed system. It's as simple

#### PROCUREMENT NOTICE

In concurrence with the National Programme of producing Turmeric requirement, within the country itself the Department of Export Agriculture intends to purchase 45 tons of seed turmeric for the programme of establishment of seed turmeric gardens, implemented by the Department of Export Agriculture.

Since the head office of the Department of Export Agriculture, Peradeniya expects to purchase seed Turmeric at a price of Rs. 400.00, per one kg the prospective interested suppliers able to supply a lot of seed turmeric of more than 500 kg are invited to inform the quantity of seed turmeric, able to supply by registered post, or hand delivered mentioning the amount, able to supply to following address.

#### Chairman,

**Procurement Committee,** Department of Export Agriculture,

1095, Sirimavo Bandaranaike Mawatha,

Peradeniya.

If forwarded by Fax: Fax No. :- 081-2085232

If despatched by post, the caption to the effect "Supply of Seed Turmeric", should be clearly indicated on the top left hand corner of the envelope by the suppliers.

The turmeric (rhizomes) supplied should be free of disease, and pests and should be seeds (rhizomes) in germination stage, obtained from a cultivation, of 9 months or over old Rhizomes should be free of roots sand, soil and dirt, should not be of main tuber or offshoots, included and should be free of dry and shrinked seeds, should be free of planted new sprouts, shoots (Rose coloured sprouts).

At the time of purchases, a nominated officer of the Department will hold a random sample test, to be satisfied whether the above conditions are existing, if the officer satisfied at the inspection the Department will purchase the stocks and get them transported by Dept. itself.

(In case we are not satisfied with the relevant conditions at the inspection as required the Department will reject the seed turmeric to purchase)

The minimum quantity to be supplied by a supplier, should be 500 kg or over, and purchases will be carried out as per the order of receiving quotations.

Telephone No. 081-2388651 - Ext. 140

Director General, Department of Export Agriculture, 1095, Sirimavo Bandaranaike Mawatha,

#### SRI LANKA TELECOM TENDER NOTICE

TENDER FOR PURCHASE OF T-SHIRTS & SHIRTS FOR SLT STAFF

(Tender No: L/0230/2021)

Tenders for the captioned subject will be accepted by the undersigned, up to 10:00 hrs. on 20th April 2021.

Tender documents could be obtained via e-mail during office hours commencing from 10:00 hrs. on 29th March 2021, till 7 working days from the date of publishing of this tender by producing duly signed Non-Disclosure Agreement and the receipt obtained after payment of the non -refundable Tender Fee of Rs. 1,000.00 + Tax to any teleshop or cash counter of Sri

Sealed tenders shall be sent by hand or by registered post, addressed to the undersigned to reach him before closing the tenders at 10:00 hrs. on 20th April 2021.

Tenders will be opened immediately thereafter in the presence of the SLT officials.

For further details regarding Non-refundable deposit, Non- Disclosure Agreement and collecting of tender documents. please call 011-3090662.

- All bids will be opened at the same address on 20<sup>th</sup> of April 2021 at 10.15 a.m. in the presence of the bidders' representatives who choose to attend. Late bids will be returned unopened.
- 6. Bid security should be addressed to Director General, Department of National Community Water Supply, No. 1114, Pannipitiya Road, Thalawathugoda.

**Department Procurement Committee, Department of National Community Water Supply,** No. 1114, Pannipitiya Road, Thalawathugoda 29/03/2021

For classified advertisements and for replies

received in response to advertisements published under Lake House box numbers

In pursuit of our objective of improving the quality of supply and service to the consumers, Ceylon Electricity Board intends to attend to construction, rehabilitation and maintenance works in the localities listed below. As a result, the electricity supply would be interrupted to those areas on the dates/times mentioned. We regret any inconvenience caused to the consumers in these areas as a result of these interruptions to our services. Ceylon Electricity Board would take all steps to restore the electricity supplies as soon as the planned works are completed.
