PREVENTION OF WASTE

18. (1) The Chairman may, whenever he has reason to believe that the arrangements, size, position, nature or condition of any pipe, tap, valve, or other fittings forming part of the private service on any premises connected with the Committee's waterworks, is likely to lead to waste, misuse, undue consumption or contamination of the water supplied from the water works for public or private use, or is likely to be prejudicial to the proper control and distribution of water from the waterworks, serve a notice in Form B set out in the Schedule hereto upon the owner of the premises.

(2) Every such notice shall specify the alteration which the Chairman consider necessary, and such alteration shall be made by the owner to the satisfaction of the Chairman within such period as may be specified in the notice.

(3) In the event of the name or residence of the owner being unknown, the notice shall be deemed to be duly served on the owner if it is affixed in a conspicuous place upon the premises to which it relates.

19. The Chairman shall withhold, suspend, or diminish the supply of water to any premises or disconnect a private service pipe-line on those premises from the Committee's mains or waterworks—

(a) at the request of the owner or occupier of such premises; or

(b) if the construction of any such service pipe by the owner or the occupier of such premises is not carried out or altered in accordance with the provisions of these by-laws; or

(c) if any act or thing is done or omitted to be done by the owner or the occupier of such premises contrary to the provisions of these by-laws relating to damage or pollution of the waterworks or waste or the misuse of water.

20. The occupier of a house or premises to which a private water service has been laid from the Committee's waterworks shall immediately notify the Chairman whenever the water is running to waste from any tap, pipe or other fittings forming part of such service. Whenever a change of occupier takes place in such house or premises, the incoming occupier shall notify such change to the Chairman within forty-eight hours after the change takes place.

21. Whenever water is found running to waste from any tap, pipe, or other fitting forming part of the private water service on any premises the Chairman or any person authorised by the Chairman in that behalf may at once disconnect the service from the Committee's mains and such service shall not be reconnected until the cause of the waste is eliminated by the owner or the occupier of the premises.

22. The amount estimated by the Chairman as the cost of re-connecting to the Committee's mains or waterworks any private service pipe disconnected on any of the grounds set out in by-law 18, shall be paid by the owner of such premises in advance to the Committee. The unexpended balance, if any, shall be returned to the owner on the completion of the work. In the event of the actual cost exceeding the estimated cost, the amount of the excess shall be paid by the owner forthwith on the completion of the work.

23. The Chairman may, without any prejudice to any water rate, or other sums which may be or become due under the Ordinance or these by-laws, withhold, diminish or divert the supply of water through any main, public fountain, service pipe or other appliance connected to the Committee's waterworks either wholly or in any part whenever the Chairman is satisfied—

(a) that the water available in the waterworks is insufficient; or

(b) that such action is expedient or necessary for the purpose of extending, altering or repairing the mains or waterworks or for the purpose of the connection of service pipe to mains; or

(c) that such action is expedient or necessary by reason of any damage caused to a public stand-pipe or any pollution or waste of the water thereof; or

(d) that damage is caused, or likely to be caused to the waterworks by an outbreak of fire.

24. The stopcock or valve of each private service and the part of the service pipe between the stopcock or valve and the main shall be deemed to be the property of the Committee, and the cost of the maintenance, repair or renewal of that part shall be borne by the Committee: Provided however, that if the damage was caused to such part by any wilful act or negligence of the owner or of the occupier of the premises to which the service belongs, the cost of such repair or renewal shall be paid to the Committee by that owner on demand made therefor by the Chairman.

25. The approval of any private service pipe or fitting under by-law 15 or the grant of any permission or concession under any of these by-laws to the owner or the occupier of the premises on which that service pipe is laid, shall not be deemed for any damage caused by the bursting of any part of the pipe or the overflow of water from any part of the pipe or fitting.

26. The Committee shall not be liable in damages for the failure on its part to supply water, whether under any contract, deed or agreement or otherwise, if such failure is due to an unusual drought or to any temporary interference with the supply caused by carrying out any work, or to any other unavoidable cause or accident.

27. (1) The Chairman or any officer of the Committee authorised in that behalf by him in writing may, after giving not less than one hour's notice of his intention to

the occupier of any premises served by a private water service connected to the waterworks, enter such premises at any time between sunrise and sunset for the purpose of examining the condition of the pipes, works and fittings relating to such service and of ascertaining if there be any waste of water supplied by such service.

(2) When such notice cannot for any reason be given to or served personally on the occupier of the premises, the affixing of such notice in a conspicuous place in the premises shall be sufficient service of such notice for the purpose of this by-law.

(3) The owner or occupier of any premises to which a private connection from the water service established by the Committee has been given, shall on notice duly served on the owner or occupier of such premises pay a fee of Rs. 2.50 on each tap fixed at such premises in respect of every month during which water is obtained from the said water service.

28. All money payable to the Committee under these by-laws shall be paid at the Office of the Committee to the Chairman or to the officer of the Committee authorised to receive such payments.

29. The by-laws published in *Gazette* No. 9,637 of November 29, 1946, are hereby amended by the insertion, immediately after by-law 11 (1) of the following new by-laws:—
