INTRODUCTION

For the compilation of the Newspaper Article Index 2000 January–March (English), 2 daily Newspapers namely the Ceylon Daily News and the Island and 3 weekend newspapers namely the Sunday Observer, Sunday Island and Sunday Times have been selected. All the articles appeared in the newspapers were indexed according to the Anglo – American Cataloguing Rules 2nd edition (AACR II). Subject classification is mainly based on the 20th edition of the Dewey Decimal Classification and words in the current usage are used as subject headings in relation to the appropriate subjects. Entries are arranged according to alphabetical order under each subject.

Example : **Education**

Teaching

PATHMANADAN, S.

The essential attributes of a good teacher

Universities

GUNASENA, H. P. M.

Postgraduate education challenges for the next millenium

There are instances where the sub headings are categorized according to countries arranged in alphabetical order.

Example : **Political Science**

Political Conditions

China

DYER, Gwynne

Chinese democracy

India

KALPAGE, Stanly

Golden jubilee of India's National day

When one author has written several articles on the same topic with number of parts, the entries are arranged according to the numerical sequence. When an author publishes articles on one topic without mentioning the parts, the entries are arranged in chronological order. There are some article topics which do not give a clear understanding about the content. In such cases, a short note about the article is given at the end of the entry.

This index consists of 890 entries and each entry contains the basic bibliographical information - author, title of the article, name of the newspaper, year, month and date, page number, column number and notes where necessary.

Example : DE SILVA, N. S. K. N.

Future trends in water supplies in Sri Lanka

Daily News : March 22, 2000.-

22 P, 1-10 Col. and 33 P, 3-9 Col.

(This article described about world water day)
