F O R E W O R D

Libraries have been traditionally confined their services to the users, mainly providing the books and other Library material upon their request. Today, however a new dimension has been added to the role of the Libraries and they are regarded as the information providers.

Conferences, Seminars, Meetings and Workshops are considered as valuable sources of information on current interests. Generally they are on specific subjects and most of the proceedings remain as grey literature. Therefore I feel the publication of the Conference Index is an appropriate and timely venture.

I would like to take this opportunity to express my sincere thanks to all the people who helped in this publication. Thanks are specially due to the Heads of Governmental and Non-governmental Institutions and Librarians for their ready cooperation by furnishing information. I would also like to thank the staff of the Documentation centre and all those who assisted in the publication of this Index.

P R E F A C E

The usefulness of Conference index for researchers cannot be over emphasized. Compiling a Conference index of this nature is not an easy task. The Documentation centre has attempted to make the index which covers the period of 1991 to 1992 as comprehensive as possible.

My grateful thanks are due to the Head of the Documentation Division, Miss Janaki Fernando, Librarian, Mrs. Champika De Mel, Assistant Librarian, Mr. Weerasinghe Mutugala, Library Assistant, Mrs. Srimala Sooriyabandara for gathering the information and compiling this index, I also thank Mrs. Sriya Mutukumarana and Mrs. Shyama Riyancy for typing the script.

I N T R O D U C T I O N

Conferences play an important role and are considered as a valuable source of information on current interests. They are more relevant to specific subjects and to limited groups and the proceedings of conferences mostly remain as grey literature. Therefore, an Index to conferences could be mentioned as a valuable access tool for non-documentary information.

The need for such an index to conferences held in Sri Lanka, was discussed at the 3rd International conference of Directors of National Libraries in Asia and Oceania held in Sri Lanka, in 1985. The Social Science Documentation Centre of the National Library of Sri Lanka, launched a project in 1987, with the aim of compiling an Index to conferences held in Sri Lanka. Sri Lanka Conference Index, 1976-1986 and 1987-1990 are already published. This Index covers the period from 1991-1992.

Compilation of the Index is based on the information provided by the Ministries, Government Departments, Corporations, Boards, Non-governmental Organisations, International organisations and many private Institutions. The details provided by the Institutions are included as it is. The conferences held during this period that do not appear in this index are due to lack of information. Besides Conferences, this index covers important seminars and workshops too.

I N T R O D U C T I O N

Conferences play an important role and are considered as a valuable source of information on current interests. They are more relevant to specific subjects and to limited groups and the proceedings of conferences mostly remain as grey literature. Therefore, an Index to conferences could be mentioned as a valuable access tool for non-documentary information.

The need for such an index to conferences held in Sri Lanka, was discussed at the 3rd International conference of Directors of National Libraries in Asia and Oceania held in Sri Lanka, in 1985. The Social Science Documentation Centre of the National Library of Sri Lanka, launched a project in 1987, with the aim of compiling an Index to conferences held in Sri Lanka. Sri Lanka Conference Index, 1976-1986 and 1987-1990 are already published. This Index covers the period from 1991-1992.

Compilation of the Index is based on the information provided by the Ministries, Government Departments, Corporations, Boards, Non-governmental Organisations, International organisations and many private Institutions. The details provided by the Institutions are included as it is. The conferences held during this period that do not appear in this index are due to lack of information. Besides Conferences, this index covers important seminars and workshops too.

The index contains 539 entries. Each entry consists of information such as Title, Date, Venue, Sponsor and Organizer. The title of the conferences, seminars and workshops have been indicated according to the Anglo-American cataloguing Rules Second Edition. Subject classification is mainly based on the Dewey Decimal Classification scheme (20th edition) with few modifications in order to enable easy access to information on conferences. Entries are arranged under the subject and a title index is given at the end.

This index was made possible through the enthusiastic co-operation of Heads of the Ministries, Government Departments, Corporations, Boards, Non-governmental organizations, international organizations, private institutions and Libraries. I thank all of them. I am grateful to the Chairman, Mr. Henry Samaranayaka, and the Director Mr. Upali Amarasiri for their guidance, instructions and continuous encouragement. My grateful thanks are due to Librarian, Mrs. Champika De Mel, Assistant Librarian, Mr. Weerasinghe Mutugala, Library Assistant, Mrs. Srma Sooriyabandara for gathering information and compilation of the index and Mrs. Sriya Mutukumarana and Mrs. Shyama Riyancy for the preparation of the typescript.
