Notifications under "The Patents Ordinance"

NOTICE

THE following specification has been accepted:—

No. 4,674 of 12th May, 1959

BERNARD EMMANUEL DE SILVA.

"A ring-type wire cup holder for the collection of rubber latex."

Abstract.—The nature of the invention can be ascertained from claim 1 which reads as follows:—

1. A ring-type wire cup holder for the collection of latex for the rubber tree, made of approximately 2 feet length wire of any metal, formed first into a ring $3\frac{1}{2}$ inches in diameter at the centre, on which is placed the cup or shell for the collection of latex, held together by a few twists which also keeps the cup or shell sufficiently away from the tree so that the latex will drip into the cup or shell flowing out of the spout, besides making it firm. Thereafter two small loops some half inch apart, through which a coir rope or yarn could be conveniently passed for the purpose of fastening the cup holder to the rubber tree. Finally the wire is bent or twisted into two adjustable bent legs or protrusions which provide support against the trunk of the tree at any angle as shown and described in my specification and illustrations, i.e., figures 1, 2 and 3.

There is 1 claim and 1 sheet of drawing.

S. L. DE SILVA,
Registrar of Patents.

Colombo, 24th March, 1960.

Registration of this Trade Mark shall give no right to the exclusive use of the word "Huzaima".
