Trade Mark Notices

Trade Marks Office

All communications relating to Trade Marks should be addressed to the Registrar of Trade Marks, Department of the Registrar of Companies, Block 5, Echelon Square, Colombo 1.

Hours of Inspection

The office shall be open to the public every week day, except Saturday, between the hours of ten to four, and on Saturdays between the hours of ten to one, except on public holidays. Applications for inspections will, however, be accepted up to 3 p.m. on week days and 12 noon on Saturdays.

Trade Marks limited to colours

Where it is stated in the advertisement of an application that the mark upon its registration is to be limited to

certain colours, the colours are, as far as possible, indicated in the accompanying representation of the mark in the usual heraldic manner.

Association

Where it is stated that an advertised mark is to be associated (under Section 22 of the Trade Marks Ordinance (Cap. 121).) with another mark, it is indicated by its official number.

Applications in Part A or Part B

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B of the Register are distinguished by the letter B prefixed to the official number.

OPPOSITION

NOTICE is hereby given that any person who has grounds of objection to the registration of the following trade marks may, within two months from the date of this Gazette, lodge notice of Opposition on form T. M. No. 7 bearing an uncanceled or impressed stamp of Rs. 25. The period of lodging Notice of Opposition may be enlarged by the Registrar if he thinks fit and upon such terms as he may direct.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the Notice of Opposition is incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

CLUETT, PEABODY & CO., INC.

"Machine and process for shrinking and finishing woven textile fabrics".

Abstract.—The nature of the invention can be ascertained from claim 1 which reads as follows:—

1. A method for shrinking and finishing a web of woven textile fabric by means comprising a compressive shrinking device which confines the fabric between a smooth heated surface and an elastic rubber surface, the fabric being overshrunk in said device and being subsequently stretched, characterised by positively feeding the fabric in a dry condition continuously in a lengthwise direction at a uniform predetermined linear speed by means distinct from the compressive shrinking device, moisture conditioning the fabric so fed to render plastic the fibres of its yarns, stretching the moisture conditioned fabric sidewise to a selected width, then overshrinking the fabric lengthwise in the compressive shrinking device flashing off considerable moisture in the form of steam from the overshrunk fabric, and then drying the fabric whilst it is caused to move at a predetermined linear speed greater than its linear speed immediately after the compressive shrinking, and less than the linear speed of said positive feed, whereby the over-shrunk fabric is stretched lengthwise and, as a result, the amount of shrinkage left in the fabric is predetermined by the difference between the linear speed of said positive feed and the linear speed of the fabric during drying.

There are 7 claims and 1 sheet of drawing.

No. 4,732 of 30th October, 1959. (Registration of U. K. Patent No. 752,497 of 30th April, 1954)

PETER CROMBIE, M.B.E.

"Improvements in and relating to trays and like receptacles, such as are used for conditioning or storing commodities".

Abstract.—The nature of the invention can be ascertained from claim 1 which reads as follows:—

1. The combination of a tray as hereinbefore defined, guide means therefor in or on which the sides of the tray are adopted to bear and along which the tray is adopted to be moved, means secured to or formed integrally with the tray and adopted so to engage the underside of said guide means relatively to the tray-supporting surface thereof as to impart to the tray rigid and firm support in any position into which it is moved in or on said guide means, and further means secured to, integral with, or otherwise so positioned in relation to said guide means that when the tray has been moved to one end of said guide means, said means secured to or formed integrally with the tray co-operate with said further means to prevent the tray becoming completely detached from said guide means.

There are 9 claims and 1 sheet of drawing.
