PREFACE

The Ceylon National Bibliography is an authoritative bibliographical record of current Ceylon publishing in Sinhala, Tamil and English; and is based upon the material deposited with the Registrar of Books and Newspapers under The Printers and Publishers Ordinance (Cap.179).

A few classes of publications have been intentionally excluded. They are:-

- (a) Periodicals and Newspapers (except the first issue of a new periodical and the first issue of a periodical under a new title).
- (b) Maps.
- (c) Ephemeral material, such as trade catalogue, telephone directories, reports and financial statements of companies, and publicity pamphlets.

Transliteration

The transliteration of works in Sinhala has been done according to the system adopted for the Dictionary of the Sinhala Language, published by the University of Ceylon, and of the works in Tamil according to the system used in The Tamil Lexicon, published under the authority of the University of Madras. The names of authors have been strictly transliterated according to these principles and no attempt has been made to use an anglicized form of a name even when it might be known. Thus 'ප්‍රනාන්දු' has always been rendered as "Pranāndu", a general reference only being made from the anglicized form "Fernando". An exception has been made in the case of certain forenames, such as "Edwin", "Lionel", etc., where it is clear that these are the given forms of the names.

Arrangement

This Bibliography consists of two Sections: the Alphabetical Section; and the Classified Subject Section.

The Alphabetical Section contains entries and reference entries under authors, titles, translators, series and subjects in one alphabetical sequence.

In the Classified Subject Section entries are arranged by subject according to the Dewey Decimal Classification with some minor modifications to meet the special needs of this Bibliography, particularly in regard to the history and geography of Ceylon, Sinhala language and literature, Tamil language and literature, Buddhism and Hinduism. In other cases where the class number is not sufficiently specific a '1' in square brackets, i.e. 1 has been added to the Dewey class number and the specific subject rendered by a verbal extension. For example, 301.44 1 - Castes. Karava. Ceylon. Here 301.44 stands for social classes and 1 stands for the extension "Karava caste in Ceylon".

The fullest information about a book is given in the Classified Subject Section including: the author's name; the full title; the number of pages; the kind of illustrations; the size of the book; type and date of publication. A shorter entry is given in the Alphabetical Section under the name of the author, including: the short title; edition; editor or translator; publisher and price.

Author

When the author of a book is known, look under his name in the Alphabetical Section. If the information found there is insufficient, turn to the full entry in the Classified Subject Section to which the Decimal number, found at the end of the author entry, directs.

(Continued)

In the case of compilations of works by several authors, the entry in the Alphabetical Section may be found under the editor or compiler. In certain cases entries are made under the names of countries or towns which are considered to be the authors of their official publications. Transactions, reports and journals of societies are entered under the name of the Society and anonymous works, periodicals and most year books under the first word of the title which is not an article.

Titles, Series, Editors and Translators

Entries are made in the Alphabetical Section under the titles of works, so that if the author is not known a work can be found by looking up its title where a reference will be found to the author of the work.

If neither the author nor the title is known, it may still be possible to trace the work by means of the editor, translator or series.

Subject

The Ceylon National Bibliography provides an exhaustive index of subjects. In the Classified Subject Section the works on the principal subject fields are displayed in a systematic way under the class numbers, while the step by step indexing of these class numbers in the alphabetical section enables the most specific subject to be rapidly found.

THE CEYLON NATIONAL BIBLIOGRAPHY

ALPHABETICAL

AUTHOR, TITLE, SUBJECT INDEX

SECTION

This Section contains entries and reference entries under authors, titles, editors, translators, series, and subjects in one alphabetical sequence.

If the author of the book is known, refer to his name in this Section and to get the fuller description of the book go to the Classified Subject Section by means of the decimal code number given at the end of the entry.

If the editor, translator, title or series only is known, it is necessary to refer back to the author entry in this Section.

To know what books have been published on a particular subject, consult this Section under the name of the subject. The decimal code number given against the name of the subject will direct to the required part of the Classified Subject Section.
