Regulations referred to.

It shall be lawful for the proper authority to cause persons diseased, or suspected to be diseased, with plague, cholera, or smallpox, in any house or place hereunder described, to be removed to some public hospital or other place provided by Government—

- (1) In any house or place in which goods are exposed for sale.
- (2) In any house or place of public resort.
- (3) In any building in which there are no means of isolating such persons from the other inmates, or in any building where the retention of such persons is likely to prove a source of danger to others.

Provided that it shall be competent for the proper authority in case the removal of any person so diseased, or suspected to be diseased, in any house or place in which goods are exposed for sale, is objected to, and the house or place is not otherwise open to objection, to allow such person to be retained, on condition, however, that the sale of goods shall not be carried on in such house or place until the proper authority shall grant permission.

Provided further, that it shall be lawful for the proper authority to allow any person so diseased, or suspected to be diseased, to be removed to any locality which such person or his or her friends may choose, and to which the medical authorities of the town or place, if any, do not object, instead of to the public hospital or place provided by Government.

It shall be lawful for the proper authority to cause any persons found in an infected locality to be removed to a place of observation set apart for the purpose.
