(i) Constructing a new road in front of Jubilee madama.

(j) Extending fruit market.

(k) Repaired one scavenging cart, one water cart, and three new scavenging carts.

J. E. ANTHONISZ,
Secretary.

Sanitary Officer's Report for the Quarter ended June 30, 1899.

The general health was good. There is nothing of importance to record except a few cases of chickenpox outside the Fort. *

In the Fort house drainage is very much neglected and very defective. All the drains should be cemented and connected with the main sewer through the interposition of an efficient trap to prevent the entrance of sewer gas into the house. The dry-earth system, which is satisfactorily worked in about 100 houses, should be extended to the other houses, about 300 in number. As suggested by me long ago, cross roads and lanes should be opened up at an early date to improve ventilation and drainage and to facilitate the working of the dry-earth system and scavenging of house refuse.

Outside the Fort house drainage as well as drainage in general are grievously neglected, and surface pollution by human excrement exists to an alarming extent. During rainy weather surface water, polluted by human excreta, find its way into wells, canals, &c., and forms a fertile source of disease production.

Leprosy and pulmonary tuberculosis (consumption), which are infectious diseases of as chronic course, and invariably fatal termination seem to be on the increase, and steps should be taken to control the dissemination of these diseases. Owing to the chronic nature of these diseases and the ignorance of the public regarding their infectivity, they claim more victims, do more mischief, and cause more misery than is generally recognized. Notification of these and other infectious and contagious diseases should be made compulsory, and the ignorant public should be trained to do their duty by the free distribution of handbills, placards, and beat of tom-tom. To ensure success, compulsory early notification by medical attendants under severe penalty for neglect is of prime importance.

CHARLES E. DE SILVA, M.B., M.R.C.S., &c.,
Sanitary Officer.
