 - vii. The left-hand margin of the answer paper supplied is provided for you to insert the numbers of the questions you answer while the right-hand margin which should be left blank is reserved for the use of the Examiner. Number your answer correctly, as any error may cause confusion.
 - viii. You should observe very carefully the directions given at the head of each question paper regarding any compulsory questions and the choice of others. Disregard of these instructions is bound to affect you adversely.
 - ix. Give all detailed calculations and any rough work in their natural order as part of the working of any Mathematical problem. Diagrams, figures, sketches, etc. should be accurate and sufficiently large. If an answer requiring constant reference to the diagram, figure or sketch is continued overleaf, such diagram, etc. should be repeated.
 - x. At the end of each paper, arrange your answer sheets carefully in the order you wrote them and fasten them closely and securely together at the left-hand top corner (and not at the right-hand top corner) with the string supplied.
 - xi. You should hand over your answer-script personally to the Supervisor or to an Invigilator or remain in your seat till it is collected by one of them. Failure to do so may result in the loss of your script and in your being treated as absent for that paper. On no account should your script be handed over to a peon or attendant.
 - xii. If you wish to speak to the Supervisor or an Invigilator or to be served with additional stationery, you should raise your hand and continue to be seated.

TO THE CANDIDATE

You are advised in your own interest to adhere to the following directions:—

- i. Be in attendance at the Examination Hall well in time, at least 10 or 15 minutes before the time scheduled for a paper to commence. If you are in doubt about the location of the Hall have it settled before the day of the examination.
