NOTICES TO MARINERS.

HIS EXCELLENCY THE GOVERNOR has been pleased to direct that the following Notices to Mariners be published for general information.

By His Excellency's command,

W. T. TAYLOR,
Acting Colonial Secretary.

Colonial Secretary's Office,

San Sebastiao light is elevated 243 ft. above high water, and visible in clear weather from a distance of 20 miles from the bearing of S. 63° E., through east and north to S. 68° W. It is shown from a stone rectangular tower about 55 ft. high, painted white, with the dwelling close to it.

BENGAL.—No. 158.

Japan—Northern Straits—Ice.

The British Admiralty has given notice (No. 323 of 1900) that information has been received through the Board of Trade that the British ss. Ness, when on a voyage from Portland, Oregon, to Vladivostock, encountered a large quantity of field ice on March 18, 1900, off the coast of Yezo island, in approximately lat. 42° 36' N., long. 146° 18' E., and continued meeting ice until in lat. 42° 0' N., long. 144° 25' E.

It is also reported that ice in this neighbourhood was met by another steamship in February, 1900, when proceeding from Vancouver to Vladivostock.

It is known that ice may be encountered during the winter months in Yezo strait, Kunashiri channel, and Yetorup strait, but this is the first time it has

been reported so far from the shore. This is probably owing to the fact that few ships have hitherto made a passage from the Western ports of North America towards Tsugaru strait in the winter. It is not unlikely that ice may be quite common in this vicinity in the winter.

This notice affects the China Sea Directory, vol. IV, 1894, pages 603, 629, 630.

Officiating Port Officer of Calcutta.

Approximate position: lat. 14° 50' 30" N., long. 74° 3' 50" E.

Variation, nil in 1900.

This notice affects the following Admiralty Charts:—Cape Ramas to Alvagudda, No. 744; Sadashivgad Bay, No. 242; also West Coast of Hindustan Pilot, 1898, page 154.
