DIRECTORY OF SOCIAL SCIENCE LIBRARIES,  
INFORMATION CENTRES & DATA BASES  
IN SRI LANKA

1 9 8 6

SOCIAL SCIENCE DOCUMENTATION CENTRE  
SRI LANKA NATIONAL LIBRARY SERVICES BOARD,  
INDEPENDENCE AVENUE,  
COLOMBO 7,  
SRI LANKA.

PREFACE

The need for a Directory of Social Science libraries, Information Centres, and Data Bases emerged in mid 1986 when the NARESA proposed that the Sri Lanka National Library Services Board may take over the functions of coordinating Social Science libraries, Information Centres and Data Bases etc. in the island and also act as a contact point for overseas library organisations and authorities. However, the Sri Lanka National Library has been collecting and collating such information as a routine function, but when the need for a specific Directory arose, the information already available was repackaged to suit the specific purpose of this Directory.

The APINESS meeting of National Representatives of Social Science Documentation Centres held in Bangkok in May 1986, decided among other things, that National Contact Points in all countries in the Asia and Oceania region, compile comprehensive sources of information on existing Social Science Documentation and information facilities in each country. The present Directory is designed to meet one of these needs.

It could not be said that this Directory is comprehensive for the simple reason that some of the contact points did not respond to our questionnaire. Nevertheless, a large majority of the important libraries and other information centres responded quickly and the information so gathered has gone into this Directory. A few cases of libraries not responding also have been included, using the information already available in our files which, however, may not be

quite upto date. It is hoped that the next revision will be able to cover those libraries, if any, which have not gone into this edition. The year the data was collected is indicated at the bottom of each entry. viz : 1984, 1986.

The Directory will be usable as a basic information tool to identify and assess the social science libraries, information centres and data bases in Sri Lanka. It will also be useful for librarians and library authorities to assess and rationalise the development of collections and plan out services taking an overall view of the facilities available, imbalances in the existing resources and possibilities of inter library cooperation, coordination at both national and regional level.

This Directory includes 89 entries, each entry carrying the following information: The Name of the organisation, Postal Address, Telephone number, Date of Establishment of the library, Subject coverage, Bibliographic tools, the total number of books, Periodical titles, Special collections, Membership, Services and Publications.

The 'Staff' indicates the total number of professional and non professional personnel in the library/information centre/data base. The qualifications of the Librarians are normally indicated. In several cases however, the qualifications are not mentioned. These are the cases where full professional qualifications have not been obtained at the time of preparation of this Directory.

BKS. The number of books mentioned in the entries is approximate and includes unpublished works such as theses, dissertations, technical reports and manuscripts. In special cases, such as the National Museum, the National Library and the University libraries, the number of manuscripts are specified since the collections are of considerable size and are large enough to be considered as distinct manuscript collections.

PER.TIT. indicates the total number of periodical titles held in each library.

MEM. indicates the membership of the library/information centre/ data base with national or international networks and affiliated membership with organisations which assist the representative libraries in various forms of library cooperation such as acquisitions, exchanges etc.

PUBNS. indicates the publications of the library/parent organisation as the case may be.

The entries are arranged in alphabetical order. A list of abbreviations have been included.

I am indebted to all librarians and officers in charge of the libraries of Ministries, Government Departments, Corporations, Research Institutions and many private organisations who cooperated with the National Library in providing necessary information for the compilation of this Directory. This Directory was compiled by a small staff headed by Mrs. Indivari Munasinghe (Librarian, Social Science Documentation Centre, National Library of Sri Lanka) to whom I am grateful for her indefatigable efforts.

N. Amarasinghe.

Director,

National Library of Sri Lanka.
