PREFACE

It is with great pleasure that I write this preface to the Directory of Social Scientists in Sri Lanka, Part 1.

This Directory is an attempt to identify the Social Scientists in the island, and to create an awareness about them, by providing the following information; Name, address, specialized subject areas, research projects, publications and etc. This publication will also be of great value to the Librarians, Students and the researcher.

I must thank Mr. Upali Amarasiri, Director, National Library of Sri Lanka, for encouraging his staff to provide works of this nature. I would also like to thank the staff of the Social Science Documentation Centre, and all those who assisted him in the publication of this Directory.

Ishvari Corea

INTRODUCTION

Directory of Social Scientists in Sri Lanka - Part 1 is the eighth publication in a series titled " Social Science Documentation Centre Publications ".

Although the compilation of this Directory commenced in 1990, due to several factors its publication was rather delayed. The major difficulty was the gathering of information. Though five hundred questionnaires were sent to identified Social Scientists in Sri Lanka the response was very low. After making continuous attempts, we were able to gather information only from 132 Social Scientists. Without waiting to increase the number of entries, a decision was made to publish this Directory as part 1. It is hoped that part 11 of this Directory will cover the Social Scientists not covered in this issue.

The Directory could be used as a basic information source to identify the Social Scientists and to obtain information on their specialized subject areas, research projects and publications.

This publication has 132 entries, consisting of the following information. Name, address, telephone number, academic and professional qualifications, place of employment, designation, specialised subject areas, research projects, publications and membership. Entries are arranged alphabetically.

I would like to thank the staff of the Social Science Documentation Centre for gathering the information and compiling the Directory.
