H. WHITE,
Registrar-General.

Registrar-General's Office,
Colombo, January 9, 1905.

GOVERNMENT NOTIFICATIONS.

IT is hereby notified that the Local Board of Health and Improvement of the town of Kalutara has, with the sanction of His Excellency the Governor in Executive Council, in terms of section 30 of the Local Board of Health and Improvement Ordinance, No. 13 of 1898, made and assessed for the year 1905 over and above the sum necessary for the maintenance of the police for the said town, a rate of two and half per cent. on the annual value of all houses and buildings of any description, and of all lands and tenements whatsoever within the said town of Kalutara, subject to the provisions of the aforesaid section.

Colonial Secretary's Office,
Colombo, January 9, 1905.

By His Excellency's command,
A. M. ASHMORE,
Colonial Secretary.

IT is hereby notified for general information, in terms of section 34 of the Ordinance No. 9 of 1899, that on the recommendation of the Government Agent, Western Province, His Excellency the Governor has approved of the following burial ground being provided for and used by the members of the Rupesingha family at Nedimala, in the Palle pattu of Salpiti korale, Western Province.

Colonial Secretary's Office,
Colombo, January 9, 1905.

By His Excellency's command,
A. M. ASHMORE,
Colonial Secretary.

SCHEDULE REFERRED TO.

Name of Land.—Korapuwahena, belonging to Mr. G. L. Rupesingha of Nedimala. Bounded on the north by Korapuwahena, the property of the late Mr. D. P. Rupesingha; east, south, and west by a portion of the same land; containing in extent 25.60 perches.

IT is hereby notified for general information, in terms of section 34 of the Ordinance No. 9 of 1899, that on the recommendation of the Government Agent, Western Province, His Excellency the Governor has approved of the following burial ground being provided for and used by the inhabitants of Nawala, in the Palle pattu of Salpiti korale, Western Province.

Colonial Secretary's Office,
Colombo, January 9, 1905.

By His Excellency's command,
A. M. ASHMORE,
Colonial Secretary.

SCHEDULE.

Name of Land.—Millagahawatta, situated at Nawala. Bounded on the north by the property of Hettige Don Peeris, east by the remaining portion of the same land of Nawalage Louis Cooray, south by the road leading from Nugegoda to Welikada, west by the properties belonging to Nawalage Pasqual Cooray and J. C. de Silva; in extent 3 roods and 2 perches.

IT is hereby notified that His Excellency the Governor has been pleased to exempt the three proposed general cemeteries at Kalmunai, Kalmunaikkudi, and Saintamarutu within the limits of the Board of Health, Kalmunai, from the operation of section 11 of "The Cemeteries and Burials Ordinance, 1899," in so far as to sanction the enclosure of the afore-mentioned cemeteries with barbed wire fences instead of substantial walls or iron railings.

Colonial Secretary's Office,
Colombo, January 9, 1905.

By His Excellency's command,
A. M. ASHMORE,
Colonial Secretary.

IT is hereby notified for general information that 161,647 acres of surveyed lands are available for sale in the under-mentioned Provinces:—

In the Western Province, 18,909 acres, situated in Siyane, Hewagam, Salpiti, and Atutkuru korales of the Colombo District, consisting of forest, chena, and jungle lands.

In the Central Province, 2,841 acres, situated in the Kandy, Matale, and Nuwara Eliya Districts, composed chiefly of jungle, chena, and patana lands.

In the Southern Province, 28,278 acres, situated in the Hambantota District, consisting of paddy fields, chena, jungle, and garden land.

In the Eastern Province, 38,260 acres, situated in the Batticaloa and Trincomalee Districts, consisting of garden lands, paddy lands, and jungle.

In the North-Central Province, 10,270 acres, distributed throughout the Province.

In the Province of Uva, 13,936 acres, situated in the Yatikinda division, consisting of patana, chena, and paddy fields.

Colonial Secretary's Office,
Colombo, August 5, 1901.

By His Excellency's command,
W. T. TAYLOR,
Acting Colonial Secretary.

MISCELLANEOUS DEPARTMENTAL NOTICES.

COLOMBO WEEKLY HEALTH REPORT.

THE weekly return of births and deaths in the Colombo town for the week ended December 31, 1904, is subjoined (A).

Births.—The total births were 62. The birth-rate per 1,000 was 19·4,* as against 19·1 in the preceding week and 20·8 in the corresponding week of last year.

Deaths.—The total deaths were 95. The death-rate per 1,000 was 29·7,* as against 28·8 in the previous week and 39·6 in the corresponding week for last year.

Causes of death.—No persons died from cholera, smallpox, or measles. 11 died from diarrhoea and dysentery; 17 from phthisis, bronchitis, and pneumonia; 5 from different kinds of fever; and 10 from infantile convulsions.

Infantile deaths.—Of the 95 total deaths, 26 were of infants under 1 year of age, being in the proportion of 419 to 1,000 registered births, as against 590 to 1,000 in the previous week and 508 to 1,000 in the corresponding week of the previous year.

2. The numbers of births and deaths registered in nineteen other principal towns are shown in list B.

* Calculated on the estimated population on July 1, 1904.

Registrar-General's Office,
Colombo, January 6, 1905.

N. W. MORGAPPAH,

COLOMBO WEEKLY HEALTH REPORT.

THE weekly return of births and deaths in the Colombo town for the week ended January 7, 1905, is subjoined (A).

Births.—The total births were 75. The birth-rate per 1,000 was 23.5,* as against 19.1 in the preceding week and 21.9 in the corresponding week of last year.

Deaths.—The total deaths were 96. The death-rate per 1,000 was 30.1,* as against 28.8 in the previous week and 34.5 in the corresponding week of last year.

Causes of death.—No persons died from cholera, smallpox, or measles. 15 died from diarrhoea and dysentery; 23 from phthisis, bronchitis, and pneumonia; 6 from different kinds of fever, including 2 from enteric fever; and 10 from infantile convulsions.

Infantile deaths.—Of the 96 total deaths, 30 were of infants under 1 year of age, being in the proportion of 400 to 1,000 registered births, as against 419 to 1,000 in the preceding week and 414 to 1,000 in the corresponding week of previous year.

Still births.—Ten still births were registered in the week.

2. The numbers of births and deaths registered in nineteen other principal towns are shown in list B.

* Calculated on the estimated population on July 1, 1904.

Registrar-General's Office,
Colombo, January 10, 1905.

N. W. MORGAPPAH,
for Registrar-General.

NOTICE is hereby given that an application has been received from the Rev. H. J. Philpott, W.M.S., Wellawatta, for a grant in aid of his Kalutara Vernacular (Tamil) Mixed Primary School, which is situated in the old road in Kalutara South, in the Kalutara District of the Western Province.

Observations will be received not later than January 30, 1905.

J. HARWARD,
Office of Public Instruction,
Colombo, January 9, 1905. Director.

BADULLA BOTANIC GARDEN.

IN consequence of the transfer of this garden to the Local Board, the pot and nursery plants therein are now for sale at cheap rates at the garden. Lists may be had on application to the undersigned.

JOHN C. WILLIS,
Director, Royal Botanic Gardens,
Peradeniya.

Royal Botanic Gardens,
Peradeniya, December 15, 1904.

All Saints' Church, Galle.

NOTICE is hereby given that a General Meeting of the Congregation of All Saints' Church, Galle, will be held in the vestry on Sunday, January 22, 1905, at 5.30 P.M., for the purpose of electing Trustees and Auditor for the year 1905, and for the discussion of such other business as may arise.

G. A. BAUMGARTNER,
Honorary Secretary to Trustees.

Galle, January 3, 1905.

Colombo Drainage Works.

NOTICE is hereby given that Hospital street, Fort, will be closed to wheeled traffic from January 15 to February 15, 1905.

R. EUSTACE TICKELL,
Chief Resident Engineer.

Colombo, December 12, 1904.

CAMBRIDGE LOCAL EXAMINATIONS, 1905.

AN Examination of Senior and Junior Candidates, in accordance with the Regulations of the Revised Code, will be held at Colombo, Kandy, Galle, Jaffna, Batticaloa, and Kurunegala on December 11, 1905, and the following days.

2. Forms of entry duly filled up should be forwarded so as to reach the Director of Public Instruction not later than 4 P.M. on Friday, August 4, 1905, together with the following fees, which should be paid as follows:—

(1) A Bank Draft on England payable to Dr. J. N. Keynes, crossed "Barclay & Co.," at the rate of £1 for each candidate, as the Cambridge fee.

N.B.—The fees should not under any circumstances be remitted by Money Order. *No cash, or Money Order, Bank Draft, or cheque in favour of the Director of Public Instruction will be accepted.*

(2) A Post Office Order (not Postal Order), Bank Draft, or crossed cheque in my favour at the rate of Rs. 2.50 for each candidate, as the local expenses fee. *Cash will not be accepted.*

N.B.—Forms of entry will be accepted from August 5 to August 12 inclusive on payment of an extra fee of Rs. 5.

All entry forms received at the Public Instruction Office not accompanied by the Cambridge and local fees, as well as the proper birth certificate where one is required, will be immediately returned to the sender.

3. Forms of entry may be had from the Director in the second week in July. It is requested that Managers will only apply for such number of forms as they actually require, and that they will not encourage any student to enter as a candidate unless they are satisfied that he has a fair chance of passing the examination.

It is also requested that Principals of Schools will check the entry forms of their candidates and see that the instructions of the Syndicate with regard to the filling up of the forms are complied with. The date of birth should be carefully verified, and the candidates' full names must be given without any initials.

4. Applications for entry forms should be made from the first week in July, 1905, stating what kinds of entry forms, C, D, E, or F, and the number of forms of each kind are required.

5. Religious Knowledge, as a subject of examination, is not necessary for Colonial Students, and no grant or award under the Revised Code will be made directly or indirectly dependent on marks gained for Religious Knowledge.

6. All under-age candidates must forward with their entry forms certificates of the registration of their birth, unless such a certificate has been sent to this office for a previous examination. Those who have already forwarded certificates of birth for a previous examination *should mention the year, the examination for which they forwarded the certificates, and the centre at which they appeared for the examination.* Affidavits will not be accepted under any circumstances.

If the name appearing in the birth register differs, either by alteration or addition, from the name by which the candidate is known, the parent or guardian should, before obtaining a certificate, apply to the Registrar-General or his Assistant for such alteration in the manner set forth in section 7 of Ordinance No. 23 of 1900.

A certificate of baptism should be a proper extract of the Baptismal Register, *i.e.*, an exact copy of the entry of the register should be made, and at the foot of the copy the incumbent of the Church issuing it should certify to its correctness.

Principals of Schools should examine carefully all certificates of birth or baptism, and should not forward any certificate which is not a proper and reliable document.

7. Private students will only be admitted as under-age candidates if they forward, along with their entry form, a written statement from an Inspector of Schools that their certificate of birth or baptism is a reliable document.

N.B.—Baptismal certificates will only be accepted if the candidate's baptism was within four months of his date of birth; otherwise he will not be allowed to compete for Prizes and Scholarships.

8. Fees cannot be returned. If notice of withdrawal is received by the Local Secretary more than sixteen days before the commencement of the examination, a voucher will be sent, which will enable the student to enter in another year without further fee to the University, subject to the usual conditions of age. The Syndicate do not undertake to grant a similar voucher in any case in which the full sixteen days' notice has not been given. Applications made within sixteen days of the examination will, however, be considered if accompanied by a certificate from a qualified doctor stating that the candidate is physically unfit to take the examination. No applications received after the commencement of the examination can be considered. Students holding vouchers must apply for fresh forms of entry and return them to Local Secretaries on or before August 4 in the year in which they wish to be examined, together with the local expenses fee of Rs. 2.50 (*vide* section 2 of clause 2).

N.B.—The Mathematical Prize will be awarded on the results of the Cambridge Senior Local Examination of December, 1905, to the candidate under 19 years of age who passes the best examination in the subjects of section 10.

Office of the Director of Public Instruction,
Colombo, January 12, 1905.

J. HARWARD,
Director of Public Instruction.

NOTES.

Under certain conditions other books may now be substituted for those prescribed in the various subjects of examination (see page 31).

Important changes have been made in English History for all the examinations, and in the English and Mathematical Sections for Seniors.

Arrangements will in future be made for examining Junior as well as Senior candidates in Spoken French and Spoken German (see page 31).

In French, German, and Spanish for Junior and Senior candidates higher marks will in future be assigned to the unprepared translation which is given as an alternative for set books than are assigned to the set books themselves. Dutch has been added as a subject of examination for Seniors.

Zoology is no longer included as a subject of examination for Juniors or Seniors.

Important announcements are made respecting Army Leaving Certificates, and in regard to conditions of exemption from Responsions at Oxford and from the Matriculation Examination of the University of London (see pages 31 and 32).

The arrangement of the Time Tables has been modified.

EXAMINATION OF JUNIOR STUDENTS.

No one born before December 15, 1889, can be admitted as a Junior Student under the ordinary conditions. Those born before December 15, 1889, may be admitted to the examination, but they can obtain a Pass Certificate only, and are not eligible for marks of distinction.

PART I.—COMPULSORY.

Every student will be required to satisfy the Examiners in (1) Writing from Dictation, and (2) Arithmetic.*

PART II.

The examination will comprise the subjects mentioned in the following sixteen sections. Students will be required to satisfy the Examiners either (a) in three of the sections 1–13 (one at least of the three being 1–9), or (b) in two of the sections 1–13, together with two subjects† out of any other two of these sections (one at least of the two complete sections, or else both the sections from which the two additional subjects are taken, being 1–9). No student may enter for subjects in more than eight sections. One at least of the five subjects of section 1 must be taken by all students, unless their parents or guardians object to their examination in that section.

N.B.—No student can take two papers set at the same time in the Time Table.

A certain number of marks will be assigned to Handwriting. Composition will be taken into account.

Section 1.—RELIGIOUS KNOWLEDGE :

Questions will be set on (a) II. *Kings* ; (b) the Gospel of *St. Mark*, credit being given for a satisfactory knowledge of the original Greek [or, for Jewish students only, I. *Samuel*, credit being given for a satisfactory knowledge of the original Hebrew]; (c) the *Acts of the Apostles*, i–xvi ; (d) the Church Catechism ; (e) *Morning and Evening Prayer* in the Book of Common Prayer. In New Testament subjects special papers in which the Douay version is used will be prepared for candidates who have been accustomed to the use of that version.‡

To pass in this section students must satisfy the Examiners in (b), and in one of the subjects (a), (c), (d), (e), to each of which the same credit is given. No student will be examined in more than one of the subjects (a), (c), (d), (e).

Section 2.—ENGLISH LANGUAGE AND LITERATURE :

(a) *English Grammar*, including parsing and the analysis of sentences. Candidates will be required to write a short *English Essay*.

(b) *Shakespeare, Twelfth Night*.

(c) *Scott, Lay of the Last Minstrel*.

(d) *Scott, Ivanhoe*.

To pass in this section students must satisfy the Examiners in (a) and either in (b) or in (c) or in (d). No student will be examined in more than one of the three (b), (c), (d).

Section 3.—HISTORY AND GEOGRAPHY :

(a) Outlines of the *History of England*. The paper will consist of three sections on the periods (a) 1066–1509, (b) 1509–1688, (c) 1688–1832 respectively. Candidates may, if they wish, select questions from all three of the sections, or may confine themselves to two or one of them.

(b) Outlines of the *History of the British Empire* from 1763 A.D. to 1878 A.D.§

(c) Outlines of *Roman History* from 510 B.C. to 266 B.C.

(d) The Geography of *Great Britain and Ireland*, and *Africa*. An outline map will be given to be filled up by inserting and naming the chief ranges of mountains, the chief towns, the chief lakes and rivers, and the political divisions, and by naming the chief features of the coast line, of some part of these portions of the world. Questions will be set requiring knowledge of the outlines of Physical Geography. Importance will be attached to a knowledge of the relation between the physical features of a country and its political and commercial geography. (Medal, see p. 33.)

To pass in this section students must satisfy the Examiners in either (a), (b), or (c), and also in (d). No student will be examined in more than one of the three subjects (a), (b), (c).

Section 4.—LATIN :

The papers will include (1) questions on grammar and parsing ; (2) passages for translation from selected books ; (3) one or more easy unprepared passages for translation into English, a vocabulary of the less familiar words being given ; (4) one or more unprepared passages of ordinary difficulty for translation into English ; (5) easy sentences for translation into Latin ; (6) one or more continuous passages for translation into Latin.

The selected books for 1905 are *Cæsar, de Bello Gallico I.*, and *Virgil, Æneid II.* Questions may be set on historical and geographical allusions in these books and on the metre of the verse subject. No student may take both authors.

Candidates cannot pass in Latin unless they satisfy the Examiners in accidence, and either in (3) or in (4). They cannot obtain the mark of distinction unless they satisfy the Examiners in (4) and in (6).

Section 5.—GREEK :

The papers will include (1) questions on grammar and parsing ; (2) passages for translation from selected books ; (3) one or more easy unprepared passages for translation into English, a vocabulary of the less familiar words being given ; (4) one or more unprepared passages of ordinary difficulty for translation into English ; (5) easy sentences for translation into Greek.

The selected books for 1905 are *Xenophon, Anabasis IV.*, and *Euripides, Medea* (omitting lines 96–212, 410–444, 626–657, 819–860, 971–996, 1076–1110, 1246–1289). Questions may be set on historical and geographical allusions in these books and on the metre of the verse subject. No student can take both authors.

Candidates cannot pass in Greek unless they satisfy the Examiners in accidence, and either in (3) or in (4). They cannot obtain the mark of distinction unless they satisfy the Examiners in (4).

Section 6.—FRENCH. Section 7.—GERMAN. Section 8.—SPANISH.

In sections 6, 7, and 8, the paper will include (1) questions on grammar and parsing ; (2a) passages for translation into English from selected books, and (2b), as an alternative, unprepared passages for translation into English ;

* The use of algebraical symbols and processes is permitted. Questions may be set in which contracted methods of multiplication or division are to be used. A knowledge of recurring decimals and of the process of extracting cube root will not be required. Candidates will be expected to know the following tables of weights and measures, namely, avoirdupois, linear measure, square measure, capacity (pints, quarts, gallons) ; and in the metric system, the metre, the gramme, and the litre, with their multiples and submultiples. Questions may be set involving the franc and the centime, the dollar and the cent.

† Any one of the sections 14, 15, 16, may count in the place of one of these two subjects.

‡ Candidates wishing to avail themselves of this arrangement must make a statement to that effect in their forms of entry ; if they omit to do so, they cannot be allowed to take the special papers.

§ The paper will be on the topics treated of in Jose's *Growth of the Empire* (Murray) or Woodward's *Expansion of the British Empire* (Cambridge University Press) or any similar work.

|| In writing German in the examination students are advised to use the English character, but the use of the German character is not forbidden.

(3) one or more easy unprepared passages for translation into English, a vocabulary of the less familiar words being given; (4) one or more unprepared passages of ordinary difficulty for translation into English; (5) easy English sentences for translation into the language; (6a) one or more continuous passages for translation into the language, and (6b), as an alternative, subjects on one of which candidates are to write a short composition in the language.

The unprepared passages set under (2b) will be for those candidates only who do not take a selected book. Higher marks will be assigned to (2b) than to (2a). For those who take selected books questions may be set on historical and geographical allusions and on the metre of verse subjects. The selected books for 1905 are as follows: in French, *Mérimée, Colomba**; in German, *Hauff, Das Wirthshausim Spessart* (omitting *Das kalte Herz*); in Spanish *Galdos, Trafalgar Episodios Nacionales*, chapters 9-15.

No candidate may take both (6a) and (6b).

Candidates cannot pass unless they satisfy the Examiners in accident and either in (3) or in (4). They cannot gain the mark of distinction unless they satisfy the Examiners in (4) and in (6).

For particulars of the examination in Spoken French and Spoken German, see page 31.

Section 9.—MATHEMATICS :

(a) GEOMETRY (see page 33).

(b) ALGEBRA.—Candidates will be required to satisfy the Examiners in definitions and explanations of algebraical signs and terms; addition, subtraction, multiplication, and division of algebraical quantities; theory of indices; highest common factor and lowest common multiple; extraction of the square root; the solution of easy equations of the first degree (including simultaneous equations) and questions producing such equations, and the solution of easy quadratic equations involving one unknown quantity. Questions may be set on graphs; and when such questions are set, squared paper will be provided. Questions will also be set on quadratic equations, the solution of two simultaneous equations, one being linear, the elementary rules of ratio and proportion, arithmetical and geometrical progressions, permutations, combinations, the binomial theorem with positive integral exponents, the theory of indices including the nature of logarithms, and the use of logarithms to the base 10.

(c) PLANE TRIGONOMETRY, including the solution of triangles and the use of logarithms. Questions will not be set involving angles greater than 360 degrees. Candidates will be provided in the examination-room with four-figure tables of logarithms, natural sines, natural tangents, logarithmic sines, and logarithmic tangents†. Candidates must bring with them a graduated ruler and a protractor.

(d) ELEMENTARY MECHANICS.—Questions will be set on the composition and resolution of forces acting in one plane at a point, including graphical representation of the same; parallel forces; moments of forces about a point; the properties of the centre of gravity; simple applications to the lever, the common balance, the inclined plane, and the pulley; the composition and resolution of velocities and accelerations in one plane; rectilinear motion with uniform acceleration, including gravity; motion, momentum, force, mass.

Candidates must bring with them a graduated ruler and a protractor.

To pass in this section students must satisfy the Examiners in Geometry and in Algebra.

Section 10.—ELEMENTARY EXPERIMENTAL SCIENCE.‡—Students will be expected to show that they have acquired a practical acquaintance with the elements of physical and chemical measurement, and with the properties of common substances as ascertained by simple experiments.§ Three papers will be set, one of which will be a practical examination.

Section 11.—CHEMISTRY :

(a) THEORETICAL CHEMISTRY. §

(b) PRACTICAL CHEMISTRY. §.—Alternative papers are set in this subject, one on Thursday, the other on Saturday candidates must state in their forms of entry which paper they will take.

To pass in this section students must satisfy the Examiners in both the subjects (a) and (b).

Section 12.—PHYSICS :

(a) HEAT. §.

(b) SOUND AND LIGHT. §

(c) ELECTRICITY AND MAGNETISM. §.—Alternative papers are set in this subject, one on Tuesday, the other on Saturday; candidates must state in their forms of entry which paper they will take.

In this section the questions will be principally such as will test the candidates' knowledge of the subject as gained from a course of experimental instruction.

To pass in this section students must satisfy the Examiners in two of the three subjects (a), (b), (c).

Section 13.—BIOLOGY AND PHYSICAL GEOGRAPHY :

(a) BOTANY. §.

(b) PHYSIOLOGY AND HYGIENE. §.

(c) PHYSICAL GEOGRAPHY.—Elementary questions will be set on the present physical condition of the earth and on the physical agencies modifying its surface or affecting the conditions of life upon it. (Medal, see p. 33.)

To pass in this section students must satisfy the Examiners in one of the three subjects (a), (b), (c).

Section 14.—(a) BOOK-KEEPING. Questions will be set on Book-keeping by double entry. Ruled forms will be provided for the Candidates. Alternative papers are set in this subject, one on Friday, the other on Saturday; candidates must state in their forms of entry which paper they will take.

(b) MENSURATION AND SURVEYING. Questions will be set on Mensuration and on the Elements of Land Surveying. Candidates should provide themselves with rulers, scales, &c.

(c) SHORTHAND. The students will take down passages read aloud, and will afterwards transcribe them. Passages will be dictated at the rates of fifty words and eighty words per minute. (Medal, see p. 33.)

To pass in this section students must satisfy the Examiners in one of the subjects (a), (b), (c). They may not take both (b) and (c).

Section 15.—DRAWING :

(a) FREEHAND DRAWING, from a photograph or print.

(b) MODEL DRAWING.—The group, to be drawn in outline only, will consist of one or two of the following solids, namely, the cube, cone, cylinder, and square pyramid, together with some common object and a drawing board.

(c) GEOMETRICAL DRAWING.

* The slightly abridged edition of *Colomba*, published by the Cambridge University Press, will suffice; but other editions may be used.

† Copies of the tables that will be provided can be obtained from Syndicate Buildings, Cambridge, price 3d, post free.

‡ This subject can be taken at those centres only at which a suitable Laboratory and apparatus can be provided for the practical examination.

§ Detailed schedules can be obtained on application to the General Secretary. The schedules are the same for 1905 as they were for 1904.

(d) **ELEMENTARY DESIGN.**—Candidates will be supplied with a photograph or print of some characteristic portion of a plant, and will be required to fill a given space with an uncoloured design based thereon.

To pass in this section students must satisfy the Examiners in two of the four subjects. They may not take both (c) and (d).

Section 16.—MUSIC. Questions will be set on Notation ; on Scales, Clefs, Keys, Intervals, Time ; on the Marks and Terms generally employed in Music ; on Cadences. Exercises will be set, in not more than four parts, on Triads and their Inversions, in which the highest or the lowest part or both will be given.

EXAMINATION OF SENIOR STUDENTS.

No one born before December 15, 1886, can be admitted as a Senior Student under the ordinary conditions. Those born before December 15, 1886, may be admitted to the examination, but they can obtain a Pass Certificate only, and are not eligible for marks of distinction.

PART I.—COMPULSORY.

Every student will be required to satisfy the Examiners in Arithmetic.*

PART II.

The examination will comprise the subjects mentioned in the following seventeen sections. Every student will be required to satisfy the Examiners in at least three of the sections 1-17† (one at least of the three being 1-10 and not more than one of the three being 15-17). No student may enter for more than seven sections, together with one subject from an eighth section, subject to the condition that this additional subject does not suffice for a pass in the section. One at least of the four subjects of section 1 must be taken by all students, unless their parents or guardians object to their examination in that section.

N.B.—No student can take two papers set at the same time in the Time Table.

Section 1.—RELIGIOUS KNOWLEDGE :

The examination will consist of questions on (a) II *Kings* ; (b) the Gospel of *St. Mark*, credit being given for a satisfactory knowledge of the original Greek [or, for Jewish students only, I *Samuel*, credit being given for a satisfactory knowledge of the original Hebrew] ; (c) the *Acts of the Apostles*, i-xvi ; (d) *Holy Communion*, *Baptism*, and *Confirmation* in the Book of Common Prayer ; especial attention must be paid to the Apostles' Creed. In New Testament subjects special papers in which the Douay version is used will be prepared for candidates who have been accustomed to the use of that version‡.

To pass in this section students must satisfy the Examiners in (b), and in one of the subjects (a), (c), (d), to each of which the same credit is given. No student will be examined in more than one of the three subjects (a), (c), (d). Credit will be given for a knowledge of the revised version.

Section 2.—ENGLISH LANGUAGE AND LITERATURE :

(a) English Composition. Exercises, including the composition of an Essay, will be set with the object of testing the power of the candidates to write clear and grammatical English§.

(b) *Shakespeare, Twelfth Night.*

(c) *Milton, Samson Agonistes.*

(d) A paper of questions of a general, not a detailed, character, on *Shakespeare, Macbeth* ; *Scott, Ivanhoe* ; *Tennyson, The Princess.*

(e) A paper of easy questions testing the candidates' general knowledge of English Literature. Candidates may consult Stopford Brooke's *English Literature* or some similar work. They will not be expected to show acquaintance with minor authors or biographical details. The questions will not be limited to text-book knowledge.¶

To pass in the section candidates must satisfy the Examiners in two of these five subjects. In order to gain the mark of distinction, they must satisfy the Examiners in three. They may not take both (b) and (c), or both (d) and (e).

Throughout the section importance will be attached to clearness and correctness of style.

Section 3.—HISTORY, GEOGRAPHY, &c.:

(a) History of England. The paper will consist of three sections on the periods (a) 55 B.C. to 1509 A.D., (b) 1509 to 1714, (c) 1714 to 1867 respectively. Candidates may, if they wish, select questions from all three of the sections, or may confine themselves to two or one of them.

(b) History of the British Empire, 1763 A.D. to 1878 A.D. ||

(c) Greek History, 431 B.C. to 359 B.C. ¶¶

(d) The Geography of *Great Britain and Ireland* and *Africa*. Questions will be set requiring knowledge of the outlines of Physical Geography. Importance will be attached to a knowledge of the relation between the physical features of a country and its political and commercial geography. (Medal, see page 33.)

(e) The elements of political economy.

(f) The Elements of Logic.

To pass in this section students must satisfy the Examiners in two of the subjects ; they may not take more than one of the three (a), (b), (c), or of the two (e), (f).

Section 4.—LATIN :

The papers will include (1) questions on grammar ; (2) passages for translation from selected books ; (3) one or more easy unprepared passages for translation into English, a vocabulary of unfamiliar words being given ; (4) one or more unprepared passages of ordinary difficulty for translation into English ; (5) easy sentences for translation into Latin ; (6) one or more continuous passages for translation into Latin.

The selected books for 1905 are *Virgil, Æneid II.* ; *Horace, Odes I.* ; *Livy V. 1-40* ; *Cicero, Pro Murena*. Students must select one verse and one prose author from these four. Questions may be set on the language and subject-matter of the books, and upon the metre of verse subjects.

Candidates cannot pass in Latin unless they satisfy the Examiners in (1), and either in (3) or in (4). They cannot obtain the mark of distinction unless they satisfy the Examiners in (4) and in (6).

* See note * on page 27.

† Two subjects out of any two of the sections 1-14 will be accepted in lieu of one complete section in the case of candidates who have satisfied the Examiners in at least one of the sections 4-10.

‡ See note † on page 27.

§ A specimen paper in this subject is included in the Book of Examination Papers for December, 1904.

|| The paper will be on the topics treated of in Jose's *Growth of the Empire* (Murray) or Woodward's *Expansion of the British Empire* (Cambridge University Press) or any similar work.

¶¶ For 1906 a period of Roman History, but not a period of Greek History, will be set.

Section 5.—GREEK :

The papers will include (1) questions on grammar ; (2) passages for translation from selected books ; (3) one or more easy unprepared passages for translation into English, a vocabulary of unfamiliar words being given ; (4) one or more unprepared passages of ordinary difficulty for translation into English ; (5) easy sentences for translation into Greek.

The selected books for 1905 are *Plato, Apology* ; *Demosthenes, Olynthiacs* ; *Homer, Iliad XXIV.* ; *Euripides Medea*. Students must select one verse and one prose author from these four. Questions may be set on the language and subject-matter of the books, and upon the metre of verse subjects.

Candidates cannot pass in Greek unless they satisfy the Examiners in (1) and either in (3) or in (4). They cannot obtain the mark of distinction unless they satisfy the Examiners in (4).

Section 6.—FRENCH. Section 7.—GERMAN.* Section 8.—SPANISH.

The paper will include (1) questions on grammar ; (2a) passages for translation into English from selected books, and (2b), as an alternative, unprepared passages for translation into English ; (3) one or more easy unprepared passages from translation into English, a vocabulary of unfamiliar words being given ; (4) one or more unprepared passages of ordinary difficulty for translation into English ; (5) easy sentences for translation into the language ; (6a) one or more continuous passages for translation into the language, and (6b), as an alternative, subjects on one of which candidates are to write a short composition in the language.

The unprepared passages set under (2b) will be for those candidates only who do not take a selected book. Higher marks will be assigned to (2b) than to (2a). For those who take selected books, questions may be set on the language and subject-matter, and upon the metre of verse subjects. The selected books for 1905 are as follows : in French, *Mérimée, Colomba* ; *Augier, La Pierre de Touché* ; in German, *Goethe, Iphigenia* ; *Freitag, Die Journalisten* ; in Spanish, *Galdos Trafalgar (Episodios Nacionales)* ; *Samaniego, Fábulas en Verso Castellano*.

No candidate may take both (6a) and (6b).

Candidates cannot pass unless they satisfy the Examiners in (1) and either in (3) or in (4). They cannot gain the mark of distinction unless they satisfy the Examiners in (4) and in (6).

For particulars of the examination in Spoken French and Spoken German, see page 31.

Section 9.—DUTCH :

The paper will include (1) questions on grammar ; (2) passages for translation into English ; (3) passages for translation into Dutch.

Section 10.—MATHEMATICS :

(a) GEOMETRY (see page 33).

(b) ALGEBRA, including definitions and explanations of algebraical signs and terms, addition, subtraction, multiplication, and division, highest common factor and lowest common multiple, extraction of the square root, the solution of simple and quadratic equations and of problems producing such equations, graphs, † theory of indices, including the nature and use of logarithms, the elementary rules of ratio and proportion, arithmetical, geometrical, and harmonical progressions ; scales of notation, permutations, combinations, and the binomial theorem with positive integral exponents. For candidates for honours, easy questions will also be set on the more advanced parts of Algebra. Candidates will be provided in the examination-room with four-figure tables of logarithms. §

(c) PLANE TRIGONOMETRY up to the solution of triangles. For candidates for honours, questions will also be set on De Moivre's Theorem and its applications to the expansion of trigonometrical functions. Candidates will be provided in the examination-room with four-figure tables of logarithms, natural sines, natural tangents, logarithmic sines, and logarithmic tangents. § Candidates must bring with them a graduated ruler and a protractor.

(d) ELEMENTS OF ANALYTICAL GEOMETRY. ||

(e) ELEMENTS OF THE DIFFERENTIAL CALCULUS, || including the differentiation of simple functions, simple applications of Taylor's and Maclaurin's theorems, maxima and minima of functions of one variable, and tangents and normals.

(f) APPLIED MATHEMATICS, including the equilibrium of forces acting in one plane and simple graphical methods ; the properties of the centre of gravity ; friction ; the lever, the common balance, the inclined plane, and the pulley ; the screw ; the composition and resolution of velocities and accelerations in one plane ; rectilinear motion with uniform acceleration ; motion, momentum, force, mass ; work, energy, power ; projectiles ; direct impact of spherical bodies. Candidates must bring with them a graduated ruler and a protractor.

To pass in this section students must satisfy the Examiners in (a) and in (b).

Section 11.—CHEMISTRY :

(a) THEORETICAL CHEMISTRY. ¶

(b) PRACTICAL CHEMISTRY. ¶

To pass in this section students must satisfy the Examiners in both (a) and (b).

Section 12.—PHYSICS :

(a) The elementary principles of EXPERIMENTAL MECHANICS, including Statics, Dynamics, and Hydrostatics, as illustrated by simple experiments, common observation, or the action of well-known machines.

(b) HEAT.—Alternative papers are set in this subject, one on Tuesday, the other on Saturday ; candidates must state in their forms of entry which paper they will take.

(c) SOUND AND LIGHT.

(d) ELECTRICITY AND MAGNETISM.

In (b), (c) (d) questions will be set on fundamental laws and the experiments that illustrate them.

To pass in this section students must satisfy the Examiners in two of the four subjects (a), (b), (c), (d).

Section 13.—BIOLOGY AND PHYSICAL GEOGRAPHY :

(a) BOTANY. ¶

(b) PHYSIOLOGY AND HYGIENE. ¶

(c) PHYSICAL GEOGRAPHY.—Questions will be set on the present physical condition of the earth, and the physical agencies modifying it or affecting the conditions of life upon it. ¶ (Medal, see page 33.)

To pass in this section, students must satisfy the Examiners in one of the three subjects (a), (b), (c).

* See note ¶ on page 27.

† The slightly abridged edition of *Colomba*, published by the Cambridge University Press, will suffice ; but other editions may be used.

‡ When questions are set on graphs, squared paper will be provided.

§ See note ¶ on page 28.

|| These subjects will be included in the same paper, but candidates may take one of the subjects without also taking the other.

¶ Detailed schedules can be obtained on application to the General Secretary. The schedules for 1905 are the same as they were for 1904. The examination in Practical Chemistry can be held only at centres at which a properly equipped Laboratory is available for the purpose.

Section 14.—AGRICULTURAL SCIENCE. Two papers will be set, and they will include questions on Agricultural Botany and Chemistry and on the Principles of Agriculture*. Students entering for the section must take both the papers.

Section 15.—(a) BOOK-KEEPING. Questions will be set on Book-keeping by double entry. Ruled forms will be provided for the candidates. *Alternative papers are set in this subject, one on Friday, the other on Saturday; candidates must state in their forms of entry which paper they will take.*

(b) MENSURATION AND SURVEYING.—Questions will be set on Mensuration and on the Elements of Land Surveying and Levelling. Candidates should provide themselves with rulers, scales, &c

(c) SHORTHAND.—Students will be required to take down passages read aloud, and afterwards to transcribe them. Passages will be dictated at the rates of seventy words and ninety words per minute.

To pass in this section students must satisfy the Examiners in (a), and also in (b) or (c). No student may take both (b) and (c).

Section 16.—DRAWING :

(a) FREEHAND DRAWING, from a photograph or print.

(b) MODEL DRAWING, from a group of objects in which there may be included one or more of the following, namely, the cube, cone, cylinder, square pyramid, hexagonal prism, and skeleton cube : the group to be drawn in outline, and one of the objects to be shaded.

(c) PERSPECTIVE DRAWING.

(d) DESIGN.—Candidates will be supplied with a photograph or print of some characteristic portion of a plant, and will be required to fill a given space with a coloured design based thereon.

(e) MEMORY DRAWING.—Candidates will be required to draw a simple object from memory, the drawing to be executed in pen and ink.

To pass in this section candidates will be required to satisfy the Examiners in two subjects, of which one must be (a) or (b). They may not take more than one of the three subjects (c), (d), (e).

Section 17.—MUSIC. Questions will be set on Notation ; on Scales, Clefs, Keys, Intervals, Time ; on the Marks and Terms generally employed in Music ; on Cadences ; on Triads and Chords of the Dominant Seventh and their Inversions ; Single Suspensions ; Rhythmical Phrasing. Exercises will be set (on the above Chords) in not more than four parts, in which the highest or the lowest part or both will be given.

SUBSTITUTES FOR SET BOOKS.

The pupils at any school may, on application from the authorities of the school, be allowed to substitute for the set book or books in any subject in the Local Examinations another book or books, provided that the consent of the Syndicate is obtained. Such consent will not be given unless the book or books proposed in lieu of those prescribed are in the opinion of the Syndicate suitable and of equivalent length and difficulty. Any application made in accordance with this announcement must reach the General Secretary not later than April 1 in the year in which the examination is to be held. A fee, to cover the extra expense involved, will be payable by the school authorities for each special paper that has to be prepared.

EXAMINATION IN SPOKEN FRENCH AND SPOKEN GERMAN (JUNIORS AND SENIORS).

The Syndicate will arrange for the examination of Junior and Senior candidates in Spoken French and Spoken German at schools at which the authorities are prepared to pay a fee of half a crown for each candidate examined in each language (the minimum payable by any school being £1 for each language), together with the travelling expenses and the hotel expenses (if any) of the Examiner or Examiners.

Applications must reach the General Secretary not later than October 3, and the examination will be held at some time, between October 3 and the commencement of the Local Examinations, to be fixed by the Syndicate.

Candidates entering for the Spoken Examination in either language must also enter for the Written Examination in the same language, and if they pass therein and also in the Spoken Examination, the fact of their having satisfied the Examiners in the Spoken Examination will be endorsed on their certificate.

The Spoken Examination will not be necessary for passing in the language or for the mark of distinction ; it will, however, be taken into account in determining the position of candidates in the general class list, and it will be counted towards the mark of distinction in cases where the mark of distinction would not be obtained without it.

Candidates will be required (1) to read aloud a passage of French or German ; (2) to write a passage of French or German from dictation ; (3) to hold a short conversation in French or German with the Examiner.

EXEMPTIONS FROM VARIOUS EXAMINATIONS, &c.

[The Syndicate do not hold themselves responsible for any error caused by changes in requirements with which they have not been made acquainted. Students are referred to the published regulations of the respective institutions.]

A. THE UNIVERSITY OF CAMBRIDGE : PREVIOUS EXAMINATION.—The following are the conditions under which a candidate in the Senior Local Examination is entitled to exemption from parts or the whole of the previous examination (see * * on page 33) :—

(1) From Part I. if the candidate has at one and the same examination shown a sufficient degree of merit in the Gospel (including the Greek text), in Latin, and in Greek. †

(2) From Part II. if the candidate has at one and the same examination shown a sufficient degree of merit in Arithmetic, in Geometry, in Algebra, in Religious Knowledge or Logic, and in English Composition. ‡

(3) From the additional subjects if the candidate has shown a sufficient degree of merit either in Applied Mathematics or in French or in German.

B. THE UNIVERSITY OF OXFORD. §—The holder of a Senior Certificate is entitled to exemption from the examination in stated subjects in Responsions, provided (i.) that in the Senior Local Examination he has shown

* See note ¶ on page 30.

† Exemption from Part I. is granted to a candidate who, being a native of Asia and not of European parentage, has at one and the same examination shown a sufficient degree of merit in Latin, in English Composition, in an English Author, and either in one of the Gospels in the authorized English version or in English History ; provided that it has been stated in the form of entry that the candidate claims exemption under this clause, and provided further that evidence satisfactory to the Syndicate is offered showing that the required conditions as to birth and parentage are fulfilled.

‡ A student who has attained the required standard in Arithmetic, in Geometry, in Algebra, and in Religious Knowledge or Logic, but not in English Composition, is entitled to exemption from Part II. of the previous examination, with the exception of the Essay paper.

§ Students seeking exemption from any part of Responsions should, in the first instance, communicate with the General Secretary, Syndicate Buildings, Cambridge.

sufficient merit in Latin and in Greek to be qualified in these subjects for exemption from Part I. of the previous examination of the University of Cambridge; (ii.) that the certificate includes Arithmetic and either Geometry or Algebra; (iii.) that the candidate has shown sufficient merit in Latin Prose.

The holder of a Senior Certificate is entitled to be exempted from the examination in an additional subject at Responsions, provided that in the Senior Local Examination he has shown sufficient merit in French or in German to be entitled to exemption from the additional subjects of the previous examination or has shown sufficient merit in Logic to be qualified in that subject for exemption from Part II. of the previous examination.

C. THE UNIVERSITY OF LONDON.—The holder of a Senior Certificate is entitled to exemption from the Matriculation Examination of the University of London if the candidate has at one and the same examination passed (1) in English Language and Literature including English Composition, or History together with English Composition, or Geography together with English Composition; (2) in Arithmetic, Geometry, and Algebra; and (3) in three of the following subjects or combinations of subjects, not counted under (1) above: Latin, Greek, French, German, Spanish, Greek or Roman History, English History or History of the British Empire, Physical Geography, Logic, two subjects in Mathematics other than those mentioned above, Chemistry, Mechanics, Heat together with Sound and Light, Electricity and Magnetism, Botany provided that either Latin, or Mechanics, or Heat, Sound, and Light, or Chemistry or Botany is included, and provided further that one language is included.

D. THE SCOTTISH UNIVERSITIES.—The holder of a Senior Certificate is under certain conditions entitled to exemption from portions of the Preliminary Examinations in Arts and Science and in Medicine of the Scottish Universities.

E. THE UNIVERSITY OF BIRMINGHAM.—The holder of a Senior Certificate or of a Junior Certificate (with First or Second Class Honours or with distinction in two subjects which may be either Languages or Mathematics) is under certain conditions entitled to exemption from the Matriculation Examination of the University of Birmingham.

F. ARMY COUNCIL.—Army Leaving Certificates will be granted to boys of not less than seventeen years of age who hold Senior Certificates, and have complied with certain further conditions. These conditions are:—

1. That the candidate shall have satisfied the Examiners in (a) English Composition, English History Geography, Arithmetic, Geometry, and Algebra, together with a special paper on Practical Measurements; and (b) any two of the following: namely, (i.) Chemistry and Physics, including a Special Practical Examination; (ii.) French or German, including the Examination in the Spoken Language; (iii.) Latin or Greek.

2. That the candidate has produced a certificate signed by the Head Master of his school (which must be a school inspected by the Board of Education or by an inspecting body recognized by it or a school otherwise approved by the Army Council), showing that he has (a) attended three years' continuous teaching with satisfactory conduct either in the school at which he is examined, or at one or more schools approved by the Army Council; (b) that he has taken a sufficient course of instruction in elementary geometrical drawing and practical drawing, and an elementary course of practical measurements; and (c) that, if he offers Chemistry and Physics as one of the subjects in which he is examined, he has attended a sufficient course of instruction in laboratory work.

Schools at which the Special Examinations in Practical Measurements and in Practical Chemistry and Physics are held will be required to bear the cost of these special examinations. Application must be made to the General Secretary not later than October 1.

G. THE BOARD OF EDUCATION.—Holders of the Junior Certificate who are receiving approved training and instruction may be recognized as Pupil Teachers. Holders of the Senior Certificate above 18 years of age may be recognized as Uncertificated Teachers. The Senior Certificate qualifies for admission to a Training College for a course of two years (or if it be an Honour Certificate for a course of one year) provided that it includes English Language and Literature (section 2), History and Geography (section 3), and either Mathematics (section 10) or Science (either sections 11 or 12 or 13).

H. THE GENERAL MEDICAL COUNCIL.*—The holder of a Senior Certificate is qualified for registration as a Medical or Dental Student provided either (1) that the student has at one or at two examinations passed in (a) English Composition, (b) Latin, (c) Mathematics, and either (d) Greek or (e) French or (f) German or (g) Spanish; or (2) that the student has at more than two examinations passed in the above-mentioned subjects, reaching the standard for distinction either in English Language and Literature or in one of the subjects (b) to (g).

The holder of a Junior Certificate is qualified for registration as a Medical or Dental Student provided that the student (1) has at one and the same examination passed in (a) English Language and Literature, (b) Latin, (c) Geometry and Algebra, and either (d) Greek or (e) French or (f) German or (g) Spanish; and (2) has either (i.) reached the standard for distinction in one of the subjects (a) to (g), or (ii.) reached an Honours standard on the whole examination or in two of the subjects (a) to (g).

I. THE INCORPORATED LAW SOCIETY.—Persons who have obtained a Senior or a Junior Certificate are excused the Preliminary Examination before entering into Articles of Clerkship with Solicitors.

J. THE INSTITUTION OF CIVIL ENGINEERS.—A Senior Certificate exempts the holder from the Studentship Examination, provided that it includes section 2; section 3, (a) or (b), and (d); one of the sections 4 to 8 inclusive; section 10 (including Trigonometry); and either section 11 or section 12.

K. THE ROYAL INSTITUTE OF BRITISH ARCHITECTS.—A Senior Certificate or a Junior Honours Certificate exempts the holder from such of the following subjects of the Preliminary Examination as are included in the certificate:—English Composition, Arithmetic, Geometry, Algebra, Geography, English History, Latin, French, German, Applied Mathematics.

L. THE INSTITUTE OF CHARTERED ACCOUNTANTS.—Persons who have obtained a Senior Certificate under certain conditions are exempted from the Preliminary Examination. For further information application should be made to the Secretary of the Institute. Senior candidates who seek exemption from the Preliminary Examination of the Institute (for which Dictation is a compulsory subject) may be examined in Dictation if they indicate in their forms of entry that they desire to be so examined.

M. THE SURVEYORS' INSTITUTION.—A Senior Certificate in Honours exempts the holder from the Preliminary Examination of the Institution.

N. PHARMACEUTICAL SOCIETY OF GREAT BRITAIN.—A Junior Certificate qualifies the holder for registration as a Pharmaceutical Student, provided that it includes English Grammar, Latin, French or German or Spanish, Geometry, and Algebra, passed at the same or at not more than two examinations.

P. THE ROYAL COLLEGE OF VETERINARY SURGEONS.—A Senior Certificate qualifies the holder for admission to the Professional Examination if it includes English Composition, Latin, Mathematics, and one of the following: Greek, French, German, Spanish, Logic; and a Junior Certificate if it includes English Grammar, Latin, the subject-matter of Euclid, Books I., II., III., Algebra, and one of the following: Greek, French, German, Spanish. Junior Certificates will not be accepted unless all the necessary subjects have been taken at the same time. This rule does not apply to Senior Certificates.

* Candidates, whether above the age of sixteen or not, who desire to qualify for registration as Medical or Dental Students should make a statement to that effect in their forms of entry. They will then be informed in due course as to whether they have satisfied the prescribed conditions.

Q. THE INSTITUTE OF CHEMISTRY.—The Senior Examination is accepted as an approved Preliminary Examination provided that the candidate has obtained a certificate including English, Latin, Geometry, Algebra, and one of the following: Greek, French, German, Logic.

R. THE LONDON COUNTY COUNCIL.—(a) Junior County Scholars vacating their Scholarships in December are allowed six months' extension of their Scholarships if they pass the Junior Local Examination during the tenure of their Scholarships. (b) Exemption from the preliminary parts of the examination for Intermediate County, Swanley Horticultural, and Domestic Economy Training Scholarships offered by the County Council may be secured in some cases by the Senior and in some cases by the Junior Certificate; particulars may be obtained from the Executive Office, Education Department, of the London County Council, Victoria Embankment, W. C.

* Students desirous of obtaining exemption from Part I., Part II., or the additional subjects of the previous examination may, whether they already hold the certificate of the Syndicate or not, enter for those subjects alone that are required for the purpose. Students who already hold the certificate of the Syndicate and desire to add some one or more subjects in order to obtain exemption from a Preliminary Examination, can enter for such subject or subjects alone.* In all such cases the ordinary fee for entrance must be paid.

PRIZES AND MEDALS.

The Syndicate will give prizes to the four candidates who pass the best examination among the senior and junior boys and the senior and junior girls, £12 to each of the two seniors, and £8 to each of the two juniors.

The Council of the Royal Geographical Society offer four silver medals, one for the best senior in Geography (section 3), one for the best senior in Physical Geography (section 13), one for the best junior in Geography (section 3), and one for the best junior in Physical Geography (section 13), if of sufficient merit.

Sir Isaac Pitman & Sons offer two medals, one silver and one bronze, to be awarded to the junior candidates who stand first and second in Shorthand. These medals are open for competition irrespective of the particular systems of Shorthand adopted by the candidates.

The above prizes and medals are not open to juniors above the age of 16 or to seniors above the age of 19.

JUNIOR GEOMETRY.

The paper will consist of two parts, each containing questions on Practical and on Theoretical Geometry. Candidates can pass in Geometry by doing sufficiently well in Part I.; they will be expected to take questions both in Practical and in Theoretical Geometry.

Every candidate must be provided with a ruler graduated in inches and tenths of an inch, and in centimetres and millimetres, a small set square, a protractor, compasses furnished with a hard pencil point, and a hard pencil.

Questions may be set in which the use of the set square or of the protractor is forbidden.

Figures should be drawn accurately with a hard pencil.

Any proof of a proposition will be accepted which appears to the Examiners to form part of a logical order of treatment of the subject. In the proof of theorems and deductions from them, the use of hypothetical constructions is permitted.

PART I.

PRACTICAL GEOMETRY.—The following constructions and easy extensions of them:—Bisection of angles and of straight lines. Construction of perpendiculars to straight lines. Simple cases of the construction from sufficient data of triangles and of quadrilaterals. Construction of parallels to a given straight line. Construction of angles equal to a given angle. Division of straight lines into a given number of equal parts. Construction of a triangle equal in area to a given polygon. Construction of tangents to a circle. Construction of common tangents to two circles. Construction of circumscribed, inscribed, and escribed circles of a triangle.

Candidates will be expected to be acquainted with the forms of the simpler solid bodies, namely, the cube, the rectangular block, the tetrahedron, the sphere, the cylinder, the wedge, the pyramid, and the cone.

THEORETICAL GEOMETRY.—The substance of the theorems contained in Euclid, Book I., Propositions 4–6, 8, 13–16, 18, 19, 26–30, 32–41, 43, 47, 48; and Book III., Propositions 3, 14–16, 18–22, 31. Questions upon these theorems, easy deductions from them, and arithmetical illustrations will be included.

PART II.

PRACTICAL GEOMETRY.—The following constructions and easy extensions of them:—Construction of a segment of a circle containing an angle of given magnitude. Division of straight lines into parts in any given proportion. Constructions of a fourth proportional to three given straight lines, and of a mean proportional to two given straight lines. Division of straight lines in extreme and mean ratio. Division of a straight line internally or externally into segments so that the rectangle under the parts is equal to a given square. Construction of regular polygons in and about circles. Construction of a circle from sufficient data of the following character: (1) radius given, (2) point on the circle given, (3) contact with a given straight line or circle, (4) contact with a given straight line at a given point. Construction of a rectilinear figure to a specified scale or of specified area, and similar to a given figure. Construction of a square equal in area to a given polygon. [In cases where the validity of a construction is not obvious, candidates may be required to indicate the reasoning by which it is justified.]

Illustration and explanation by means of rectangular figures of the following identities:—

$$\begin{aligned} k(a + b + c + \dots) &= ka + kb + kc + \dots, \\ (a + b)^2 &= a^2 + 2ab + b^2, \\ (a - b)^2 &= a^2 - 2ab + b^2, \\ a^2 - b^2 &= (a + b)(a - b). \end{aligned}$$

THEORETICAL GEOMETRY.—The substance of the theorems contained in Euclid, Book III., Propositions 32, 35–37; Book VI., Propositions 1–8, 19, 20, 33, together with Propositions A and D. Questions upon these theorems, easy deductions from them, and arithmetical illustrations will be included.

In dealing with proportion it may be assumed that all magnitudes of the same kind can be treated as commensurable.

SENIOR GEOMETRY.

The paper in Geometry will contain questions on Practical and on Theoretical Geometry. Every candidate will be expected to answer questions in both branches of the subject.

The questions on Practical Geometry will be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. In cases where the validity of a construction is not obvious, the reasoning by which it is justified may be required. Every candidate must provide himself with a ruler graduated in inches and

* In certain cases (see above) it is made a condition that all the required subjects shall be taken at the same time.

tenths of an inch, and in centimetres and millimetres, a set square, a protractor, compasses, and a hard pencil. All figures should be drawn accurately. Questions may be set in which the use of the set square or of the protractor is forbidden.

The questions on Theoretical Geometry will consist of theorems contained in the annexed schedule B, together with questions upon these theorems, easy deductions from them, and arithmetical illustrations. Any proof of a proposition will be accepted which appears to the Examiners to form part of a systematic treatment of the subject; the order in which the theorems are stated in schedule B is not imposed as a sequence of their treatment.

In the proof of theorems and deductions from them, the use of hypothetical constructions will be permitted. Proofs which are only applicable to commensurable magnitudes will be accepted.

SCHEDULE A.

Bisection of angles and of straight lines.
 Construction of perpendiculars to straight lines.
 Construction of an angle equal to a given angle.
 Construction of parallels to a given straight line.
 Simple cases of the construction from sufficient data of triangles and quadrilaterals.
 Division of straight lines into a given number of equal parts or into parts in any given proportions.
 Construction of a triangle equal in area to a given polygon.
 Construction of tangents to a circle and of common tangents to two circles.
 Simple cases of the construction of circles from sufficient data.
 Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.
 Construction of regular figures of 3, 4, 6, or 8 sides in or about a given circle.
 Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles at a Point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

When a straight line cuts two other straight lines, if (i.) a pair of alternate angles are equal, or (ii.) a pair of corresponding angles are equal, or (iii.) a pair of interior angles on the same side of the cutting line are together equal to two right angles, then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and Rectilinear Figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by those sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram, and the diagonals bisect one another.

If there are three or more parallel straight lines, and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities:—

$$\begin{aligned} k(a + b + c \dots) &= ka + kb + kc + \dots, \\ (a + b)^2 &= a^2 + 2ab + b^2 \\ (a - b)^2 &= a^2 - 2ab + b^2 \\ (a^2 - b^2) &= (a + b)(a - b). \end{aligned}$$

The square on a side of a triangle is greater than, equal to, or less than the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The differences in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line, drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord; conversely, the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or, in the same circle) (i.) if two arcs subtend equal angles at the centres, they are equal; (ii.) conversely, if two arcs are equal, they subtend equal angles at the centre.

In equal circles (or, in the same circle) (i.) if two chords are equal, they cut off equal arcs; (ii.) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords of a circle are equidistant from the centre; and the converse.

The tangent at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and, if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semicircle is a right angle; the angle in a segment greater than a semicircle is less than a right angle; and the angle in a segment less than a semicircle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Proportion: Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar.

The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle, and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

For Candidates for Honours questions will also be set relating to other properties of triangles and circles, and to the Elementary Geometry of the plane and the sphere.

CLASS LISTS AND CERTIFICATES.

The names of the boys who pass with credit will be arranged in three Honour Classes, the First Class of Juniors being further subdivided into two divisions. In each of these classes and divisions, and also in the list of those who pass to the satisfaction of the Examiners, yet not so as to deserve honours, the candidates will be arranged in alphabetical order under the several centres. After the name of every boy will be added the school (if any) from which he comes to attend the examination, and the name of the schoolmaster. *The names of those who pass the preliminary local examination between the ages of 14 and 16, of those who pass the examination for juniors above the age of 16, and of those who pass the examination for seniors above the age of 19 will be placed in lists by themselves, in alphabetical order, not in any class of honours.* Similar classes and lists will be drawn up for girls.

Separate lists will also be given of those junior candidates under the age of 16, and of those senior candidates under the age of 19, who may specially distinguish themselves in particular parts of the examination, and in these lists the candidates will be arranged in order of merit.

The classes of honours are determined solely by the total number of marks obtained by the student. No marks are counted for any subject unless the student passes in that subject. Regard is paid to handwriting and spelling.

The students who pass with credit or satisfy the Examiners will receive certificates to that effect, which will be sent to them through the local secretaries. Every certificate will specify the subjects in which the student has passed with credit or satisfied the Examiners, and the class obtained, if any.

DETAILED REPORTS.

After the class lists have been issued in each year, the Syndicate will be prepared to inform the Principals of Schools, on receipt of a payment of 1s. for each student, of the manner in which their pupils have acquitted themselves in the several subjects in which they have been examined, describing each as *good, moderately good, &c.*; and also to place their pupils in order of merit among themselves in each subject and on the whole examination. If in any year applications are made by a school on behalf of more than fifty students, the fee payable for each student at that school after the first fifty will be 6d.

The Examination Papers, the Class Lists, and Reports of the Syndicate, may be obtained from the Publishers, Messrs C. J. Clay & Sons, at the Cambridge University Press Warehouse, Ave Maria Lane, London, and at Messrs. Deighton, Bell, and Co.'s, Cambridge, or through any bookseller, but not from the General Secretary.

Book of Examination Papers (Senior, Junior, and Preliminary), 2s.; by post, 2s. 3d.

Class List (Senior and Junior), Boys, 1s.; by post, 1s. 1½d. Girls, 6d.; by post, 7d. Class List (Preliminary), Boys, 6d.; by post, 7d. Girls, 6d.; by post, 7d.

Report and Tables (Senior, Junior, and Preliminary), 2s.; by post, 2s. 4d.

NOTICES CALLING FOR TENDERS.

SEALED Tenders, marked on the envelopes "Tender for the Loading and Unloading of Goods at Jaffna and Kankasanturai Stations," will be received up to 12 noon on Tuesday, February 7, 1905, from persons willing to contract for the above service from March 1 next.

Tenders must be submitted in duplicate, the original being forwarded to the General Manager of the Railway and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

The tenders are to be made on forms which will be supplied upon application at the office of the General Manager, and no tender will be considered unless it is furnished on the recognized form.

A deposit of Rs. 50 will be required before any form of tender is issued; and should any person decline to enter into the contract and bond after he has tendered, or should he fail to furnish the required security, such deposit of Rs. 50 will be forfeited to the Crown. All other deposits will be returned upon signature of a contract.

The security required will be Rs. 250 in cash for the two stations, and tenders should be for the two stations. Tenders for separate stations will *not* be accepted. Any further information required can be obtained on application at the office of the General Manager or from the Station Master, Jaffna.

The Government reserves to itself the right, without question, of rejecting any or all tenders, and is further not bound to accept the lowest tender.

The person whose tender is accepted by Government will be required to bear the expense of having the security bonds prepared for the due performance of the contract, which bonds will be subject to the approval of the Attorney-General, but may be drawn by the tenderer's own lawyers, the name or stamp of whom should be affixed to the documents.

Every alteration should bear the initials of the tenderer, and all tenders containing alterations not bearing the tenderers' initials will be treated as informal and rejected.

Before tender forms are supplied to persons wishing to tender, they will have to satisfy the General Manager or person delegated by him that they are in a position to execute the contract in a satisfactory manner, and for this purpose they must be prepared to produce documentary or other evidence, if called for.

G. P. GREENE,
General Manager.

General Manager's Office,
Colombo, January 9, 1905.

TENDERS will be received by the Hon. the Auditor-General and the Provincial Engineer of the Central Province for the supply of materials for the use of the Public Works Department, Central Province, at the following districts from March 1 to December 31, 1905, up to noon on Saturday, February 18, 1905:—

Kandy District.

2. To be delivered at Kandy within Municipal limits, Deltota, Hanguranketa, and Maturata.

Katugastota District.

To be delivered at Katugastota, Panwila, Kelebohka, Teldeniya, and Galagedara.

Matale District.

To be delivered at Matale, Nalanda, Naulla, Rattota, Dambulla, and Galawela.

Pussellawa District.

To be delivered at Gampola, Pussellawa, Pupuressa, Watagoda, Pundalu-oya, and Ramboda.

Dimbula District.

To be delivered at Nawalapitiya, Craigie Lea, Lindula, Agrapatana, and Nanu-oya.

Dikoya District.

To be delivered at Hatton, Dikoya, Maskeliya, Watawala, and Nawalapitiya.

Nuwara Eliya District.

To be delivered at Nuwara Eliya, Nanu-oya, Lindula, Uda Pussellawa, Hakgalla, and Ambawella.

LIST OF MATERIALS.

- *Half-round tiles, per 1,000.
- *Ridge tiles, per 1,000.
- *Bricks, per 1,000.
- Cadjans, per 1,000.
- *Jak reapers, per 1,000. lin. ft.
- Jakwood in scantlings sawn from 2 in. to $\frac{1}{2}$ in., per square ft.
- *Lunumidella ceiling boards, per 100 square ft.
- *Lime, slaked and screened, per cubic ft. measured in cart.
- *Lime, slaked and screened, per bushel.
- *Lime, boiled, per bushel of 92 lb. in weight.
- *Gunny bags, second-hand, each.
- *Charcoal, per cwt.
- *Talipots, each.
- *Rattan baskets, each 18 in. diameter top, 6 in. diameter bottom, 9 in. deep, of whole cane throughout, inside measurement.

3. Each tender to give separate rates for material delivered at each station.

4. Tenders must be sealed and endorsed on the envelopes "Tender for supply of Materials, Central Province."

5. Tenders must be submitted in duplicate, the original being forwarded to the Provincial Engineer and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

6. Tenders must be on forms which may be obtained at the office of the Provincial Engineer, Kandy, and no tender will be considered unless it is furnished on the recognized form thus obtained.

7. Parties applying for form of tender will be required to deposit the sum of Rs. 50 either at the Kachcheri or the Treasury and produce a receipt for the same. Should the party fail to enter into the necessary contract, or deposit the sum of Rs. 100 as security within ten days of receiving notice in writing signed by the Provincial Engineer, Kandy, that the Government is prepared to accept his tender, the sum of Rs. 50 deposited will be forfeited by way of ascertained and liquidated damages.

8. Every alteration should bear the initials of the tenderers, and all tenders containing alterations not bearing the tenderers' initials will be treated as informal and rejected. Samples of materials marked (*) should be forwarded to the Provincial Engineer properly labelled on or before date of tender.

9. The Government does not bind itself to accept the lowest or any tender.

10. The Government reserves to itself the right, without question, of rejecting any or all tenders, and the right of accepting any portion of a tender.

L. CREASY,
Provincial Engineer.

Public Works Department,
Kandy, December 23, 1904.

TENDERS will be received by the Hon. the Auditor-General and the Provincial Engineer of the Central Province for the construction of the 2nd, 3rd, and 4th miles of the road from Brookside estate to High Forest estate, Nuwara Eliya District, in the Central Province, up to noon on February 4, 1905.

2. Tenders must be sealed and endorsed on the envelopes "Tender for the construction of the 2nd, 3rd, and 4th miles of the road from Brookside estate to High Forest estate, Nuwara Eliya District."

3. Tenders must be submitted in duplicate, the original being forwarded to the Provincial Engineer and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

4. Tenders must be on forms which may be obtained at the office of the Provincial Engineer, Central Province, Kandy, and no tender will be considered unless it is furnished on the recognized form.

5. Parties applying for form of tender will be required to deposit the sum of Rs. 50 either at the Treasury or the Kachcheri and produce a receipt for the same. Should the party fail to submit in accordance with the terms of the specification a *bonâ fide* tender, or to enter into the necessary contract, or deposit the required cash security, the sum of Rs. 50 deposited will be forfeited by way of ascertained and liquidated damages.

6. Plans and specifications may be seen, and further information obtained, on application at the Provincial Engineer's Office at Kandy.

7. Before any tender is accepted the contractor will be required to sign a contract to execute and perform the works in accordance with the specification and the general conditions therein set forth, and to deposit a sum of Rs. 4,000 for the due and faithful performance of the contract within ten days of receiving notice in writing signed by the Provincial Engineer of the Central Province accepting his tender.

8. The Government does not bind itself to accept the lowest or any tender.

L. CREASY,
Provincial Engineer, Central Province.

Public Works Department,
Kandy, December 29, 1904.

TENDERS will be received by the Hon. the Auditor-General and the Provincial Engineer of the Western Province for completing Civil Medical Stores, Maradana, up to noon on Saturday, January 28, 1905.

2. Tenders must be sealed and endorsed on the envelopes "Tender for completing Civil Medical Stores, Maradana."

3. Tenders must be submitted in duplicate, the original being forwarded to the Provincial Engineer and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

4. Tenders must be on forms which may be obtained at the office of the Provincial Engineer, Western Province, and no tender will be considered unless it is furnished on the recognized form thus obtained.

5. Parties applying for form of tender will be required to deposit the sum of Rs. 50 either at the Treasury or the Kachcheri and produce a receipt for the same. Should the party fail to submit in accordance with the terms of the specification a *bonâ fide* tender or to enter into the necessary contract, the sum of Rs. 50 deposited will be forfeited by way of ascertained and liquidated damages.

6. Plans and specifications may be seen, and further information obtained, on application at the Provincial Engineer's Office at Gunter House, Darley lane, Maradana, Colombo.

7. Before any tender is accepted the contractor will be required to sign a contract to execute and perform the works in accordance with the specification and the general conditions therein set forth, and to deposit a sum of 10 per cent. of the contract for the due and faithful performance of the contract within ten days of receiving notice in writing signed by the Provincial Engineer of the Western Province accepting his tender.

8. The Government does not bind itself to accept the lowest or any tender.

9. The time required for completion of work should be stated in the tenders.

W. POLE FLETCHER,
Provincial Engineer.

Public Works Department,
Colombo, January 4, 1905.

TENDERS will be received by the Hon. the Auditor-General and the Provincial Engineer, Northern Province, for the conveyance of materials by cart during 1905, until the opening for traffic of the railway to and from the under-mentioned places, up to noon on Saturday, February 11, 1905:—

To and from Anuradhapura railway stations and Vavuniya Public Works Department Store.

2. Tenders must be sealed and endorsed on the envelopes "Tenders for conveyance of Materials by Cart, Northern Province."

3. Tenders must be submitted in duplicate, the original being forwarded to the Provincial Engineer, Northern Province, and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

4. Tenders must be on forms which may be obtained at the office of the Director of Public Works or the Provincial Engineer, Jaffna, and no tender will be considered unless it is furnished on the recognized form thus obtained.

5. Parties applying for forms of tender will be required to deposit the sum of Rs. 50 either at the Treasury or the Kachcheri and produce a receipt for the same. Should the party fail to submit in accordance with the terms of the specification a *bonâ fide* tender or to enter into the necessary contract, the sum of Rs. 50 deposited will be forfeited by way of ascertained and liquidated damages.

6. Further information may be obtained on application at the office of the Director of Public Works or at the office of the Provincial Engineer, Jaffna.

7. Before any tender is accepted the contractor will be required to sign a contract to carry out his undertaking in accordance with the specification and general conditions therein set forth, and to deposit a sum of Rs. 100 for the due and faithful performance of the contract within ten days of receiving notice in writing signed by the Provincial Engineer, Northern Province, that the Government is prepared to accept his tender.

8. Every alteration in the tender should bear the initials of the tenderer, and all tenders containing alterations not bearing the tenderers' initials will be treated as informal and rejected.

9. The Government does not bind itself to accept the lowest or any tender, and reserves the right to accept any portion of a tender.

GEO. WADDELL,
Provincial Engineer, Northern Province.

Public Works Department,
Jaffna, January 6, 1905.

Amended Notice.

SEALED Tenders, marked on the envelopes "Tender for supplying Materials for the Salt Stores (A), at Hambantota and (B) at Kirinda during the year 1905," will be received up to noon on January 24, 1905, for supplying the materials enumerated below:—

Description of Materials.	Per
Cadjans, new, and not less than 6 ft. in length	1,000
Coir yarn, dry, and of good quality	... cwt.
Cocoonut oil	... gallon
Kerosine oil	...
Umang sticks, 18 ft. long	... 100
Bata bamboos	... 100
Baskets (18 in. in diameter, 7 in. deep)	... 100
Pingo sticks	... each

Planks, del	} 1 in. by 14 in. or more	... sq. ft.
Do. sapu		
Do. jak		
Do. mango		
Chunam, boiled, in cakes	...	100
Do. slaked	...	bushel
Coal tar	...	gallon
Beams, halmilla, 3 in. by 4 in.		
Do. satinwood, 2 in. by 12 in.		
Rafters, cocoanut 2 in. by 4 in.		
Do. do. 1½ in. by 2 in.		
Post, karawu, 8 ft. long, 18 in. circumference		
Do. do. 12 ft. long, 18 in. circumference		
Wall sticks, galkulu 12 ft. long, 12 in. circumference	...	100
Kotus, tarana, ulkenda or galkera	...	100
Post, karawu, 15 ft. long, 18 in. circumference		
Gunny bags, new (3 ft. by 2 ft.)		
Twine, Bengal, new		

Tenderers will note the following requirements :—

Cadjans and timber should be supplied within seven days of the service of orders therefor.

Every tenderer must deposit a sum of Rs. 20 in the Kachcheri before tendering. No tender will receive any consideration where no such deposit has been made. This deposit will be forfeited to Government if the tenderer is not prepared to enter into contract, or is unable to furnish certified security in Rs. 1,000 for the due fulfilment of the contract. The unforfeited deposits will be returned to the tenderer.

Every alteration in the rates of tender should be intialled by the tenderer.

A duplicate of tender should be forwarded by the tenderer by post to the Hon. the Auditor-General, Colombo, at the same time that he forwards the original to the Assistant Government Agent, Hambantota.

The tenderers should be at hand at the Kachcheri on the day of opening of tenders so that they or any of them may be spoken to, if it is found necessary to do so. Government may accept or reject any tender.

A. C. ALLNUTT,
Assistant Government Agent.

Hambantota Kachcheri,
January 9, 1905.

2. Tenders should be submitted in duplicate, the original being forwarded to the Government Agent, Province of Sabaragamuwa, and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

3. A deposit of Rs. 20 will be required before any form of tender is issued, which can be obtained at the Forest Department, Province of Sabaragamuwa; and should any person decline to enter into the contract after he has tendered, or fail to furnish the necessary security, such deposit will be forfeited to the Crown. All other deposits will be returned after signature of contract.

4. The deposit for forms must be made in the Ratnapura Kachcheri to the credit of the Government Agent, Province of Sabaragamuwa, and the deposit receipt must be produced to the officer issuing the form of tender as his authority for making the issue.

5. No tender will be considered unless it is on such printed forms, and in each tender the price per cubic foot of wood at which it can be supplied should be stated.

6. A deposit in cash will be required as security for the due performance of any contract made at the rate of Rs. 5 per every Rs. 100 of value.

7. All alterations or erasures in tenders should bear the initials of the tenderer, otherwise the tender will be treated as informal and rejected.

8. Government reserves to itself the right, without question, of rejecting any or all tenders, and the right of accepting any portion of a tender.

9. Further particulars can be obtained on application at the Ratnapura Kachcheri to the Assistant Conservator of Forests, Province of Sabaragamuwa.

Ratnapura Kachcheri,
January 4, 1905.

W. A. WEERAKOON,
for Government Agent.
